PROSPERITY WAVE **DURING YEAR 1912**

N. w and Observer

Better farming throughout North Carolina, large yields and good prices for farm products have cr.at ed a wave of prosperity during the year 1912. The wave has been growing steadily for the past three in, was knocked down and run or four years. Every other industr by the passenger train, cutting ry than that which employs fourhis right leg just below the knee fifths of the State's population has profited by the prosperity of the farming four-fifths, and the review of the year that shows steady pro gress in all lines must be attributed

The steadiness of growth is observed best and most accurately in the state departments in Raleigh which form a clearing house for the State's condition at all times These departments are in the mids. Mr. Messer is resting easily, of reports for the year, some o which have been issued.

> Others are in the hands of the printers. Without exception, the prosperity note is struck, and the State faces what is expected to be the most prosperous year in its his tory.

DYNAMITERS GUILTY.

State Libary

From Daily Exchanges

Indianapolis, Ind., Dec. 28.-Thirty-eight labor union officals today were found guilty of complicity in the McNamara dynamite plots, ircluding the wrecking of the Los Angeles Times building.

Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, wasamong those convicted. He, wih others, was accused of using the union's funds to destroy the property of: contractors who refused to recognize the union.

Two detendants were found "not guilty." They were Herman G. Seiffert of Milwaukee and Daniel Buckley, of Davenport, Ia.

The conviction of Olaf A. Tveitmoe and Eugene A. Clancy of San Francisco and J. E. Munsey of Salt Lake City sustained the government's charge that they away in plotting the Los Angeles explosion in which 21 persons were killed, and assisted in the escape of James B. McNamara on his flight from the scene of that crime. By its verdict the jury also sustained the charges that the McNamara brothers, now in prison in California, were aided in the nationwide dynamite plot by almost all the executive officials of the iron workers union, and that they knowingly carried on the conspiracy for years by causing explosives to be transported on passenger trains. Each prisoner, as found guilty, stands convicted of having in one instance joined a conspiracy to commit an offense against the government, this being punishable by two years' imprisonment, or a fine of \$10,000 or both. Each prisoner also is found guilty of 25 charges of illegal transportation of explosives on interstate passenger trains, each offense being punishable by an imprisonment of 18 months or a \$2000 fine, or both. While the cumulated possible punishment are 39 1-2 years, the court intimated in the course of trial he would impose sentence in accordance with the degree of guilt. Indianopolis, Dec. 30-Sentences varying from seven years' imprisonment in the federal prison at Leavworth, Kan., to one year and one day and to suspended sentences were today imposed upon the 38 labor union fficials convicted in the dynamite conspiracy cases. Olaf T. Tveitmoe, of San Francisco, convicted on charge of aiding in plotting the destruction of the Los Angeles Times building, and Eugene A. Clancy, also of San Francisco, were given six years each.

te-News December 30 ernor-elect Craig today au-

and the announcement that he appoint as his private secretark Garland A. Thomason, both of or member of the firm of Craig, have been decreases in more than tin & Thomason, and has been nately associated with Mr. Craig a number of years. He is pecufitted to discharge the duties may arise in the office of the mor.

4. Kerr, likewise a life-long d of Mr. Craig, was for many s one of the publishers of the en, held the position of editor hat paper for some time, and counsel is always sought and y respected in circles identified he leadership of his party.

Farnes B st Christm s. "This has been the best christmas the farmers of the State have ever had," said Commissioner o J P. Kerr, and as his executive Agriculture Graham yesterday. "Not all crops have been up to the reville. Mr. Thomason is the mark by a y means, in fact there

one, but prices have been good and total receipts have brought up th total to the most satisfactory poin yet reached."

The cotton crop in the State ha been less than that of 1911, the record cotton year all over the country, but at that it has not been alarmingly less. The number of bale: of cotton ginned to December 1, 19 11, was 913,000. This year the number was 820,000. Increased prices f r the staple have wiped out the deficit, and it may be that . fin al figures will show that the receipt for farm products in the State have been much larger than those of 1911 inspite of crop shortages in several products.
