MRS. JOB TAYLOR

The hearts of the many friends of Mrs. Job Taylor were saddened last Friday morning when the news of her death in a Baltimore hospital at an early hour that morning was flashed over the wires and circulated through our community.

Mrs. Taylor came to Roanoke Rapids about six years ago with her husband, Mr. Job Taylor, President and General Manager of the Halifax Paper Corporation and prominent among the leading manufacturers in the paper industry. She soon became identified with the church, social and charity work of the community and gave liberally her time and talent for the betterment of the community.

Mrs. Taylor was one of the organizers of the Roanoke Rapids Presbyterian Church, and devoted much of her time in the conduct of its affairs. As President of the Presbyterian Ladies Aid Society Mrs. Taylor directed the Society's affairs in an admirable manner, the fruits of which efforts contributing largely towards the erection and furnishing of the handsome Presbyterian edifice, which stands close to her last earthly home.

As Chairman of the local Red Cross, Mrs. Taylor gave unselfishly of her time and means during its war activities. Besides her Red Cross work, she aided in all the war work campaigns when possible.

Mrs. Taylor was the daughter of Mr. E. H. Hawkins, of Noblesville, Ind., and was educated in the schools and colleges of her native state. She was a highly cultured woman with a strong and benevolent personality, genial and friendly with her associates and co-workers and loved and admired by all who knew her.

About eleven years ago the deceased married Mr. Job Taylor, and is survived by him, her father and one sister.

INFORMATION ON FERTILIZING OFFERED

Fertilizer is made by men, material and machinery. Any one with the necessary money can get these together and make a fertilizer, but to give the product personality requires something more. The Royster brands have back of them the personality of Mr. F. S. Royster whose life-work they are. They represent research, unflinching courage high ideals, foresight and independence. Starting from small things, the present great organization with 13 modern factories and selling over 400,000 tons a year, is built up and controlled by one dominating spirit. And a large part of the success of the Royster brands is due to the real human element, which is the strongest characteristic of the head of the business and permeates the entire organization.

Mr. Royster values very highly the many letters received from the farmers who actually use his goods, and invites personal correspondence with any one who have plant-food problems or accounts of results from fertilized lands. Just address F. S. Royster, Norfolk, Va.
