

# Town Taxes

## Taxes for the Town of Sylva are Now Due.

I am compelled to call upon all taxpayers to make settlement with me at once. All taxes unpaid on April First will be advertised. If you wish to avoid payment of advertising cost you must settle with me before that date.

Respectfully,

J. J. McDONALD, C. T. Col.

### HOME SEEKING

Since the beginning of the history of the world we read of home seekers, Cain sought a home yet he did not expect to better his condition as most home seekers do, but to hide from that most splendid home to which he had rendered himself so disgracefully unworthy. It is really interesting to note that in the settling of the world that more persons have traveled Westward than in any other direction. This may be emblematic of the inclination of sinful humanity in turning its back on that which is right as did Cain since in going westward we must turn our backs to the bright morning light, and seek to better our condition by our own childlike and selfish inclination, we are all prodigal to some degree. We don't understand that it is not right to travel westward, we read of some wise men coming from the east, so they traveled westward, it seems that some others had traveled west. It has been said that Columbus traveled in a certain direction and found a great home for civilized humanity, this home has become a model home for the world, a home from which has sprang more real light in regard to National government than any other governmental home in the entire world, a home after which all civilized people desire to take pattern, a republic, a home that first granted to its citizens the right to prepare for a home in the great beyond a home that is a home of the people by the people and for the people, a home in which all are supposed to enjoy equal rights. This involves a principle over which there has been much blood shed, "The protection of ones own rights."

Since the discovery of this great home that has actually become the great start of the world it has been peopled by a westward travel, the states have been settled from the east to the west, of home seekers now we say, they are gone west. Even in the late settling of our state we see the move is westward, but our western states have about become filled up. Most of the western states that five years ago were spoken of as a dense forest are now very densely populated and have large cities that even rival those in the east. Land has become very dear and can not be bought any more with a song. As to home seeking, much attention is being attracted by the great industrial growth of that most prosperous nation that lies across the northern boundary of the United States, 50,000 Americans immigrated to Canada in the last twelve months, they no

doubt have learned of its growing prosperity, having an area greater than that of the United States nearly four million square miles, and having a population of a little over five million, when compared with our population we can approximate the amount of room for, home seekers Canada is still scarcely understood.

It is always belittled by outsiders rather than exaggerated. The unquestioned wealth of Canada's resources might well be summarized

She has fine large cities that rival our own metropolitan centers—has a golden future before her—has enormous agricultural interests extending through every province. Has railroad interests of great magnitude with billions of capital invested. Has canals and harbors rivaling our own. Has timber and lumber interest far exceeding in value those of the United States. Has manufacturing interests worth billions of dollars. Has stable and prosperous banks and progressive citizens. Canada is growing faster in population and wealth than any other nation in the world.

The Hon. Leslie M. Shaw of New York says that the development of Western Canada, during the next ten years, will probably exceed that of any country in the world's history. Canada's forests at the present rate of consumption of timbers for paper would supply the world with paper pulp for 840 years. The available water power in Canada is estimated at 17000,000 horse power. There is at present a prospect of a 2000,000,00 bushels wheat crop; as taken from report of August 1914 32000,000 in cultivation.

Perhaps one of the greatest cattle countries in the world, and much has been done in the butter, cheese and condensed milk industry, there there being in operation 3628 factories. Canada is rich enough and large enough to give us all a home.

### NO USE TO TRY AND WEAR OUT YOUR COLD IT WILL WEAR YOU OUT INSTEAD.

Thousands keep on suffering Coughs and Colds through neglect and delay. Why make yourself an easy prey to serious ailments and epidemics as the result of a neglected Cold? Coughs and Colds sap your strength and vitality unless checked in the early stages. Dr. King's New Discovery is what you need—the first dose helps. Your head clears up, you breathe freely and you feel so much better. Buy a bottle today and start taking at once.

FOR URICACID KIDNEYS AND BLADDER

### DISINFECTION OF SEED IRISH POTATOES

Soak the uncut potatoes for two hours in formaldehyde solution made at the rate of 1 pint of full strength (40 per cent.) formaldehyde to 30 gallons of water. The 40 per cent formaldehyde is also known as formalin and costs at retail drug stores about 35 cents a pint. Hoghead with bungs near the bottom are convenient for removing the solution which may be used any number of times in the course of several days if kept well covered. Do not treat potatoes if the eyes begin to sprout. The treatment may be given at any time before planting provided the treated potatoes are stored in disinfected sacks or bins.

This treatment is satisfactory for common scab and certain other surface infesting diseases. It does not reach deep-seated internal diseases. Plant the treated potatoes in soil that is free from infection. A regular three or four-year rotation with a green crop turned under is advisable in potato growing, both because of better condition for growth.

The seed potato inspection and certification by the Federal Horticultural Board is for a new disease, powdery scab which is different from and more serious than the common scab. Do not plant any Main seed potatoes unless they are certified as free from this disease. The Plant Pathologist, Agricultural Experiment Station, West Raleigh, N. C., will examine any suspected tubers sent to him.

### IF HAIR IS TURNING GRAY, USE SAGE TEA

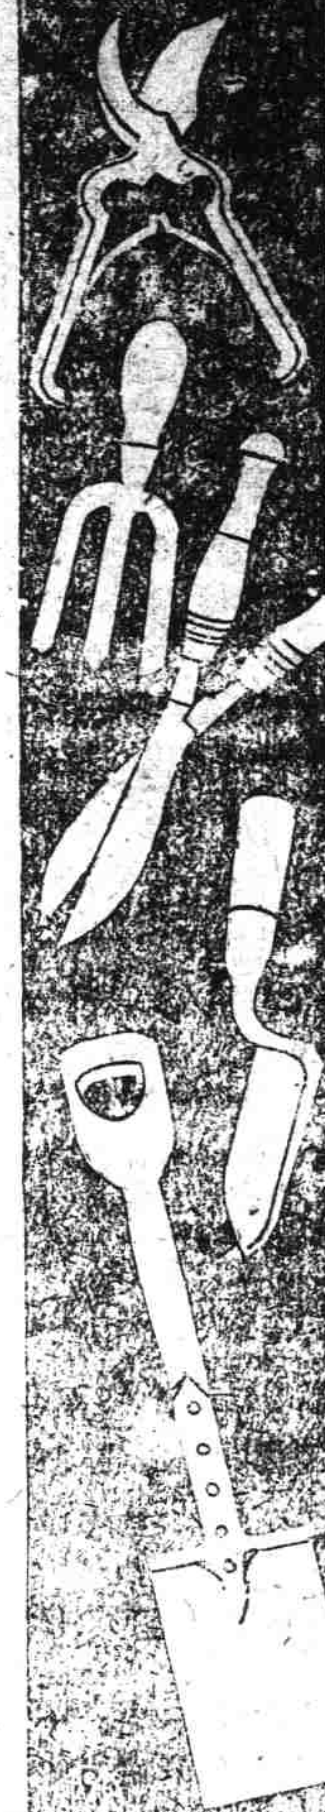

Don't look old! Try Grandmother's recipe to darken and beautify faded, lifeless hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggly, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's Sage and Sulphur" because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.

## CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tonic" is Harmless To Clean Your Sluggish Liver and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tonic tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tonic. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tonic is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick. I guarantee that one spoonful of Dodson's Liver Tonic will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tonic will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.
