REMEMBER

Next Tuesday is the twenty ninth and The Men's Tuesday Night Bible Class has promised you a genuine treat. Their plans are completed and every thing in readiness for a good time for all. What is it? Why you will be informed in good season to make ready for this happy event.

"It's a Men's Class"

The government of the United States is your government. That government has given its sacred word to do certain things. These things require the expenditure of great sums of money.

Your government must keep its word, must spend these sums of money. This money can only be secured now in two ways: either by taxation or by borrowing. Taxes are high enough, are they not? Nevertheless, they will not produce enough to meet the present need.

Then, the only way the United States can pay for peace is by borrowing the balance needed \$4,500,000,000. All right then, your government must borrow \$4,500,000,000 and since other countries have no money to lend, it must borrow this money in the United States and from one or two sources.

Your government must borrow from the banks and other financial institutions or it must borrow from millions of patriotic citizens. If this money could be borrowed from the banks, would it be wise? With all of their capital tied up in Government securities, how could the banks perform their normal functions of financing regular business enterprises and development projects? Without being financed, how could factories and business operate, how could the country be developed, how could people live? Think it over!

Very well then, there is one course left open. Your government must borrow from you and from every other individual up to each one's limit of lending. Hence the Victory Liberty Loan on April 21, 1919.—the loan of victory, peace and thanksgiving.

These are just facts. Can you see any other way out of it? We can't. The Treasury Department cannot, and after you think it over and consider that the government is asking you to subscribe for an absolutely gilt-edged, short term, good interest-bearing security, and by doing it help pay for victory and for victory and peace and prosperity, you won't want to find any other way out, but will. Like a true American, you will step up and say—

"Sure, we'll finish the job! Uncle Sam can have the use of all my money to pay for peace! I can go over the top in the Victory Liberty Loan if my boy could do it at St. Mihiel."

Health Hints. Don't eat too much, don't drink too much, don't work too hard, keep on the shady side of the street and keep your health.

General Pershing's staff reports officially that if the war had lasted six months longer—one hundred thousand more American soldiers would have been killed.

One hundred thousand of these boys that are coming back to us every day now, would have been dying in the mud of France—if the armistice had been signed last Thursday instead of last November.

Are we grateful to those who died?

Are we grateful to those who were maimed for life in our fight?

Are we grateful to have so many boys back with us safe and sound?

Is there enough gratitude in the world to express the thanksgiving in our hearts because victory came so soon?

The money that you are putting into the Liberty Loan is the money that was spent to end the war six months—perhaps twelve months—sooner; to save the lives of one hundred thousand or maybe four hundred thousand American boys, to bring your boy safely home—for he might have been one of that four hundred thousand and saved from French mud.

Well—is he not worth it? Is not each one of that four hundred thousand worth it to his loved ones?

Was it not cheap at that? Dollars can not measure the value of American life.

We have a lot to be thankful for—we might all have been wearing those little black armbands with the gold star.

Put your joy into action, not words. Help pay for your boy's life with a Victory Liberty Loan bond.

FARMER EXPECTED TO SUPPORT LOAN

Stirring Appeal is Sent Out by Heads of Thirty-five National, Interstate and State Agricultural Organizations.

A stirring appeal to American farmers to maintain their wartime precedent of patriotism and loyalty in the support of the Fifth Liberty Loan has been issued by the heads of thirty-five national, interstate and state farmers organizations.

To make your participation in the Victory Liberty Loan both in money and service, the measure of your devotion to the great cause of democracy is the cause for which these farm organization leaders, headed by J. N. Tittmore, president, American Society of Equity of Madison, Wis., have sent a message to all farmers of the country, as follows:— "The Farmers of America: "No finer patriotic service was ever rendered than when the farmers of

America, short of labor, could not farm supplies, still grow the necessary crops without which we could not have won the war. The boys, women and children gave their bodies in the fields and the farms and more than a million of their best men and women. The more that is known about the war, the more gloriously our fathers' part in it will shine.

The Victory Liberty Loan Drive begins April 21 and continues until May 19. We appeal to the farmers of America, to finish what you have so well begun. Make this loan an unswerving success as the war campaign you have raised. See to it that the farmers lead in putting the Victory Loan over the top.

"Make your participation in the VICTORY LIBERTY LOAN both in money and service, the measure of your devotion to the great cause of democracy—the democracy for which many of our boys have made the supreme sacrifice. Let your subscription and your effort be both an offering of thanksgiving for the victory of peace and the measure by which the world may measure the strength of your patriotism and your determination to see to it that the war shall not have been fought in vain.

Yours fraternally, "J. N. Tittmore, president, American Society of Equity, Madison, Wis. "Grant H. Slocum, president, National Cleaners' Association, Detroit
