## WE ARE KILLING OUR OWN BEEF

now, and by doing so are able to give our customers a higher and better class of meat.

And another great advantage which we know our patrons will appreciate is the fact, that it does not come to town in a meat box which has been used for years, and perhaps full of deadly germs, but comes fresh from the Butcher wrapped in a clean cloth and put in our Refrigerator, which we keep packed in ice, and there is kept clean and cool, and in the best of condition until you are ready for it.

We are going to keep just as good an up-to-date Market as our town's people will let us.

REMEMBER the more you patronize The Market the greater variety of eatables, and better prices and service we will be able to give you.

we wish to thank our Patrons for the nice business they have given us this spring and we are always glad to serve you. We appreciate your business.

## THE CITY MARKET.

### When You Paint

Use PURE Paint and Use Pure LINSEED OIL to add to it at one-half the cost of Paint.

PURE PAINT is made with WHITE LEAD, ZINC and LINSEED OIL—the way the L. & M. SEMI-MIXED REAL PAINT is made.

But ALL the OIL, needed to make the L. & M. PAINT ready for use is NOT put into the Paint when it's prepared by the Consumer who buys it.

The ADDITIONAL quantity of OIL is put into the Paint by the CONSUMER, as by so doing he SAVES MONEY.

Therefore—buy 3 gallons of LINSEED OIL with every 4 gallons of L. & M. PAINT

and MIX the OIL with the PAINT.

If the Paint thus made costs more than \$1.40 per gallon—If the Paint as you use it is not perfectly satisfactory—

Then return whatever you have not used, and get back ALL you paid for the WHOLE of it, and besides, the money you paid to the Painter.
