WILSON AND MARSHAL INAUGURATED

Woodrow Wilson of New Jersey and Thomas R. Marshall, of Indiana were inaugurated president and vice-president of the United States Tuesday. Thousands of people from all parts of the United States crowded the streets of the nation's capitol to witness the occasion.

William Howard Taft, the retiring president shaking the hand of president Wilson, said: "Mr. President, I wish you a successful administration and the carrying out of your aims. We are all behind you."

Mr. Wilson's political family are: Secretary of State, William Jennings Bryan of Lincoln Nebraska; Secretary of War, Lindley M. Garrison, of Camden New Jersey; Secretary of Treasury, William Gibbs McAdoo, of New York; Secretary of Navy, Josephus Daniels of Raleigh North Carolina; Attorney General, James Clark McKeenolds, of New York; Postmaster General, Albert Sidney Burleson, of Texas; Secretary of Interior, Franklin Knight Lane, of California; Secretary of Agriculture, David Franklin Houston, of Missouri; Secretary of Commerce, William C. Redfield, of New York; Secretary of Labor, William Bauchop Wilson, of Pennsylvania.

Holmes Eryson is now in market purchasing his spring line of dress goods, clothing millinery etc. Watch for his ad next week.

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by ALL DEALERS.

You are invited to attend Holmes Bryson's millinery opening March 17th.

HEN LAYS 34 EGGS HATCHES THEM ALL

(Special to News and Observer.) Statesville, Feb. 28.—C. S. Holland, known to his friends as "Bud" Holland, capitalist, farmer, hog raiser, etc., is now the happy possessor of a remarkable hen, which he believes to be the best in the land. The hen was purchased this week from Mrs. Wiley Ladd, of the vicinity of Statesville, and Mr. Holland avows that she "laid 34 eggs, sat on the whole bunch and hatched 34 chicks, and while I was bringing her to town in a box with the little chickens she laid three nice eggs in the box." Mr. Holland then went on to explain to the newspaper man that the chicks were only two days old at the time and it was naturally to soon after "setting" for a hen to lay one egg a day, let alone three. He says it was impossible for the eggs to have gotten into the box any other way and there is no doubt that the hen had laid them all. "My witnesses," said Mr. Holland, "are Policeman Morgan, Prof. D. Matt Thompson, Mr. Eugene Morrison and Dr. W. J. Hill, who saw the hen, chicks and eggs and will tell you I'm not joking." Your correspondent found Mr. Morrison and asked him about the hen. "Yes," said he, "I looked into the box and saw the hen with the chicks and eggs and then I put this to Mr. Holland, 'The Governor of Indiana said to the Governor of Illinois, I love a lie but you please me too well.' But the hen is a wonderful one, all right, and Mr. Holland is proud of her. He believes she will make still further records of note."

TO ATTRACT SETTLERS

Washington, D. C., February 28th.—To aid in the work for attracting desirable settlers to the territory served by the Southern Railway, the Mobile and Ohio Railroad, and affiliated lines, and for locating industries in this territory, an agency of the Land and Industrial Department has been established at Harrisburg, Pa., and W. E. Price, traveling immigration agent connected with the Western Agency in St. Louis, has been promoted and will have charge of the Harrisburg agency, effective March 1st according to announcement made today by M. V. Richards, Land and Industrial Agent.

Mr. Price is well equipped for his new position, having served in headquarters at Washington and having been later promoted to his present position in the West where he has been traveling extensively, working among prospective home-seekers for the Southeastern territory. His district in the new position will cover the thickly populated section north of the Potomac river and East of the Ohio, including Eastern Canada. He will give special attention to the direction of new settlers and industrial propositions to the territory along the Southern Railway and affiliated lines, his work being a part of the extended efforts which these lines are making for the general upbuilding of the Southeastern states.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest term of praise. For sale by ALL DEALERS.

HANDSOME RESIDENCE GUTTED BY FIRE.

The home of Dr. A. S. Nichols was injured to a considerable extent Monday morning, by what might have been quite a disastrous fire. As it the damages are quite extensive and only partially covered by insurance.

The fire alarm was given shortly after seven o'clock Monday morning and when the fire department reached the scene it appeared as if it would be impossible to save the building, which is one of the best residences in the county. However owing to the efficiency of the fire department and their equipment the flames were checked in time to save the lower story of the building and the front rooms of the upper story. The roof being steel, it was not injured to any considerable extent.

The origin of the fire is supposed to have been from an English sparrow nest in the gutter near the chimney. The soot in the kitchen flue caught fire and sparks fall in upon the steel roof lodged in the sparrows nest and soon burned through the weatherboarding and started the fire on the inside of the ceiling.

SILO FOR \$65

Atlanta, Ga., February 26th.—How the average farmer, using ordinary farm tools, at an expense of only \$65.00 can construct a silo with a capacity of 55 tons—enough silage to feed 20 cows 40 pounds per day for four months—is told in a booklet just gotten out by the Live Stock Department of the Southern Railway, a copy of which will be mailed free to any farmer addressing request for same to Mr. F. L. Word, Live Stock Agent, Southern Railway Bld., Atlanta Ga.

"Where there is Live Stock on the farm there should be a silo" is the title of this booklet which tells of the advantage to the farmer of having a silo and the great saving which it enables him to make in the cost of winter feeding for his live stock. The figures given are taken from the practical experience of a Tennessee farmer who built a silo on the lines indicated twenty years ago, who finds it as good as new today, and feels that it has paid for itself many times over every year.

Secretary of Agriculture Wilson has recently declared that the Southeastern states constitute the ideal section of the United States for live stock raising and must be looked to in future years for the nation's food supply. To stimulate interest in the live stock industry and to aid farmers to successfully follow this line, the Southern Railway has established its Live Stock Department which is giving undivided attention to this work.

Whereas, Providence in His all-wise dispensation has seen fit to remove from their earthly vision for a season, the little sister of two of the members of our class.

Therefore, be it resolved: That we extend to them our heart-felt sympathy and commend them to the Friend of little children into whose loving care He has taken little Jerdie.

The Pilgrim Class M. E. Sunday School.

COMMITTEE VISITS CULLOWHEE NORMAL

News and Observer Feb. 28.

Senator Davis, of Carteret and Representative Cromartie, of Bladen; Ferguson, of Swain, and Wike, of Jackson, were constituted a committee to visit the Cullowhee Normal and Industrial school at Cullowhee. These gentlemen spent Sunday, Monday and a part of Tuesday of this week inspecting this institution.

Upon their arrival they were met by the president of the school, Prof. A. C. Reynolds, and a committee of the faculty, and immediately given a tour of the State's property at Cullowhee. They found there a splendid plant, worth about \$50,000, with an electric and steam heating plant and an excellent gravity water system, a beautiful girls' dormitory and a reasonably good administration building.

At three o'clock Monday the management entertained at dinner in honor of the committee. Several members of the board of directors, the faculty of the school and a number of the citizens of the community were present. The meal, served by charming college girls and planned skillfully by Mrs. Mary Carter Brinson, directress of music, and Mrs. Shipp, the matron was just such as might be expected in these fine, cultured homes among the hills. The after dinner speeches were full of wit and enthusiasm, and rang with loyalty and admiration, as they pictured the virtues of the young men and women of that section and its grand and inspiring scenery.

At 7:30 p. m. Monday an informal reception was tendered the committee by the faculty and student body at the auditorium of the administration building. Songs, speeches and readings were given. Senator Davis demonstrated the fact that he is something more than a legislator—a singer of ability, pleasing the audience again and again as he responded to several encores. The audience also enjoyed an inspiring talk by Representative Cromartie. President Reynolds, with his usual cordiality, was a complete master of ceremonies.

The committee left Tuesday charmed with the situation, lauding the splendid student body, thrilled by the air and scenery, and convinced that the school has a brilliant future in its work among some of the noblest people in the Old North State.

CARD OF APPRECIATION

I wish to use this opportunity to express to my friends my appreciation of the kindnesses extended to myself and family while we were suffering from inconvenience and loss occasioned by the burning of our home.

A. S. Nichols.

Jackson County Journal—I am requested by the young men of the Cullowhee Minstrels to write you that they will give an entertainment in the Auditorium of the Cullowhee Normal School on Monday night, March 10, 1913. The fee will be 25 cents, proceeds of the entertainment are for the Athletic field. They wish to extend to the Sylva people a hearty invitation to attend.

Yours very truly,
L. B. ABERNETHY.

COMMENCEMENT FOR JACKSON COUNTY.

March 24, at Webster. Three contests: A Recitation, a Declamation and a Spelling Contest. The winner in each will be given a prize or medal worth five dollars.

Only those pupils who have or will this year complete the seventh grade will take part. Let every body come.

DAVID H. BROWN,
Supt. Public Instruction.

20TH JUDICIAL DISTRICT

The General Assembly in re-districting the State and providing for the four new judges, put Jackson County in the 20th District with Cherokee, Graham, Swain, Haywood, Macon and Clay counties and divided the number of courts as follows:

Jackson	6
Cherokee	7
Graham	4
Swain	6
Haywood	9
Macon	4
Clay	2

This arrangement does not change the counties now constituting our district, but changes the district from the 16th to the 20th, and gives us 6 terms of court a year instead of the three that we now have.

STRUCK BY TRAIN.

Bill Nicholson was struck by Southern passenger train No. 17 at the Sylva depot Thursday morning while attempting to cross the track and suffered severe injuries.

Nicholson works for Brown & Henson Livery, Co. and meets every train in the interest of his firm. In the attempt to cross the track to the side next the depot, his foot slipped and before he could recover his equilibrium the train struck him, knocking him out.

His injuries are on the head and left side, and while severe are not considered dangerous.

WHY USE L. AND M. REAL PAINT?

Because it's economical. Because it is pure White Lead Zinc and Linseed Oil. Because it's the highest grade quality paint that can be made. Because when the user adds 3 quart of Oil to each 1 gallon of the L. and M. Semi-Mixed Real Paint, it makes 1 3/4 gallons of pure paint at a cost of about \$1.40 per gallon. This saves the user about 60 cents a gallon on all the paint used. The L. and M. is and has always been the highest grade and most perfect paint produced.

Sold by Sylva Cash Store.

Mrs. J. B. Sherrill returned Thursday morning from Atlanta, where she has been for the past two weeks buying the spring line of millinery for the Sylva Millinery Co.

Mr. and Mrs. Grover Cooper left Thursday afternoon for Old Fort whence they were called on account of the death of Mrs. Cooper's father.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires any internal treatment what ever. This liniment is for sale by ALL DEALERS.
