The Polish attitude incensed the German leaders, who notified the inter-allied commission that the Germans would hold no conversations with the rebels and would not agree to an exchange of prisoners, but if the Poles carried their threats to shoot German police the Germans would be forced to reprisals against Polish prisoners.

New York—A veritable flood of gold is sweeping upon the shores of the United States. Already the precious metal in this country has attained the unprecedented amount of \$3,001,487,915, and yet the tide is rising.

The precious metal is coming from all quarters of the globe. Sweden is sending gold received from Germany for war supplies, also bar gold or bullion, which many believe to be of Russian origin.
