W. N. C. MAY GET CIVILIANS CAMP

The secretary of the Asheville board of trade has written to the war department in regard to the civilians' military camp proposed for this state, urging them to locate the instruction camp in western North Carolina. This action was taken following the statement of Major General Leonard Wood made recently to the Richmond alumni of the Virginia Military institute to the effect that such a training school would be located in this state next year. The camp will be similar to the one at Plattsburg, N. Y.

A students' camp was conducted a year ago by the department on Sunset mountain and the board of trade gave valuable assistance in advertising the school and securing enrollments for it. The camp was abandoned on account of the small number of enlistments for the camp at Chattanooga the following year, all southern applicants being taken to Plattsburg.

A few months ago an army officer was in western Carolina examining various locations for the purpose he did not divulge. It is thought here today, following General Wood's announcement that this section will have first consideration, now that it has been definitely decided to locate the camp in the state.

The summer encampment at Plattsburg was exceeding popular among citizens, thousands taking their training there for several weeks. If the war department should decide to select a site in the recreation center of the Carolina mountains it will be a movement of great import to this region, commercially and socially. Besides bringing hundreds of men here who will advertise this section, it will bring thousands of dollars into the country. Such a camp would also be one more place of interest to tourists.

It is regarded as certain, also, that military instruction will be popular among a large number of citizens in this section. The mountain population is not necessarily war-like, but it is believed that there are large numbers of citizens in this territory who would welcome an opportunity to learn the rudiments of the art of war and would gladly submit to the rigid discipline of a military camp. —Gazette.

X. Y. Z.

The Woman's Missionary Union, of the Western Carolina Baptists, met with ladies of the Bryson City church, November 5th and 6th.

The meeting was very helpful to the societies represented; the many phases of Missions, Home and Foreign, were discussed.

Quite a large delegation from Murphy, Andrews, Whittier, Sylva, Beta and Cold Creek, was there.

Our leader, Mrs. W. H. Woodall, of Asheville, gave much valuable information in regard to the organizations of Societies, and how to make the work interesting and instructive. The ladies seemed to gain new inspiration from the meeting, and are looking toward the work of the new year with renewed zeal.

The Union was delightfully entertained by the Bryson City ladies. Luncheon was served Friday for the visitors and members of the Missionary Societies of the Methodist and Presbyterian churches.

Sylva was selected as the next place of meeting and we are anticipating a pleasant and profitable session next November.
