## DANGER BEHIND THE MASK

(EDITOR'S NOTE: Alfred P. Haake, Ph.D., Mayor of Park Ridge, Ill., is a noted Economist, Business Consultant, Lecturer and author.)  
By Dr. Alfred P. Haake

An editorial in the Saturday Evening Post recently warned us that many of our so-called "intellectuals" still cherish the communist dream-wish, believing that the communist regime in Russia came as a popular revolt against former Czarist tyranny: whereas the truth is that the communist regime is really a betrayal and forceful suppression of that revolution by the people. Out of the turmoil that followed the overthrow of the Czar, the popular assembly elected by the people was in turn completely suppressed and Lenin proclaimed a totalitarian dictatorship by the Bolsheviks.

So the communist dictatorship is itself a betrayal of the democracy which the Russian people tried to set up in 1917. Several years later, the effort of the Russian sailors at Kronstadt to restore the rights of the people peacefully was put down by the communists with savage ferocity.

The Post is correct in pointing out the confusion and error in the minds of those who still think of communism as an effort to establish democracy and establish the rights of the people. Our domestic collectivists will never realize the danger of Russian communism until they learn the truth.

Now comes an organization calling itself, "Friends of Fighters for Russian Freedom," which presently is seeking members and funds for the purpose of preserving freedom by winning the friendship and cooperation of the peoples of Russia now being ground under the heel of Soviet communism.

It is a laudable objective, for if we could induce the millions behind the iron curtain to revolt against their communist masters, the task of saving freedom from destruction would be expedited.

But, among the sponsors of the FFRF are persons who have favored or favor increase in the power of the Federal Government to control the economic life of our country. Some of them have openly and consistently fought against our competitive enterprise system and advocated such

welfare state measures as Federal Aid to Education, Socialized Medicine, Public Housing and other projects in similar categories.

We must not permit our eyes to be blinded to the real danger at home by the glamor of saving a world abroad.

We must not be misled by an administration which attacks communism abroad in vigorous and even vicious terms, while at the same time it insists stubbornly on sitting up far-reaching economic controls by the Federal Government at home. We dare not forget the effect on our domestic economy, on individual freedom and our system of competitive enterprise, of the riot of spending that has exceeded in less than six years the total expenditures under all previous administrations in our history, including that of F. D. Roosevelt.

Russia can sit back and laugh at the spectacle of the giant "capitalistic octopus" destroying itself at home through reckless spending, devastating debt, confiscatory taxation and the spreading cancer of inflation. That is the program Russia would have us follow.

The real danger to our country is not the communism or communism abroad. Serious as is that danger, it shrinks into comparative insignificance compared to the danger of destroying our freedom at home while we fight to protect it abroad. It is the insidious collectivism of the Welfare State behind the mask of defense against foreign aggression that is destroying our individual freedom and the economic system that made us great powerful and prosperous.

Beware of the hidden poison in the cup of collectivistic well-being measures.

### HOMEMAKERS HINTS TO

There is something about a good pair of gloves that adds an air of elegance and good grooming to the shabbiest costume. However, you will never attain this distinction unless your gloves are always kept at the pink of perfection—no frayed seams, no fingertips pecking through split ends and above all, no soil. There's really no excuse for dirty gloves when you consider how easily they can be washed at home when you follow a few simple rules. Here are suggestions from the grooming experts:

Buying points: Check for washability—and this is not restricted to fabric gloves—before buying. Many top-ranking glove manufacturers point with pride to the suds-safety of their finest leather gloves. Check inside cuff or labels to see whether the gloves you are buying are among the many leathers that are washable. These leathers include pigskin, capeskin, glace kid, chamois suede, doeskin, and mocha.

Washing precautions: Before washing, make sure your best gloves have never been dry-cleaned. Dry cleaning fluids tend to dissolve the washable finish on leather gloves. Launder your washable leather gloves before they become badly soiled. Use

cool soapsuds. Wash all leather gloves, except chamois or doeskin, right on your hands, manipulating your hands as if you were washing them. For extra soiled spots use additional fluffy suds or a soft, well-lathered brush. You may need to work up a second basin of suds if the first bath dies down too quickly. Dry carefully: After gloves are clean on the outside, work them off your hands so that they are inside out. Wash the wrong side well, too, then rinse the gloves in several cool waters. Doeskin gloves benefit from a bit of soap in the final rinse water. Blot the gloves in a Turkish towel. Smooth out the wrinkles and separate the fingers by blowing gently into the gloves. Dry them flat on a towel, far away from heat. Tissue paper inside the gloves will keep the palms and backs from touching and cut down drying time.

The broad objectives of the U. S. Defense Bond program for 1952 are: to widen the ownership of the national debt, further mobilize the power of regular saving behind our defense effort and thus help check inflation as the defense program expands.

If money burns your pocket, soak it away in U. S. Defense Bonds and you'll have cool cash when you need it.

## MERGER PROPOSAL FAVORED

OCEAN DRIVE BEACH—The latest count on the replies received from the straw vote letters proposing the merger of Crescent Beach with Ocean Drive Beach under one municipal charter indicates that the great majority of property owners on the two beaches are in favor of the merger.

Here is a break-down on the votes received by Mayor Grady Johnson's office at the Ocean Drive Beach City Hall: Out-of-town (non-resident and non-voting) property owners: For: 80; against: 19. Local resident (voting) property owners: For 18; against 17.

Roy Havens, who is handling tabulation of the votes from Crescent Beach property owners, released the following figures on the Crescent Beach vote: Non-resident property owners: For: 86; against: 21. Local (resident) property owners: For 33; against 11.

Havens stated that the final tabulation of votes would be made on Jan. 10 by both towns. He indicated as soon as possible thereafter a joint meeting of the Ocean Drive City Council and the Crescent Beach Committee would be held, chiefly for the purpose of determining if the straw vote indicated enough interest in the merger proposal to plan for an official election on the two beaches.

It is noted that the great majority of property owners on the two beaches are non-resident, and therefore not eligible to vote in any election. Local (resident) property owners, by being qualified electors, would determine the issue if it is called to a vote.

The straw vote letters thus far received contain many emphatic statements concerning the proposal. While the great majority favor overall incorporation, many object to any proposal to change or give up the name of charter of "Ocean Drive Beach." Many are opposed to locating the new municipal center on the Highway, while others see it as an opportunity to stop and therefore attract more of the lucrative tourist trade traveling Highway 17 between New York and Miami.

Some of the comments received are as follows:

"A very progressive move."  
"Am definitely not in favor of incorporating Crescent Beach with Ocean Drive Beach. Why not a merger with Tilghman Estates, then let Crescent Beach come in, making Ocean Drive the center of the enlargement program?"

"If there should be an occasion to change or shorten the name of Ocean Drive Beach, I suggest the name 'Ocean City, S. C.' The 'Ocean' designates we are on the Atlantic Ocean, and the 'City' indicates a large place."

"Am most certainly in favor of incorporating together. It would be the key to developing the two beaches into a more attractive summer resort with more year 'round possibilities."  
"I think this is a step forward and very much needed, . . . but keep the name of Ocean Drive Beach."

"No. I like Ocean Drive Beach just as it is."

"Am in favor provided the name of Ocean Drive Beach is not changed. It has too much advertising value to be lost by changing the name."

"I personally think it is a splendid idea to incorporate together."

"Only a local resident can tell where Ocean Drive ends and Crescent Beach begins. To the average tourist, it's already one town. As a property owner at both beaches, I think the merger is long overdue. We'd better hang together or we'll hang separately."

"No. Am definitely not in favor of changing the name of Ocean Drive Beach."

"Yes, and if the name is changed, I think 'Ocean City' would be ideal. 'Ocean Drive' is not now appropriate for the reason that there is no longer strand driving in season. The word 'City' would indicate our enormous growth. In 25 years or less, a nearby more famous resort will be our backyard."

"No. Ocean Drive Beach has a natural business section now and I think it will continue to grow in its present location. It is the logical place for the business section for the adjoining beaches."

"Yes. With the finest beach in America to start with, I think we could grow into a wonderful municipality. I greatly appreciate the progressiveness and foresight of the leaders of Ocean Drive Beach and Crescent Beach."

"Yes. Sounds like a good plan. Why not take in Tilghman Beach and Cherry Grove Beach? Then we would have a large enough town and resources enough to really do some advertising."

"There is no doubt that this would be a great forward step. I suggest as a compromise name, 'Ocean Beach'."  
"The name Ocean Drive Beach should be retained if possible."  
"Yes. I say incorporate them with us. We have one of the best beaches on the Atlantic Ocean. Let's make it the biggest."

# Buy on these Plain Hard Facts

See for yourself how a Chevrolet truck can cut your costs in every way

- FACT No. 1—Costs Less to Buy
- FACT No. 2—Saves Money on the Job
- FACT No. 3—Right Truck for Every Load
- FACT No. 4—Keeps Its Value Longer

AMERICA'S truck users buy on down-to-earth facts, not fancy phrases.

That's why more of them buy Chevrolet trucks than any other make . . . nearly as many as the next two makes combined!

What they get for their money is a rugged, sturdy, dependable truck that's factory-matched to their jobs and payloads—right power, right capacity, right price—with savings in purchase over other trucks of comparable specifications, and a record of savings on the job that can't be topped.

Come in and let's get down to cases on how a Chevrolet truck can cut your hauling or delivery costs. You can't make a better buy—to save your money!
