

# HOW STATE SHARES IN SMITH-LEVER ACT

AMOUNTS THAT CAN BE OBTAINED IN NORTH CAROLINA FOR AGRICULTURE.

## DISPATCHES FROM RALEIGH

Doings and Happenings That Mark the Progress of North Carolina People Gathered Around the State Capitol.

Raleigh.

Washington—The maximum amount North Carolina can receive under the Smith-Lever Co-Operative Agricultural Extension act for the fiscal year 1914-15 is \$10,000; for 1915-16, \$32,953; 1916-17, \$52,081. For 1917-18, 1918-19, 1919-20, 1920-21 and 1921-22 and each year the amount of \$19,127 to the total for the immediately preceding year. For 1922-23 and thereafter \$166,846 will be provided.

The act provides that each state must duplicate all Federal money above \$10,000 a year.

In explaining the appropriation the department of agricultures says:

The act first appropriates \$480,000 annually, beginning with 1914-15, and gives each state \$10,000 for each fiscal year as a basic fund.

The act then appropriates additional Federal moneys to be distributed in the proportion of rural population. To share in these additional funds the state must duplicate the additional money thus received. The additional appropriations are as follows: 1915-16, \$600,000; 1916-17, \$1,100,000; 1917-18, \$1,600,000; 1918-19, \$2,100,000; 1919-20, \$2,600,000; 1920-21, \$3,100,000; 1921-22, \$3,600,000; 1922-23, and thereafter, \$4,100,000.

It will be noticed that after 1915-16 the total appropriation is increased each year by \$500,000. The fifth column in the table shows the amount of each additional \$500,000 that the state is entitled to receive. To get the amount that any state is entitled to receive for any fiscal year from 1917 to 1922 add the amount given in the table to the total for the immediate preceding year. Example: Alabama, in 1917-18 will receive \$49,404 plus \$17,911 equals \$67,315; for 1918-19 Alabama will receive \$67,315 plus \$17,911 equals \$85,226; and so on until the maximum given under the column 1922-23 is reached.

The totals for each state contain the basic \$10,000 granted each year. To obtain the amount that the state would have to duplicate in any year to receive its entire Federal quota, subtract \$10,000 from the total. Example: The amount Alabama would have to duplicate in 1917-18 is \$67,315 minus \$10,000, or \$57,315.

### North Carolina Editors Prepare.

President Clarence Poe of the North Carolina Press Association made public the completed program for the North Carolina Press Association to be in session at Wrightsville Beach, June 24 to 26. The president's address will have for its theme "The Editor as a Crusader." Bion H. Butler of The Raeford Journal will have a paper, "North Carolina Stopping Over With Opportunities; What Can the Press Do in Developing Them." President Graham of the State University will discuss "Civil Service Work: An Opportunity for the Press." Joseph Daniels will deliver an address. All these features will characterize the first morning session.

Wednesday night R. F. Beasley of The Monroe Journal will deliver the annual oration, his theme being "The Tyranny of the Status Quo." The poem will be read by William Laurie Hill, this followed by a Dutch supper by citizens of Wilmington.

Business problems will be considered at the session of the editors Thursday morning. And during the afternoon there will be trolley rides and bathing. Thursday night Editor Norman Haggood of Harper's Weekly, will deliver his address and the general business of the convention rounded up. On Friday there will be a trip down the Cape Fear on the steamer Wilmington.

### Evidence in the McArthur Case.

The defense completed the taking of evidence in the Federal court trial of the noted case of Citizen's Bank of Norfolk vs. Adam McArthur and Mrs. M. E. McArthur involving the genuineness of \$25,000 in notes held by the bank against the defendants and it is expected that the case will go to the jury soon. This is the second trial the first one some months ago, having resulted in a hung jury. Much of the time was taken up with the examination of David N. Carvalho, the famous handwriting expert.

### Horne Monument Given to State.

With twelve hundred Confederate veterans and 1,000 or more Daughters of the Confederacy taking part, the ceremonies for the unveiling of the Horne monument to the North Carolina women of the Confederacy given to the state were carried out. The veterans were here in annual reunion and joined in fine tribute to the women of the South exemplified in the magnificent gift to the state that testifies the appreciation of Mr. Horne and the state.

The exercises began in the auditorium at 11 o'clock with an invocation by Rev. A. E. Osborne, late colonel of the Fourth North Carolina Regiment, Confederate States Army. The Third Regiment Band furnished music.

Dr. D. H. Hill, president of the A. & M. College and son of General D. H. Hill of the Confederate Army, delivered the address for the occasion, his theme being "The Spirit, Character and Deeds of the North Carolina Women of the Confederacy." It was an inspiring story of the heroism and sacrifices made by the North Carolina women of the Confederacy.

At the monument J. A. Long, chairman of the Memorial Commission, in brief, fitting remarks, presented the monument to the state, addressing Governor Craig for this purpose. He paid a most fitting tribute to Ashley Horne who made the monument possible, depicting him as having loved the South and especially North Carolina and having admired most of all that type of life found in the Southern women.

The speech of acceptance was by Governor Locke Craig, who declared that the state accepts it with most grateful appreciation as the tribute of a knightly soldier to the women of the Confederacy. The statue, he said, is an epic with heroism and devotion as its theme.

### Prepare Instruction Camp.

The city of tents which will accommodate the hundreds of young men from various Southern colleges and universities during the time that they are receiving instructions for service in the United States army under the auspices of the war department will begin to rise at the foot of Sunset Mountain, a message from Robert O. Van Horn, chief of staff, bearing the information that Captains Day and Brown with their troops will leave the latter part of the week for Asheville.

Army engineers will prepare for the drainage of the land, electricians will have supervision of the stringing of the wires, construction men will arrange the tents and water and sewer lines will be laid. By the date set for the beginning of the maneuvers everything will be in readiness for Southern high school, college and university graduates who are desirous of taking training under competent instructors assigned to duty at Asheville by the war department.

### Craig Names Board of Election.

Governor Craig announces the appointment of the state board of elections as follows: Wilson G. Lamb, Williamston; R. C. Claywell, Morganton; J. B. Underwood, Fayetteville; W. J. Davis, Hendersonville, and Clarence Call, Wilkesboro. Colonel Lamb continues chairman of the board. Mr. Claywell has served several terms as secretary. Mr. Call represent the Republicans and Mr. Davis the Progressives.

### Fine Wheat At Farm.

The state department of agriculture received from the farm of the Central Hospital for the Insane specimens of wheat from a 70-acre field that are especially fine, the tallest bundle measuring five to six inches long, especially well filled out. There are three varieties, purple straw, fulcoster and red wonder. The farm superintendent expects the wheat crop to thrash out an average of 40 or more bushels an acre.

### Little Tobacco Sold in May.

Only five leaf tobacco markets in North Carolina reported leaf tobacco sales on warehouse floors for the month of May, according to the report of the state board of agriculture just issued. These were Reidsville, 116,956 pounds; Winston-Salem, 67,218; Durham, 25,620; Mount Airy, 454, and Stoneville, 350 pounds. The sales for May, 1913, were 26,704 pounds.

### Secretary Issues New Charters.

The Bobbett-Forbes Warehouse Company, Greensboro, capital \$25,000 authorized and \$1,100 subscribed by A. V. Bobbett and others.

### Oil Painting of Ashley Horne.

In presiding for the ceremony of unveiling and presenting to the state the oil painting of Ashley Horne, Mrs. M. A. Winstead of Rocky Mount delivered an especially eloquent address in which she declared this one of the proudest days for the women of the state in all the history of North Carolina and especially so for the United Daughters of the Confederacy, and that the ceremonies of the unveiling of the monument just witnessed was one of the most imposing and beautiful ever held at the state capital.

# MAKING MONEY ON FIFTEEN-ACRE FARM

A Fine Little Farm of 15 Acres.

(By JOHN ROONEY.)  
We have a little farm of 15 acres just outside the city limits. Of this a road takes up 120 rods and two houses and barns one acre. Four acres are in orchard and one and one-half acres in small fruits; 150 of our trees have only been set five years. Five acres slope to the north and the rest south and east, with a slope of about 12 inches to the rod.

We plow about six inches deep. I would prefer eight inches, but cannot get it done as I am an invalid, confined to my bed and cannot have direct supervision of the work.

We back furrow all our land up and down the slope, and never plow crosswise. We leave two rods on each end to turn on. This is in grass, which we cut for hay.

The orchard is also in grass between the trees north and south. We cut most of our grass for the horse, two cows, four pigs and 75 hens.

We grow carrots for feed for the cows instead of bran. The other heavy feed is corn. We have no pasture and so feed in barn and yard.

I cannot keep account of the fruit and vegetables we use, as my son's family live on the place, making nine of us altogether, of whom five are children under eleven years of age.

I pay the children for their work, but charge them nothing for butter.

milk, fruit or vegetables. From the products last year we sold:

Potatoes	\$ 75.00
Corn	20.00
Red raspberries	245.00
Strawberries	5.75
Cherries	22.60
Currants	23.40
Plums	16.00
Sweet corn	17.80
Grapes	4.20
Vegetables	14.35
Pop corn	5.00
Apples	149.83
Buttermilk	80.24
Eggs	52.00
Pork	61.85
Calf	5.85

Total .....\$798.87  
Received for board .....\$138.00  
\$936.87

We paid for taxes \$97, for work \$311.84, for wood \$50, for groceries and meat \$115; a total of \$573.84, leaving a balance of \$363.03.

We have more corn in the crib, 50 bushels more potatoes and three tons more hay than we had a year ago, and hope to do better this season, as we hope to have better help.

We believe that no one should be satisfied with less than 100 bushels shelled corn to the acre.

# DEVICES SAVE LABOR

## AUTOMOBILE, WITH TONNEAU REMOVED, MADE USEFUL

On Every Farm Most Modern Machinery Always Finds Flattering Appreciation and Ready Application—Interests Boys.

I knew a progressive orchardist who developed a very good direct fruit trade in a region where formerly all the fruit that was purchased came from California, and he did this entirely by the use of his automobile. He removed the tonneau and used a body fitted with racks for the baskets. His local roads were very good, and he was able to pick the fruit when the dew of early morning was on it and to deliver it to his customers in three neighboring towns in a radius of fifteen miles by mid-morning.

Leading dairy farms that formerly wasted horse and man labor in conveying their dairy products to the railroad are today profitably operating motor trucks. The motor has vitally increased the efficiency of man, and with the machine maintained under good conditions its operator can perform as much work as three ordinary teams and drivers formerly did. The automobile's "colt," the motorcycle, should particularly recommend itself to the agricultural public, for on every farm the most modern machinery always finds flattering appreciation and ready application.

Power Machinery Interests Boy.  
I have frequently talked with many farmers' sons who ascribe their keen interest in the old homestead to the

fact that power machinery, including the automobile, motor truck, motorcycle, gasoline engine and farm lighting or watering system, has been placed in their charge. Farmers the country over who utilize the automobile for both pleasure and business purposes are of the staple, conservative type.

A Wisconsin farm boy uses a rack attached to the rear frame of his motorcycle, in which he is able to carry two milk cans and several bags of feed or seed. The motorcycle is of inestimable value in running errands, in getting repairs quickly done when a machine of any sort breaks down or as a means of calling the doctor in case of sickness where telephonic facilities are unavailable.

As the motor truck and its smaller brethren deserve much commendable consideration out of doors, so the electric washing machine, the electric flat-iron and toaster merit as much attention within the country home. A Minnesota suburbanite is sponsor for a home-made refrigerator that fittingly could be duplicated in every country home. By the use of a series of coiled pipes that penetrate his ice chest he is able to maintain a constant flow of water through the refrigerator from his artesian well.

### Success With Calves.

The secret of successful calf raising lies in keeping the calf's digestive organs in perfect shape. To do this avoid sudden changes, either in feeding or management. Feed warm milk from clean pails, but do not feed too much. Clean, sunny quarters, with exercise and clean and wholesome food fed in proper amounts at the proper time will lessen the number of weak calves, and produce heifers which will develop into vigorous cows.

# BASKETS FOR BERRY PICKING

Most Popular Size Is Eight-Box Carrier, Two Styles of Which Are Shown in Illustration.

For picking berries a considerable variety of box carriers have been used in various parts of the country. Some growers prefer a four-box carrier made of a flat piece of wood with shallow sides and provided with a handle. The objection to this size is that it de-

Try for Berry Picking.

mands too much walking back and forth and consequent loss of time.

Perhaps the most popular size is the eight-box carrier, two styles of which are herewith illustrated, says

Orange Judd Farmer. One is made with a wooden bottom and sides nailed together; the other of woven strips

Basketwork Picker.

such as are used for making baskets. The chief disadvantage in connection with carriers of this size is that unless the pickers cover their boxes with foliage as fast as filled the fruit in the first-filled ones is kept too long in the hot sun and thus suffers injury from the heat. It should be a rule, therefore, in every strawberry field in which large-sized carriers are used to cover the fruit immediately as each box is filled and then gather it up when eight boxes are ready.

A California judge says the mother has the exclusive right to name the baby. If it's a boy and she names it after father, he won't object.

When a man lets a woman drive him to drink you may be sure that if it hadn't been for the woman he would have found some other excuse.

Many a boy who used to burn the midnight oil in order to acquire an education is now a middle-aged man and burns the early morning electric current while he dances the tango.

The Atlanta Georgian says "Ish ka bibble" is of Yiddish-German origin. Nobody cares about its origin. What we should like to know is, what is its destination and will it soon arrive there?

A young Italian inventor claims to have exploded by violet rays powder ten miles away, wrapped in rubber, porcelain, asbestos, wood and wrought iron. There is nothing shrinking and modest about this style of violet. Nor, it might be added, about its claims.

There is another revolution on in Santo Domingo. But just now nobody seems to care.

Is there anything worse than to have the fishing fever come on you and then not be able to find a place to dig bait?

Cable dispatches report the reproduction of an ancient tragedy in a Syracusean theater 2,400 years old. Why not revive the ancient comedies, with the original Floradora sextet in the cast?

### Expecting Too Much.

Claude had been promised a motor ride with his father, and his mother had sent him upstairs to get ready. As he came down his mother asked: "Have you washed your face, Claude?" "Yes'm," answered the boy. "And your hands?" queried the mother. "Oh, see here, mother," said the boy in disgust; "I ain't no angel!"

# IT MAKES SICK SKINS WELL

No matter how long you have been tortured and disfigured by itching, burning, raw or scaly skin humors, just put a little of that soothing, antiseptic resinol ointment on the sores and the suffering stops right there! Healing begins that very minute, and in almost every case your skin gets well so quickly you feel ashamed of the money you threw away on tedious, useless treatments.

Resinol ointment and resinol soap clear away pimples, blackheads, and dandruff; great for sunburn and insect bites. Sold by all druggists.—Adv.

### Indorsed by Beauty and Chivalry.

As they might have been advertised: "For proof of the overwhelming popularity of our Honi Solt brand of pure silk hose, you have but to stand at any prominent corner on a windy day and note the beauty wearing them and the chivalry admiring them.—Seller & Slick."—Kansas City Star.

# RUB-MY-TISM

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

### In England.

Grandmother-elect—Well, doctor? Physician—A girl. Grandmother-elect (to servant)—Mary, hang a "Votes for Women" card at the window.

HEADACHE AND BILIOUS ATTACKS Caused by Malaria removed by the use of Elixir Babek cure for such ailments. "Myself and whole household had suffered very much for some time with Malarial Fever. 'Elixir Babek' has cured us perfectly, so that we enjoy at present the best of health."—Jacob Eberly, Fairfax Court House, Va. Elixir Babek 50 cents, all druggists or by Parcel Post prepaid from Kloczewski & Co., Washington, D. C.

### New to Her.

"Can your baby brother talk now, Jamie?" "Yessum. He can say lots of words." "What are they?" "I don't know. They're words I've never used before."

### The Combination.

"My dear, I saw your husband this morning when he was putting the baby to sleep in the cradle, with a bottle by his side." "La, ma, that's only a case of rock and rye."

# Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents
