\$25. REWARD.

 WAS stolen from the undersigned, on Friday, the 17th inst., a Horse, Bridle and Saddle. The horse was a stallion, about 10 or 11 years old, dark sorrel with a white spot in his face, hind legs rather crooked, small white spots near his back bone, one eye was out but would not be noticed except on close examination; the saddle was black quilted, seat about half worn; a common snaffle bridle with home-made woven reins.
 The horse was stolen by **M. W. Bradley**—who is about 5 feet 10 inches high, weighs about 175 lbs, dark skinned, whiskers and hair nearly black. I will give a reward of twenty-five dollars for the horse and sufficient proof to convict the thief. It is thought that **Bradley** was making his way towards Tennessee.

PROSPECTUS
 OF THE
NATIONAL INTELLIGENCER.
 THIS standard Journal, founded more than half a century since, has been reorganized with an able and active corps of editors, reporters, and correspondents. It is of enlarged size, superior typography, and is published at rates comparing favorably with any other first-class paper. It has access to authentic sources of original intelligence in politics, commerce, science, and literature. The intimate intercourse between the founders of the National Intelligencer and those men who represented the extremes of opinion which have culminated in the late war proves the moderation and integrity which have ever marked its course. This intercourse and respect embraced **Webster, Calhoun, Clay, and Benton.** It had received the confidence of them all. The National Intelligencer is conducted scrupulously upon the principles which have ever guided it. It has lived to feel the value of moderation and national fraternity, and rejoices to perceive that the American people respect them likewise.
 The Intelligencer will extend a cordial and sincere support to the beneficent policy of President Johnson. It will favor such provision for the legal and social protection of the emancipated negro, as the several States may deem just and proper. Qualified by location and sentiment to mediate between the wants of one section and the resources of another it will advocate and aid in transferring to the South those elements of capital and enterprise indispensable to the prosperity of every community.
 To enable the Intelligencer to fulfill this measure of usefulness, it respectfully asks the support to which its past moderation and sincere devotion to the common welfare entitle it. In this sense it is now offered to the public as a medium of intelligence, which cannot be surpassed by any journal published in the National Metropolis.

Large Capacity, strength and unequalled speed, simplicity and completeness of operation are qualities peculiar to
THE NONPARIEL

Washing Machine,
 IT is a Squeezing Machine constructed on strictly mechanical principles, and the experience derived from five years extensive use in families, hotels and public institutions proves it to be of lasting value to the purchaser. The manner of operating the Nonpariel, by rotary motion acting on a crank-shaft (with balance-wheel) which moves the plungers alternately, is the simplest, least laborious and most powerful that can be devised for the purpose, and accomplishes the work with the greatest rapidity and the least possible labor.
 The great speed with which the machine performs work will be understood from the statement that it is geared to give six strokes of the plungers for one turn of the handle or, when worked leisurely, about four hundred strokes in a minute. Safety to the fabric washed is insured by the entire absence of rubbing.
 A girl or boy of fifteen can work the machine and do a week's washing for a family of six or eight persons in two to three hours time; and it may be relied on to cleanse the clothing thoroughly, without assistance from hand rubbing.
