**WORLD'S FAMOUS SHOWS.**

**John H. Sparks Trained Animal Exhibition Coming October 5th.**

So familiar has the public become with the fact of the enormous growth attained each year by the John H. Sparks Shows that the return of this greatest of American shows is awaited with much interest, knowing full well that there is always something new to be seen each visit.

In fact words fail to do justice to this wonderful aggregation of arenic celebrities, hippodrome spectacles and animal features. This season they have come together from all corners of the earth to make this the most complete exhibition of its kind ever attempted.

Every day at 12 o'clock, noon, the grandest, rarest and most complete free street pageant ever seen—a fortune invested in wardrobe, trappings, and accessories—will pass through the principal business streets, and cages and tableaux in endless variety, gorgeous floats, fierce wild animals, ponderous elephants and stately camels will swing past to the martial music of four brass bands, musical wagons and the soul stirring callopes.

Notwithstanding the previous enlargements the claim is made that the additions that have been added to the show for this season are far greater than ever before attempted and make this beyond all doubt the most noteworthy amusement achievement of the of the century, keeping ever in mind the three chief watchwords—magnitude, excellence and exclusiveness.

The Sparks Shows will exhibit in Rutherfordton Saturday, October 5th.

**NEW COMEDY COMING.**

**"Introduce Me" To Be Presented At The Opera House October 8th.**

The new comedy, "Introduce Me," will be presented at the opera house here on Tuesday night, October 8th.

In exchange in speaking of the play in one of the larger cities, says: "It would be hard to imagine the wants of a theatregoer whose every wish and expectation was not fully justified last night by the play, 'Introduce Me.'"

It is in no sense picking up a stereotyped phrase for convenience to say that every member of the company is an artist. "Introduce Me" is a cleverly conceived story and added interest is furnished by the fact that its author, Della Clarke, plays the leading role. She is supported by a well selected company of people who easily portray their part of the story in a manner that ably reflects the most intelligent interpretation.

"Introduce Me" is new, it is bright, original, serious and funny. It is not overdone, but just right. You can't lose interest, it catches you up and carries you along. The very intensity of the play is humorous, stirring you to sympathy and laughter almost in the same breath. It is unique in a class of comedy by itself, and altogether refreshing. 'Introduce Me' made good on merit, and nothing better has been seen here this season."

**AN ENJOYABLE OCCASION.**

**Miss Mamie Camp Gives Picnic At Close Of Her School.**

(Special to The Sun.)

FOREST CITY R-1, Sept. 16.—One of the most enjoyable occasions of the season was a picnic given by Miss Mamie Camp at the close of the summer school at Floyd's creek.

Notwithstanding the inclemency of the weather the people began gathering 10 o'clock and in a short time the house and grounds were crowded.

Ice-cold lemonade was served at 11:30 and immediately after all repaired to the church grounds where a bounteous repast was enjoyed.

The table, which was fifty feet long, fairly groaned under the weight. The many good eatables to which all present did justice.

After dinner was over, and the generous ladies had been congratulated on preparing such a feast, the young people enjoyed a ball game, played on the Kistler ball ground.

Excellent music was furnished by the White and Padgett String band.

At a late hour all returned home, feeling that they had spent a day not soon to be forgotten.

Miss Camp, who has taught here before, is held in high esteem by the people of this community, and we are very sorry to have her leave. She returned to her home Saturday for a short stay after which she will resume her studies at the Normal and Collegiate Institute at Asheville.

Congressman J. M. Gudger, Jr., was present and address the gathering, making an old-fashioned Democratic speech and predicting victory in the nation, State and district in November.

**HEALTH & HYGIENE**  
BY THE STATE BOARD OF HEALTH

The American Public Health Association met this week in Washington. The Association is composed of the leading health officials of Canada, Mexico, Cuba, and the United States. North Carolina was represented by Dr. R. H. Lewis, former secretary of the North Carolina State Board of Health; Dr. W. S. Rankin, Secretary North Carolina State Board of Health, Dr. J. A. Ferrell, Assistant Secretary State Board of Health for Hookworm Disease, Col. J. L. Ludlow, Sanitary Engineer State Board of Health, Winston Salem, Dr. L. B. McBrayer, Health officer, Asheville, Warren H. Booker, Assistant Secretary State Board of Health, and Miss Mabel Massey, Clerk in Charge of Vital Statistics in the State Board of Health office. North Carolina was honored by the appointment of Dr. W. S. Rankin, Chairman of the Section of Vital Statistics. Our State was the first in the South to pass a law requiring the registration of Vital Statistics, and, though the law relates only to towns of five hundred or more population, it has proven of inestimable value in estimating the health conditions existing in our towns. We now need a law requiring the registration of deaths in the entire State, so that the health authorities of a town may at any time know the exact condition of their town and direct their work accordingly.

It is of very little importance simply to know that the death rate from typhoid fever in one's town or county is .50 per 1,000 population. But it becomes of vital importance to know this when we also know that the average death rate in the United States from this disease is only .23 per 1,000. When we have our own figures to compare some standard or an average we can begin to find out where we stand. So it is with all the other diseases. When we once find out which diseases have high death rates and which have low death rates, we know what to provide against. When we have State-wide registration of vital statistics we will know all this and more.

**In Memory Of John W. Crayton.**

Whereas, God, the dispenser of life and death, in His inscrutable wisdom has removed from this terrestrial to the celestial home our brother, John William Crayton, a brother beloved of Rutherfordton lodge No. 99 of K. of P., and whereas we desire to give expression to our affection for him; now, therefore be it resolved:

First. That we accept the will of Him who doeth all things will, and murmur not.

Second. That we shall sadly miss the kindly greeting of a true Pythian.

Third. That we deeply sympathize with the widow and children of our deceased brother.

Fourth. That a copy of these resolutions be spread upon our minutes and a page thereof be dedicated to his memory, and the family be furnished with a copy and the Carolina Pythian and The Sun be requested to publish the same.
