A Millionaire.
To be a millionaire in the United States a man must have \$1,000,000 in England, £1,000,000; in France, 1,000,000 francs. In his own country a man must possess a million in the currency of his country to be termed a millionaire.

Why Lemon?
By carefully arranging utensils and supplies to eliminate extra steps and motions, experiments at the University of Washington have demonstrated that a housewife can cut nearly 11 minutes from the time or nearly taken to make a lemon pie.

Severe Indigestion

"I had very severe attacks of indigestion," writes Mr. M. H. Wade, a farmer, of R. F. D. 1, Weir, Miss. "I would suffer for months at a time. All I dared eat was a little bread and butter. . . consequently I suffered from weakness. I would try to eat, then the terrible suffering in my stomach! I took medicines, but did not get any better. The druggist recommended

Thedford's BLACK-DRAUGHT

and I decided to try it, for, as I say, I had tried others for two or more years without any improvement in my health. I soon found the Black-Draught was acting on my liver and easing the terrible pain.

"In two or three weeks, I found I could go back to eating. I only weighed 123. Now I weigh 147—eat anything I want to, and by taking Black-Draught I do not suffer."

Have you tried Thedford's Black-Draught? If not, do so today.

The Sans-Culottes.
The name Sans-Culottes was given to the aristocrats at the beginning of the French revolution to the democratic party in Paris, because they were wearing knee-breeches in contrast to the nobility, who wore long trousers, or pantaloons, in vogue then. The term was first applied in contempt; but was afterwards adopted as synonymous with "good patriots" by the popular party.

How Shot Are Made.
Shot is made by running molten lead combined with a little arsenic through a sieve or by pouring it from a ladle with a serrated edge from a high tower into water at the bottom. The stream of metal breaks into strips which become spherical.

When Chicago Was Settled.
The site of Chicago was discovered in 1673, but the first house was not built until 1779, by Jean Baptiste Pointe du Sable. In 1790 he sold his claim to Le Mal, a French fur trader who in turn sold to John Kinzie, the first white man to make his home there. In 1803 Fort Dearborn was erected on the south bank of the river.

There's a Difference.
Jud Tunkins says when you are talking to a crowd you have to pretend to be smarter than you are, but when you're talking to one person it's best to let him feel that the advantage is mostly on his side—especially in a trade.

Gravel.
Gravel is the name given to aggregations of water-worn and rounded fragments of rock, varying from the size of a pea to that of a walnut. When the fragments are smaller than this the deposit is sand; when larger, it is called shingle. Gravel deposits are formed by the action of running water, and are usually limited in size, occurring with more extensive strata of sand.

A TALK WITH A ROANOKE RAPIDS MAN

Mr. J. B. Hardy, carpenter, of Jefferson Street, tells his experience.

There is nothing like a talk with one of our own citizens for giving hope and encouragement to the anxious sufferer from the dread kidney disease. We therefore, give here an interview with a Roanoke Rapids man:

"When my back gets to hurting me and my kidneys don't act just right, Doan's Kidney Pills cure this trouble," says Mr. Hardy. "Not long ago my back felt lame and sore when I first got up in the morning and there was a stiffness across my back, which made it a hard job for me to bend. While I was stirring around, I was alright, but when I came home and sat down, my kidneys began to ache and had me feeling pretty miserable. While I had this trouble with my back, my kidneys were weak and acted too freely. My bladder was burned in passage. Before I got any worse, I went to the Roanoke Pharmacy and bought a box of Doan's Kidney Pills. They soon put me in A-1 shape again."

Preserving Honey.
Extracted honey can be kept indefinitely if it has been fully ripened before extracting, and if it is not exposed to the moisture of the air. It usually crystallizes in a few weeks or months, but may be liquefied at any time, and will retain its flavor and consistency indefinitely.

Self-Solution.
The best way to cure some folks of their surplus conceits is to give them a little authority and let nature take its course.—Fayette Advertiser.

Blue Uniforms Too Heavy.
When the volunteer troops were called for the Spanish-American war it was found that the heavy dark blue uniform was too warm for service in the tropics. A service uniform of khaki cloth was therefore introduced. In 1902 the whole dress regulation of the army was changed.

I let us work together to make sure that you are fully protected

When did you last make a thorough inspection of your insurance? Have you ever done so? If not, are you sure that it really serves your present day needs.

It is part of the service of an efficient local agent to study your insurance requirements and check over your policies. Insurance long in force may not apply today. The value of improvements may not be covered. You may be carrying too much insurance on one piece of property - or too little on another. These are but a few of the matters that should be checked up.
