

College Vets Urged To See VA Officials

Young men and women planning to attend school this fall under the new War Orphans Education Law were urged today by the Veterans Administration to file their applications as soon as possible, to avoid unnecessary delays in receiving their first monthly allowance check.

Application forms are available at all VA offices. Persons eligible for schooling are those whose veteran-parent died of injuries or diseases resulting from military service during World War I, World War II or the Korean Conflict. Students generally must be between 18 and 23 years old. Prompt action is needed, VA explained, because normally it will take about three months from the date of application to the date the initial allowance

check is placed in the mail. So in the case of young men and women who apply now, the earliest that VA could mail out checks would be mid-November.

When the first checks do arrive, however, they will cover the entire period during which the students were in school after October 1—the beginning date on which the law authorizes payments to be made. Thereafter, checks will be mailed regularly to cover each month the student is in school. The money usually will be sent to the student's parent or guardian, rather than to the student himself.

After the application is filed, VA must check its records to make certain that the young man or woman meets basic eligibility requirements for schooling. It so, VA will issue a "provisional approval."

Q—Must a veteran actually live on the farm he buys with a GI loan?

A—It's not absolutely necessary that he live on the farm. But he at least must supervise the farming operations.

Wake's Farmers Win Top Prizes

Three Wake County (N. C.) farm communities grabbed the cream of \$2,650 in prizes for the two-state, 1956 Finer Farms contest, Carolina Power & Light Company, contest sponsor, announced today.

Taking first prize of \$350 in the contest based on soil and water conservation was North

Wake County. A friend of mine is drawing VA pension for total non-service-connected disability. He has entered a private hospital for treatment. Would the fact that he's hospitalized automatically entitle him to an additional amount paid to veterans who need constant aid and attendance?

A—No. Hospitalization alone is not sufficient to indicate a need for constant aid and attendance. The same criteria of need for aid and attendance would apply, whether he's at home or in a hospital.

Wendell community. Second prize of \$250 was awarded Olive Chapel. Holly Springs took one \$150 third prize and another went to Dawson, Halifax County (N. C.), the only non-Wake County community to place.

Prizes also were awarded county board of soil conservation supervisors and individual supervisors. The first board prize of \$250 was won by Wake County, the second of \$150 went to Darlington County, (S. C.), and Buncombe County, (N. C. gathered a \$100 third prize.

A top \$175 prize was awarded soil conservation supervisor Alvin Wilson of Dawson, second prize of \$150 went to Marshall Knott of North Wendell, third prize to B. O. Holland of Holly Springs, and L. O. Page of Olive Chapel took the fourth prize of \$75.

The contest judges—Dr. T. S. Bue, S. C. state soil conservationist, and J. Frank Doggett, N. C. extension service soil conservationist—selected 15 other communities that achieved superior results for \$50 prizes.

They are Brush Creek, Yan- July 1, 1955, to June 30, 1956. These were compiled community-wide for scoring. The entrants were judged on their accomplishments in water-irrigation, terracing, contour farming, strip-cropping, crop rotation, ponds, irrigation systems, roadside erosion control, pasturage, reforestation, hedgerow and windbreak planting and wildlife borders.

The farm improvement program will be offered Carolina farmers again in 1957.

The annual contest is part of CPG's Finer Carolina program which also features an annual civic improvement contest for urban communities in its 60-county service area in North and South Carolina.

Communities established their own boundaries by consent of the residents when they entered the program. They were not limited in size. Scoring of conservation practices maintained and new ones established was done on a percentage basis.

Individual farmers in a community kept their own record of conservation practices from

Pontiac Names Chief Engineer

PONTIAC, MICH.—The appointment of E. M. Estes as Chief Engineer of the Pontiac Motor Division was announced today by S. E. Knutsen, General Manager and General Motors Vice President.

He succeeds George A. Deane, who will continue of the General Manager's staff and will handle special assignments. A native of Mendon, Michi-

gan, where he was born January 7, 1916. Estes studied for four years at General Motors Institute in Flint, Mich. Then he entered the University of Cincinnati, where he studied for two years and graduated with his degree in mechanical engineering. Estes joined the GM Research Laboratories as a research engineer in 1939.

Estes joined the Oldsmobile Division as motor development engineer in 1946 after seven years with the GM Research Laboratories in Detroit. Later he was advanced to assistant motor engineer and to chassis engineer early in 1951. He became body engineer late in 1952. In May, 1954, Estes was promoted to assistant chief engineer in charge of the body design, chassis design and standards engineering groups.

The University of North Carolina School of Nursing utilizes classrooms, hospitals, outpatient and community facilities to provide students with a broad background in professional nursing.

WAITRESSES WORK FOR STATE HONOR GREENSBORO — Restaurant operators and waitresses throughout the State are currently undergoing the strictest sort of observation.

Members of their own industry are closely watching them, to select nominees for the coveted titles of Restaurateur of the Year and Miss Hospitality, and competition is keen.

Selection of the winners will be completed at the 10th annual convention of the North Carolina Association of Quality Restaurants in Greensboro Oct. 8-10.

PVT. LeROY WATSON FORT BLISS, TEX. — Pvt. LeRoy Watson, son of Mrs. Alma R. Hammond, Route 1, Fair Bluff, recently completed eight weeks of advanced individual training in the operation of the Army's NIKE surface-to-air guided missile at Fort Bliss, Tex. Watson attended Latta High School and Marion High School and was employed by Eden's Food Store.
