

THE SUN HAS DOUBLE THE CIRCULATION OF ANY WEEKLY NEWSPAPER IN THE TENTH COGRESSIONAL DISTRICT.

THE FARMERS INSTITUTE.

Held in The Court House Friday With A Good Attendance.

Friday morning bright and early the farmers of the county began to gather into town, and by 9 o'clock, quite a large and representative body of these sturdy yeomen were gathered in groups round and about the court house.

At 10 o'clock the meeting opened in the court house with a very good size crowd attending, and after a few preliminary remarks, Mr. H. H. Hume spoke upon "Soil Improvement."

The farmers are just now beginning to wake up and realize that they hold the key to the door of success, and no man, no matter what his position, profession or creed, can enter without their consent, if they only will exercise their power.

It has only been a few months ago that they decided to make our manufacturers pay more for cotton than they were paying, and they have by their combining together, raised the price of cotton from 45.00 to 50.00.

Messrs. Conner, of Florida, and Roberts, of North Carolina, both made interesting talks, besides other of our own countrymen.

It was indeed a feast of good things for our farmers, at least for those who were present and took a part in the meeting Friday morning and evening.

GONE TO INDIANA.

Prof. and Mrs. Allhands Leave For Their Northern Home.

Prof. and Mrs. J. M. Allhands, of Henrietta, left Tuesday last week on the Southern for Wingate, Ind., where Prof. Allhands has accepted a position in the graded schools of that place, having been chosen to fill the position of teacher of the seventh, the eighth, and the ninth grades.

His place in the school carries with it a salary of \$60.00 per month for ten months in the year. Wingate is a progressive town in Montgomery county some sixty miles northwest of Indianapolis, the capital of the State, and, like all the towns of that aggressive Commonwealth, is noted for its thoroughness and the proficiency of its public and its private schools.

Prof. Allhands has taught successfully at several places in this and adjoining counties for more than half a score of years, spending the last four or five years at Henrietta. In addition to his school here he has acted as special correspondent to The Sun, The Charlotte News, The Charlotte Observer and other papers.

Those who have been reading his weekly news letters in The Sun, as well as those for whom he has recently taught at Henrietta, will feel a distinct loss in his going away, but those for whom he shall labor will find in him an excellent instructor.

When questioned by a representative of The Sun, as he was going away, he said it was his purpose to return to this county at the close of his school term next May. When asked why he was leaving he replied that he had received an unanimous call from the board of trustees that the work would be comparatively light; that the term would be longer than here; and last, but not least, his salary would be about double the amount he could hope to receive in this county.

The Sun wishes a prosperous year to Prof. Allhands, and indulges the hope that he will favor our many readers with an occasional letter from his new home.

ANOTHER NEW ENTERPRISE.

Mr. R. E. Haynes To Open A Bottling Works In Our Town.

Mr. Haynes is one of the most substantial citizens and a business man of considerable experience, having been associated with his father, Mr. R. R. Haynes, in his extensive business enterprises for many years.

Mr. Haynes will manufacture all kinds of soda water, ginger ale, noka nola, etc., under the name of "Piedmont Bottling Works." There are thousands of bottles of soda water and ginger ale drank in the town and surrounding country stores daily and it certainly will be a splendid opening for this new enterprise.

Mr. Haynes is one of those thorough going young men who never knows a failure, and it is an assured fact that he will make a success of his present undertaking. The field is open before him, as there is no other like enterprise in the county, or nearer than Shelby and Marion.

The Sun welcomes Mr. Haynes and his family in our midst and congratulates the town upon its valuable acquisition of such substantial and cultured citizens. We hope for them, but a j. r. d. i. b. l. e. business in the new enterprise, which will be established in the Piedmont Bottling Works industry.

An Enjoyable Dance.

An informal dance at the home of Mr. and Mrs. J. H. G. McDaniel at Coxie's Crossing, Friday night, was one of the most enjoyable occasions of the season. The event was given in honor of the visiting young ladies and gentlemen, and all report a delightful evening.

Doss Martin, Frank Byers, Bruce Byers, Frank Wiggins, Hatcher Goforth and Dr. Frank Bright. They were joined here by Mrs. E. A. Martin, who will be the chaperon.

Resolutions of Respect.

Whereas on the 21st day of May, 1905, it pleased God, in his wisdom and goodness to remove from our midst, our sincere friend and beloved brother Master Mason, Cabert E. Dobbins, who was a resident of our town and a native of our county. (He was a member and Deacon of the Baptist church, a good christian, a faithful friend and devoted husband and father.) Therefore be it resolved:

1st. That we, Caroleen Lodge No. 510 A. F. & A. M., place on record our love and esteem for him, setting apart a page in our minutes to his memory.

2nd. That while we bow in humble submission to the will of our Heavenly Father, that we will cherish the memory of our brother and hold sacred his friendship.

3rd. That we extend to the bereaved family our heartfelt sympathy and commend them to our Master above who alone can comfort them.

4th. That a copy of these resolutions be sent to his family, and that the same be sent The Orphans Friend and Rutherfordton for publication.

COLORED SUMMER SCHOOL.

Rutherford And McDowell Teachers Have A Successful Session.

(Special to The Sun.) Please allow me to say through the columns of your paper, that the summer school just closed at Rutherfordton, for the colored teachers of Rutherford and McDowell counties, has proved a successful one.

Prof. W. T. Stunglton, of Biddle University, Charlotte, served us as teacher. During the entire session he proved to be well equipped in every particular and a man having a deep interest in the up-lifting of public education. We are certain the work done by him will have a lasting effect for good among the teachers of these counties.

The school had excellent addresses made to it at different times by some very distinguished gentlemen. On Friday, July 10th, Rev. Dr. Arnold, of the M. E. church, made a timely address from the subject, "The aim of teacher," and was followed by a short but witty response from Prof. W. T. Askey, principal of Western Union Academy. Again on Friday evening, July 21st, Rev. Mr. Cathey, of the Presbyterian church, made a timely address from which we gained many good things. Our worthy superintendent, Capt. W. T. R. Bell, was in the school many times and made several addresses in his eloquent way, emphasizing each subject so that all could see his ideas and grasp the same.

Our County and State Superintendents and all who were concerned, have our highest appreciation for the school given, and we wish to assure them that we have learned many worthy lessons. Our minds have been lifted up, and we have been greatly inspired, and have gone out with new zeal to do better work in the future than in the past.

We are waiting with eagerness for the time when another such an opportunity shall present itself.

H. T. MEDFORD.
