

Comparatively Little Water in Lakes.
All the lakes in the world are estimated to contain only 2,000 cubic miles of water, compared with 324,000,000 cubic miles of water in the oceans.

Old Plague—Leprosy Told.
When a disease first came into use in Europe it was generally regarded as a cure for leprosy and a protection against catching the plague, etc.

Mrs. Bowen Tells How Rats Almost Burned Her House Down

"For two months I never went in our cellar, fearing a rat. One night in bed I smelled fire. Sure enough the rat had been nibbling at the matches. If I hadn't acted promptly my house would have been burned. Later we found the dead rat. RATSNAP killed it. It's great stuff". Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Roanoke Pharmacy Co., Roanoke Rapids N. C. Patterson Store Co., Rosemary, N. C.—Adv.

NOTICE OF SALE

Under and by virtue of a power of sale conferred upon the undersigned by a certain purchase money deed of trust executed by W. H. Scipes, which is recorded in Book 317 at Page 38, office of the Register of Deeds for Halifax County, default having been made in the payment of the indebtedness thereby secured, and having been duly registered by the legal holders thereof I will on Monday, February 6th, 1922, at 11 o'clock A. M. at the court house door in Halifax, Halifax County, N. C., expose to public sale to the highest bidder for cash the following described real property, to-wit: Three certain lots or parcels of land near the town of Rosemary and lying on the east side of Burton Street shown and designated as Lots Nos. 17, 18, and 19 on that certain map or plot of record in the office of the Register of Deeds of Halifax County, N. C., in Plot Book No. 2 at Page 80, reference to which is hereby made for more accurate description.
This January 5th, 1922.
W. L. Long, Trustee
6-4t wll.

**The Farmer's Worst Enemy—Rats
The Farmer's Best Friend—
Rat-Snap."**

These are the words of James Baxter, N. J.: "Ever since I tried RATSNAP I have always kept it in the house. Never fails. Used about \$3.00 worth of RAT-SNAP a year and figure it saves me \$300 in chicks, eggs and feed. RAT-SNAP is convenient, just break up cake, no mixing with other food." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Roanoke Pharmacy Co., Roanoke Rapids N. C. Patterson Store Co., Rosemary N. C.—Adv.

Total	\$13.54

H. E. Dolbins, Tax Collector

Sensible and Secure
Transfer only the records likely to be needed, and transfer them into GF Allsteel Transfer Files. Four GF Allsteel drawers hold as much as five wood ones; they are more desirable than wood in every way, and can be stacked any height. They cannot burn nor warp. They are strong, everlasting and rodent proof. Drawers run smoothly, contents are as easily get-atable as the contents of current files.

GF Allsteel
Office Furniture
For Big Business and Little

More practical, more economical, more desirable than wood, and more handsome. Three finishes, Green, Oak and Mahogany. Desks, safes, filing systems, etc. Every article electrically welded into one piece. No nuts or bolts to work loose nor attachments to mar its beautiful appearance. Investigate the everlasting merits of GF Allsteel Office Furniture today.

Herald Publishing Co.
Roanoke Rapids, N. C.

Filing Pershing's Overseas Records

The picture shows how Gen. Pershing's invaluable overseas records of the American Army are filed in Allsteel cabinets in the Army War College, Washington.

Filing Cabinets for Modern Business

Such firms as Packard Motor Car Co., Singer Sewing Machine Co., Equitable Life Assurance Co., J. P. Morgan & Co., use Allsteel furniture because of its strength, beauty, convenience, permanence and economy—saves 15 to 25% space over wood furniture and has a far greater capacity.

GF Allsteel Office Furniture

Allsteel files are the strongest made and take less floor space than any other. They afford protection against fire, dust, vermin, and rodents.

Whether you need desks, filing cabinets, a safe, waste baskets, you are certain to find just what you need among the Allsteel line of office furniture, the equipment that belongs with success.

Herald Publishing Company
Roanoke Rapids, N. C.

Infant Collier Cloth.
Infant Collier cloth is mentioned by Herodotus and was known in Arabia in the 7th century. In Spain cotton was spun extensively grown and manufactured in the 15th century, but its manufacture was not introduced into other countries until some centuries later.

Art Illustration.
Ivory had come into possession of a man—something he had always wanted. He and the dog were inseparable. Central asked him to his study for the picture. He hesitated, but finally said: "I'd like to go first, if I can take my dog about. Where I go he goes. It's just like we were twins."

Study the Golden Rule.
Milk is the best and most energy giving because it does not do by others as it would be done by himself. He may not realize it, but the more he studies the Golden Rule the more he will find therein relating to correct conduct—(a).

Evaluation of Writing.
The earliest Greek inscriptions were written from right to left. Next came the method called "boustrophedon," in which the writing lines ran alternately from left to right, or vice versa. Lastly, writing from left to right became universal.

Oyster Preparation.
Oyster shells and other objects placed on oyster grounds to provide points for the attachment of the spawn are called "cutch." Tin cans, bits of crockery, trash, etc. were formerly much used for this purpose, but now cutch consists almost entirely of shells, and especially oyster shells.

Festival of the Quail.
In the Mediterranean, no bird is better known than the quail. Twice a year he passes over the great inland sea. His coming is quite a festival, and many a peasant's overdue rent is paid at his expense.

"Yankee Doodle."
The origin of this national air is unknown. The words were probably written by Edward Banks between 1770 and 1775. The tune has been ascribed to several countries, but is probably English. It was known as early as 1707.

Immense Sum Annually Lost.
In finding raw bituminous coal there are lost every year in this country by-products to a value of more than \$200,000,000. These are chiefly coal tar, ammonium sulphate, surplus gas, benzene and toluene.

Administrator's Notice

Having qualified as administrator of the estate of Emanuel Williams, deceased, late of the County of Halifax, North Carolina, this is to notify all persons having claims against the estate of the deceased to exhibit them to the undersigned on or before the 20th day of January, 1922, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.
This the 12th day of January, 1922.
S. M. Thompson
Administrator of Emanuel Williams.
1-20-22

Eiffel Tower of Milk.
So enormous is the consumption of condensed milk in various forms that a year's supply would be no light burden for all the soldiers at present serving in the world's armies. To get a more vivid conception of its vastness, let us fashion a column from the hundreds of millions of tins which contain it; we shall then find that our column, standing on a base one hundred feet square, will rise higher than the summit of the Eiffel tower. Its height, in fact, will be 1,100 feet, and on its top there will be comfortable standing room for four battalions of soldiers.

Symbolic October Gems.
For the person born in October who wishes to have a ring showing the stone of his guardian angel and apostle for the month—a quaint old custom worth reviving—it is worth knowing that for the angel named Bariel, agate is the stone, and for the apostle Simon Jacinth is selected. The combination, though symbolic, might not be altogether pleasing. The hop, anciently used as the symbolic flower of the month, is sometimes used as the design in an ornamental gold ring, for persons born in October.

The Care of Jewels.
It is stated by good authority that the safest way to carry jewels is in a belt, made for the purpose, around the waist. This is not exposed and is secure. If reasonable care is taken in adjusting it, and it is not uncomfortable, the worst possible way is to put them in a jewel case. The business of duplicating strings of pearls is at present a profitable industry of the Riviera towns. The imitations are worn and the genuine are kept in the safe.

Coal Still Supreme.
Even if it were possible to develop and utilize at once every possible economic waterpower resource in America, the total energy thus made available would replace only a small part of the horse-power now derived every year from coal. While development of water power is important, experts point out that coal will remain the principal source to which the country must look for development of power facilities.

Surely a Good "Catch."
There is a great deal that the King of Siam has to offer a wife. He has 20 palaces, a "Diamond City," a herd of white elephants, nearly two million pounds' worth of diamonds, pearls, rubies and other precious stones, a state barge with a hundred and twenty oarsmen, thousands of other royal barges, a share in 24 golden umbrellas and many other luxuries.

Peculiarities of Hair.
Examined through a microscope, the hair may show certain peculiarities; the hairs of different people vary considerably. Apart from color, they may be coarse, medium, or fine; in shape they may be round or oval; in structure they may be made up of large or small rings. Certain races, too, have hair of a very distinctive type.

For the Invalid.
Straws may be used in giving liquids to sick children when they cannot be moved. Glass tubes are easily broken, but a bundle of straws, such as used at soda fountains, may be purchased at small cost.

Not Influenced by the Moon.
The bureau of animal industry says there is no foundation in fact for the superstition that the various phases of the moon has anything to do with the proper time to set hen's eggs.

The Dark Cloud.
It is not surprising that clouds come in for more or less criticism. They live high, are often dissipated, and can usually be classed with the wets.

Every Individual.
Every individual has a place to fill in the world, and is important in some respect, whether he chooses to be so or not.—Hawthorne.

Don't Neglect Eyes.
The majority of people do not care for their eyes as they should. The eye is too delicate an organ to be subjected to haphazard treatment. A sudden change from a very bright light to darkness should be avoided and, if the eyes are at all weak, the prevailing color in the room in which such a one spends much time, should be in some tint that is soothing and restful to the eyes.—Detroit News.

When Foote Scored on Garrick.
Garrick, the famous actor, was well known for his meanness, and one day Foote, the comedian, scored neatly. Garrick had been ridiculing a third party, when he retorted and said: "Well, I suppose I ought to take the beam out of my own eye before I condemn another." "So you would," retorted Foote, "if you could but sell the timber!"

What Club Meant to Him.
Bobbie, a four-year-old, was invited to go with his mother to the Mother's club. He showed no great desire to go and, after his mother had repeatedly told him that she wanted him to go with her, said with a great show of resignation, "Well, I s'pose I'll have to, and let them hit me all they want to."

Derivation of "London."
The derivation of the name "London" is obscure. Some authorities believe it to be a combination of the old British words "lyn," meaning "lake" and "din" meaning "town," possibly because until recent times the southern side of the river Thames was practically a swamp.

Water in Which Fish Can't Live.
At the greatest depths of the Black and Caspian seas there is no animal life. In the case of the Black sea this is on account of the presence of sulphuretted hydrogen in the water, while in the Caspian there is not enough oxygen at great depths to maintain any form of animal life.
