A farmer came to a neighboring lawyer, expressing great concern for an accident which he said had just happened. "One of your oxen," continued he, "has been gored by an unlucky bull of mine, and I should be glad to know how I am to make you reparation." "Thou art a very honest fellow," replied the lawyer, "and wilt not think it unreasonable that I expect one of thy exen in return. "It is no more than justice," quoth the farmer, "to be sure; but what did I say?—I mistake—it is your bull that has killed one of my oxen." "Indeed!" says the lawyer, "that alters the case: I must inquire into the affair; and if -" "And if!" said the farmer; "the business I find would have been concluded without an if, had you been as ready to do justice to others as to exact it from them."

FIRST IN THE UNITED STATES.

North Carolina leads the Union in the number of cotton mills and factories; in the amount of raw cotton consumed; and in the manufacture of chewing and smoking tobacco.

She ranks below Massachusetts alone in the value of manufactured cotton products. In the number of producing spindles, the state is outranked by Massachusetts and South Carolina.

North Carolina ranks second in lumber, timber and wood-working establishments.

Cotton

Returns on Cotton are as yet incomplete, but with the price now holding firm around 12 1-2 cents (as this catalogue goes to press) and likely to go higher, the 1915 crop (estimeted at about 11,000,000 bales) will greatly exceed in value the 1914 crop of 16,000,000 bales; and, with decreased cost of production, this means an enormous gain in net revenue for cotton growers as compared with last year. And, also, cotton planters will have large additional revenues this year from other crops planted as substitutes for

We cite above only the principal crops, but total value of all U. S. crops for 1915 is about \$11,000,000,000. as against about \$10,000,000,000 for 1914, which means that the farmers of the U. S. will have about ONE BILLION DOLLARS MORE to spend than last year; and, with cotton mills, iron and steel mills working night and day, factories busy everywhere, railroads showing increased earnings, and banks overflowing with money, it certainly looks like PROSPERITY is with us again,

MENTS TO HON. C. J. HARRIS

Everything published at Greens-Harris in his last issue. He says, "At Dillsboro, upon the Murpay Branch of the Southern railway, wa/ out among those big, large mountains lives Charles J. Harris-one of the constructive men of North Carolina. the North many years ago a young man just from Harvard, and he lookwas all the wealth one might be looking for ked up in the hills of nation to the lock was: Brains, Grit,

"He has done much for himself, but more for h s adopted state. Once he accepted, simply as a patriotic duty, the republican nomination for Governor, Of course he didn't expect to be elected-but he ran and got acquainted with the people."

"Many of the republicans of the state want him to run in 1916. He is a thorough business man and as Governor would do more for the people than a half dozen of the democratic professional politicians who have filled the chair. But the average North Carolinian cares nothing about the business end of it-to elect a "dimmycrat" seems

"One of these days Men and Measures will be the test-and when that happens Men like Harris will be drafted to serve the state."
