The two teams of local midgets will play a double header with Chadbourn at Chadbourn Thursday night at 7:30. Local folks are urged to attend the twin bill football program. Legion Donates \$3400 To Hospital

Tabor City Gets \$11,577 From Powell Funds

Tabor City will receive a total of \$11,577.46 as its share of the Powell Bill Funds according to the State Highway Commission.

More than 400 North Carolina municipalities will share in the total distribution of \$6,766,092.58. This represents a four per cent increase over the monies distributed last year.

Checks for the Powell Bill aid to local communities will be mailed on October 1 to 409 municipalities which qualify under the 1951 statute setting aside 1/2 cent of the six cent per gallon net State gasoline tax for use of municipalities in maintaining and improving their non-highway system streets.

The Powell Bill was originated by J. K. Powell, Whiteville attorney, who served in the 1951 session of the General Assembly.

Half of the total Powell Bill allocations will be divided among all qualified municipalities on the basis of population at a per capita rate of \$2.21. The remaining half is divided on the basis of relative mileage of non-highway system or local streets of municipalities complying with the act at a per mile rate of \$174.95. Total length of such streets this year is 7,122.82 miles.

Other Columbus towns sharing in the funds include Whiteville, \$20,625; Fair Bluff, \$7,419.97; Chadbourn, \$9,885.17.

Clifford Gore is the operator of the newest Tabor City industry. Mr. Gore has opened the Columbus Venetian Blind Manufacturing Company on highway 410 and while the organization is small, it is another step toward progress in Tabor City.

The American Legion disbanded here last night in a blaze of glory.

Seven members attended the called meeting and voted to donate approximately \$3,400 for equipping a hospital in Tabor City. With the action to donate the money, which is the first contribution toward the hospital, the Legion unofficially disbanded. Unless future action is taken to reorganize the Legion it will be officially disbanded at the end of this year.

The money donated last night to the hospital cause was the Legion's portion of the money received from the sale of the old Legion Hut several months ago.

A drive has been underway for quite some time to get a hospital project approved for Tabor City. Surveys have been made, petitions garnered and other preliminary work has been in the making.

The Legion, defunct for the past five or six years, had represented last night: Frank Ne-smith, Frank McGougan, G. L. Dorman, Billy Dorman, John Dorman, B. F. Long and Worth Hardee.

Should the hospital movement fail to become a reality then the money donated last night by the Legion would revert in five years to the trustees who are G. L. Dorman, Worth Hardee and Frank McGougan. The other members at the meeting were named alternate trustees in event that a vacancy should occur due to death.

All you pretty gals better hurry.

The deadline for entering the Beauty contest of the Horry Electric Co-Op is getting mighty close — Friday, Sept. 25.

Stop Sign Emphasis This Week

With a new and determined effort underway to cut down on accidents in the State and County, a meeting of civic leaders, court officials and patrolmen was held in Whiteville last Wednesday night and the new point system for highway safety was outlined.

Among the program's features now underway is the stopping of certain violations during specific weeks. This week has been designated as special emphasis week on persons failing to stop at stop signs.

Patrolmen have pointed out that this is one of the major causes of highway accidents and deaths.

Corporal Hoffer, of the highway patrol in Columbus County, pointed out to the group at last week's meeting that Webster defines "Stop" as "Cease Motion" and that is what he and his patrolmen will go by in enforcing the law.
