

Preserving Honey.
 Extracted honey can be kept indefinitely if it has been fully ripened before extracting, and if it is not exposed to the moisture of the air. It usually crystallizes in a few weeks or months, but may be kept at any time, and will retain its flavor and consistency indefinitely.

Blue Uniforms Too Heavy.
 When the volunteer troops were called for the Spanish-American war it was found that the heavy dark blue uniform was too warm for service in the tropics. A service uniform of khaki cloth was therefore introduced. In 1902 the whole dress regulation of the army was changed.

There's a Difference.
 Jud Tunkins says when you are talking to a crowd you have to pretend to be smarter than you are, but when you're talkin' to one person it's best to let him feel that the advantage is mostly on his side—especially in a trade.

Gravel.
 Gravel is the name given to aggregations of water-worn and rounded fragments of rock, varying from the size of a pea to that of a walnut. When the fragments are smaller than this the deposit is sand; when larger, it is called shingle. Gravel deposits are formed by the action of running water, and are usually limited in size, occurring with more extensive strata of sand.

When Chicago Was Settled.
 The site of Chicago was discovered in 1673, but the first house was not built until 1773, by Jean Baptiste Point de Sable. In 1793 he sold his claim to Le Mail, a French fur trader who in turn sold to John Kinzie, the first white man to make his home there. In 1803 Fort Dearborn was erected on the south bank of the river.

The Sans-Culottes.
 The name Sans-Culottes was given by the aristocrats at the beginning of the French revolution to the democratic party in Paris, because they gave up wearing knee-breeches in vogue then among the nobility, and adopted trousers, or pantaloons, in stead. The term was first applied in contempt; but was afterwards adopted as synonymous with "good patriots" by the popular party.

How Shot Are Made.
 Shot now made by running molten lead combined with a little arsenic through a sieve or by pouring it from a ladle with a serrated edge from a high tower into water at the bottom. The stream of metal breaks into strips which become spherical.

DON'T WASTE TIME

It's a waste of time to experiment with liniments and plasters when you sharp, stabbing twinges. Get after the cause! Help the kidneys with Doan's Kidney Pills. Read this.
 Mrs. Bettie Hodgson, Hamilton St., Roanoke Rapids, says: "My back began to hurt so it was hard for me to go about my work. Several months ago I had a spell like this and was bothered so much when I first got up in the morning with a pain across the small of my back that I felt as though my back would break. It was getting to be a task for me to do my work properly. Stiffness and dull pains in my kidneys bothered me a lot and gave me dizzy spells, at times. Often I imagined dark spots were floating before my eyes. This misery had me just about dragged out. I read about Doan's Kidney Pills and decided to try them. I bought two boxes at the Roanoke Pharmacy and when I had finished taking them, I felt much better. Doan's helped me and I was satisfied with the result."

Self-Solution.
 The best way to cure some folks of their surplus conceit is to give them a little authority and let nature take its course.—Fayette Advertiser.

 Jud Tunkins says one of the hardest-worked men he knows of is one who good-naturedly got the reputation of always being the life of the party.

A Wish

"I have taken Cardui for run-down, worn-out condition, nervousness and sleeplessness, and I was weak, too," says Mrs. Elvira Estes, of Jennings, Okla. "Cardui did me just lots of good—so much that I gave it to my daughter. She complained of a soreness in her sides and back. She took three bottles of Cardui and her condition was much better."
 "We have lived here, near Jennings, for 26 years, and now we have our own home in town. I have had to work pretty hard, as this country wasn't built up, and it made it hard for us."
 "I WISH I could tell weak women of Cardui—the medicine that helped give me the strength to go on and do my work."
