It's rather strange when you think of it in detail why that 57m SOB makes people fighting mad and is considered the first blow in a right. It's one of those things that you know isn't true and he knows it isn't true. I supports the best answer to a tharge like that would just be to call the man a liar. You would be telling the truth, and he would be an obvious liar. But then ever that would start a fight, because the character who called you the SOB would then fight you be cause you called him a liar whe he was one.

Its a funny world and people find all kind of ways and mean to set off the spark that wil' arouse the fighting spirit in some one they were hankering to tangle with for some other rea son anyway But if two people were determined to oppose each other, seems that it just as good to go ahead and be gin the fisticuffs and just leave off all those preliminary remarks

## DISTRICT COVERNOR SPEAKS TO TABOR CITY BOTARY CLUB

Dr. Howard J. McGinnis, districe Rotary governor, outlined the fundamentals of Rotary at the regular weekly meeting of the club at the Modern Cafe here Monday evening.

Dr. McGinnis, of Greenville N. C. met with the club directors prior to the regular meeting at which time the various phases of Rotary were discussed and suggestion made by him and various members as to the ways and means of bettering the local organization.

Dr. McGinnis pointed out that the club with 24 members is an influencial organization in the community but that every effort should be put forth to mereas: the number and fill as many classifications as possible in the club. Rotary clubs procure their membership by trying to have one member form each trade and

He also pointed out that regu lar attendance of members highly important and suggested that the Tabor City club exert every effort to make their at tendance as near 100 percent as possible. The local club has consistently averaged close to 90 ercent in attendance.

About the only fault that werehousemen, buyers and other to bacconists were finding this week was the scarcity of tobacco. While the opening day sales was far from being a full one, things really were slim Wednesday when only 70,000 pounds were sold. The sale ended in all houses Wednesday morning at 11:00 However, no one was particularly perturbed at this scarcity, primarily because it was expect ed by one and all. The late crop was evident, and it is expected that not much tobacco will be on the local floors until early next

The Wednesday sale, although light in amount of tobacco sold, brought even a higher average than opening day with the day's record showing slightly more than \$55.00 per hundred. Good grade leaf continued to bring \$69 and buyers were anxious to buy
