The Philathea class of the Baptist Sunday School held its regular business meeting in the church Tuesday evening.

## MAY MOVE TO WAYNESVILLE

Mr. Walter E. Moore of Webster was a visitor in Waynesville last week for several days. There is a strong chance that he will move to Waynesville to make his home. While he has not yet made a definite decision he is favorably considering this town, and it is settled that he will leave Jackson county.

Mr. Moore is one of the leading attorneys of the neighboring county and has a large number of friends in Haywood, where he is well and favorably known. He has in the past taken an active part in the political life of the Tenth district, and has been a candidate for congress from this district.

Mr. Moore was prominently mentioned as a likely nominee for the place of United States District Attorney for the Western District to succeed A. E. Holton. Mr. W. C. Hammer of Ashboro has been recommended by Senator Overman, but his appointment is being held up on account of serious charges filed with the Department of Justice, and the news from Washington is that Mr. Hammer may fail of confirmation. In that case the District Attorney would very likely be either Mr. Moore or Solicitor Robert Graves of Mount Airy.—Courier.

## BOOKLET FOR SYLVA.

The Board of Trade of this place are preparing to get out a booklet to advertise the town. This will be the first thing of the kind for Sylva but let us hope not the last; for a town must be advertised in order to build up.

This booklet will be very attractive, containing cuts of scenes of interest in and around Sylva; also a description of the town and a list of all the houses in Sylva that will take summer boarders and the secretary would be glad for all who will take boarders to please notify him at once so he can put your name in the list.

## HELP STOP FIRES.

The fire waste in this country has become alarming in its proportions. Among the efforts being put forth for a conservation of our resources, no one is more worthy of your assistance than the one to stop or decrease our annual fires. In no direction is the necessity greater or the prospects of success more hopeful.

The annual fire loss in this country is about \$250,000,000, or \$500 each minute. In our own State it is estimated that the loss by fire is \$1,500,000, or over \$4,000 each day. Students of this subject tell us that the bulk of these fires are the result of ignorance, carelessness, or criminality, and that with ordinary care two-thirds should be prevented.

In order to stop this annual loss that is a disgrace to our Nation and State, it is necessary to educate our people and awaken an interest along this line.

LOST—a gold bracelet on main street in Sylva. Finder please return to Journal office and receive reward.

## IMPORTANT!

Let every one in Sylva who will keep summer boarders during the season send in their names at once to the Board of Trade. The town Booklet is now being prepared and this is very important.

## WORK FOR THE EDITOR.

Most anyone can be an editor. All an editor has to do is to sit at his desk six days in the week, four weeks of the month, and twelve months in the year, and "edit," such as this:

"Mrs. Jones of Lost Creek let a can-opener slip last week, and cut herself in the pantry."

"John Doe climbed on the roof of his house last week, looking for a leak, and fell, striking himself on the back porch."

"While Harold Green was escorting Miss Violet Wise from a church social last Saturday night, a savage dog attacked them, and bit Mr. Green on the public square."

"Isaiah Trimmer, of Lebanon, was playing with a cat Friday, when it scratched him on the veranda."

"Mr. White, while harnessing a bronco last Saturday, was kicked just south of the corn crib."—Boston Globe.
