

Carlyle Affidavits Solicited, Misrepresented, Persons Say

Mrs. J. P. Brown, registrar in the South Williams precinct, this week said that spokesmen for F. Ertel Carlyle forces in Tabor City misrepresented the affidavits which have been circulated in this area in an effort to show that more than the 209 votes reported for Carlyle here in the first primary were actually put in the boxes.

The article carried by The Tribune last week was reported by Carlyle spokesmen and stated "173 notarized affidavits were being held" which stated that the signer had voted for Carlyle in the primary. The statement also said "these affidavits were procured on a voluntary basis and none were solicited."

At Mrs. Brown's request, The Tribune has made an effort to determine whether or not the affidavits were solicited and just what persons were told prior to the signing.

The following statement was made by Mrs. A. D. Chandler and Mary Sue Chandler of route 1, Tabor City.

"We voted for Carlyle in the first primary. A few days after the election, we were in town and Mr. Jesse Ray told us that Mr. Carlyle was responsible for the paved roads that we have and that Tabor City voted against him. He said that if Carlyle didn't stay in office, all road paving in this section might be stopped. He said that if we would go to one of the grocery stores in town and get some papers to sign which would say that we voted for Carlyle, it would help. We went to get the papers but that place didn't have any. However, we were told of another business that did have them and we went there to get them. They told us that if we voted for Carlyle, to sign the papers and have them notarized. We took the papers and brought them home. We never did sign them because we didn't see why we should have to get a notary public to sign them. We feel that our signatures were solicited."

Mrs. Brown this week reiterated that the election was fair in every detail, and that she felt the purpose of the affidavits had been misrepresented to many of the persons who signed them.

"Some people have told me that they signed the affidavits after solicitors had told them that Mr. Carlyle might lose his job if they didn't," Mrs. Brown said.

"I think that all this uproar is hurting the community and there is little use in it all. My husband and I have been in Tabor City for about 25 years and the people know that we are not guilty of any irregularities," Mrs. Brown said.

The Tribune was unable to contact Mr. Ray to get his statement as to whether the above remarks were as he made them to the parties quoted.

The Tribune again wishes to make it clear that it is making no charges against anyone. The present management was not even in town when the first primary was held. The newspaper has simply printed the statements as given to it by various sources.

Caruso Resigns As Legion Coach

Will Hold Job Though This Week

S. W. Caruso, coach of the local American Legion Junior baseball team resigned from that position today, effective following the doubleheader scheduled here with Wilmington Saturday.

Mr. Caruso gave as his reasons for resigning in the middle of the season as interference from local citizenry who have a hand in Legion affairs in the actual running of the team. Coach Caruso said that he apparently was not satisfactory to certain townspeople and that criticism in his manner of conducting the ball club has prompted the move.

Some people who have Legion boys at work in their places of business in town have complained that the boys were not free to work enough. When Caruso released these boys to work people complained because the boys were not receiving sufficient practice. Some people have been criticizing me for not having them bunt more, other are criticizing me for having them bunt too much.

Some persons have gone so far as to criticize the way I was conducting the team during a game and at the bench in the presence of the players.

"Also, persons have yelled because I would not get up and start an argument during the time a game was in progress when a decision was wrong in the sight of the spectators. It has been my policy to discuss these decisions with the officials after the game or at least after the inning and I do not believe in causing undue argument at a baseball game or any other athletic event. Usually, when I have felt that an official gave up more than our share of bad breaks we simply didn't have that official again," Caruso said.

"They are many other things that have led to my decision to resign. With things like they are, it would seem to be in the best interest of the ball club.

"We have one of the finest group of players that I have ever seen. They have cooperated in every way and I feel sure that they will continue to make themselves felt in the area race and win their share of the remaining games scheduled," Mr. Caruso stated.

"We didn't hear criticism while the boys were winning, and we were leading the league at the end of the first two weeks but as soon as we started losing ball games, everyone seemed to know how we could win them and with conflicting criticism on every hand, there is no way to meet with everyone's approval," Caruso continued.

"I wish to sincerely thank those persons who did give me the wholehearted support and high for the team the best success in their remain 'ing games."

Mrs. W. F. Howard, Jr. and children Patt and Donnie, have returned to Jacksonville, Fla. following a three-week visit here in the home of her parents, Mr. and Mrs. Frank Ward.

tuberculosis. The great advantage of finding a case of tuberculosis early is that it can be cured in a comparatively short time and there is little danger of its spreading to others at that stage. Other conditions, such as syst or tumor or cancer of the lung or enlarged heart, will also be detected by chest x-ray and the person will be notified.

Nesmith Agency Gets FHA Approval

The Nesmith Agency, local insurance establishment, this week was approved to make FHA loans in this area and has the distinction of being the only approved firm in Columbus county.

The approval is also worthy of note in that not many agencies have been approved for FHA loans in towns the size of Tabor City.

"We are happy that the authorities who grant FHA loans have expressed confidence in our company by granting us the approval. We are the only approved FHA loan agency in Columbus county and so far as I know the next nearest one is in Florence, S. C. Ed Nesmith III, manager, announced today.

"It might also be interested to potential home builders in this area to know that the interest rate on FHA loans has recently been reduced from four and three quarters percent to four and one quarter percent. FHA loans are granted on long periods of time and thereby makes home building within the income reach of almost any individual," Mr. Nesmith said.

"If you have intentions of building a home and would like to talk it over with us, please feel free to come by and see us at any time," Mr. Nesmith continued.

The Nesmith agency was originally incorporated in 1939 as Fowler-Nesmith Agency. In 1942 it was changed to Nesmith Agency and in 1948 when Mr. Nesmith was graduated from The Citadel and took over the management, it was changed to its present name, Nesmith Agency.

Mr. Nesmith is a native of Tabor City and attended the local elementary and high school. He is the son of Mr. and Mrs. Ben Nesmith, Jr., of Tabor City.

Mr. Nesmith is married to the former Miss Lucy McCraw of Key West, Fla.
