### When You Paint

Use PURE Paint and Use Pure LINSEED OIL to add to it at one-half the cost of Paint.

PURE PAINT is made with WHITE LEAD, ZINC and LINSEED OIL—that's the way the L. & M. SEMI-MIXED REAL PAINT is made.

But ALL the OIL, needful to make the L. & M. PAINT ready for use is NOT put into the Paint when it's prepared for the Consumer who buys it.

The ADDITIONAL quantity of OIL is put into the Paint by the CONSUMER, as by so doing he SAVES MONEY.

Therefore—buy 3 gallons of LINSEED OIL with every 4 gallons of L. & M. PAINT and MIX the OIL with the PAINT.

If the Paint thus made costs more than \$1.40 per gallon—If the Paint as you use it is not perfectly satisfactory—

Then return whatever you have not used, and get back ALL you paid for the WHOLE of it; and besides, the money you paid to the Painter.

### DR. RIDLEY HAS BUSY DAY.

Dr. Caleb A. Ridley, pastor of Central Baptist church, spent several days of last week in his native North Carolina delivering addresses and preaching at one of the mountain schools, but returned in time to fill his pulpit Sunday. The day was a day full of work. He spoke to the Sunday school at 9:30 o'clock, lectured before Co-Workers' class at 10 o'clock, preached at 11 o'clock, married a couple at 3 o'clock and another at 4 in the afternoon and preached again at night. The subject of the morning hour was "A Vision of God and its Results" and at night "A Church That Sees Its Mission".—Atlanta Constitution, April 28.

### RESULTS

We do not undertake to offer the record complete, but a few things will indicate the drift:

Road Trustees of Dillsboro township in Jackson county have authorized the sale of bonds of \$15,000 for road building. Sylva township has sold bonds for \$30,000 and Cullowhee bonds for \$20,000—\$65,000 will be expended in road building in these three townships. A part of the work will be the construction by the townships of one connecting road crossing them all.

County and townships authorizations in Henderson county—actual not hot air—amount to \$200,000 and this sum will be expended this year in the construction of good

roads.

Rutherford has carried a \$250,000 bond issue by popular election; Madison commissioners have issued \$300,000 bonds; Polk issues \$100,000. The thermal belt State highway will mean a large sum total expenditure. Transylvania is to expend \$50,000 on roads. Road bond elections are the order of the week in McDowell, and the most encouraging forecasts are received. The construction of roads in Murphy township, in Cherokee, is already well under way.

Our own little county of Buncombe will spend its \$50,000 or so for roads outside of Asheville, as usual.

It is fruition time. It is the propaganda of 20 years crystalizing in to result. It is the beginning of an era in the mountains whose splendor will surprise the world. And we hope that other magnificent highways will be added to those the people are building. We hope that the mountain forest land the government is acquiring under the Weeks law will be made public parks, and that a special government department for their management will be created. This will mean the construction by government of scenic highways through the most magnificent territory in eastern America (to say the least)—the home of primeval forest giants that were growing when Christopher Columbus discovered America.—Gazette News.
