WOMAN'S WORLD IS WIDER

increased Opportunities for Gainful Employment Are Found by the Fair Sex,

Women are now enfranchised and enjoy almost equal educational oppor-tunities with men. They may enter practically all professions and trades, and 21.01 per cent of them are gainfully employed.

The passage by almost every state of married women's property and equal guardianship acts has freed wives and mothers from the medievalism of the guardianship acts has freed wives and mothers from the medievalism of the common law, says Beatrice Forbes-Robertson Hale in Current History Magazine. Millions of home-making women are organized for cultural, philanthropic and civic ends, which modern demestic conveniences and is-bor-savine devices give them leigure to bor-saving devices give them leisure to pursue. City homes are smaller and social life is consequently spent more

social life is consequently spent more in public.

Prosperity and machinery have given us on the one hand the largest leisure class of women the world has known, while on the other hand miodern industries (replacing the old home industries by quantity production is factories), plus the increased cost of little drives an over larger propose. living, drives an ever larger propor-tion of women into extra domestic re-munerative work
