\$1.50 THE YEAR IN ADVANCE

AMERICAN FORCES RECEIVE THE NEWS WITH REJOICING

With the American Army on the Sedan Front, Nov. 11, 2 P. M.—On the entire American front from the Mosell to the region of Sedan there was artillery activity in the morning, all the batteries preparing for the final salvos.

At many batteries the artillerymen joined hands, forming a long line as the Lanard of the final shot. There was a few seconds of silence as the shells shot through the heavy mist. Then the gunners cheered.

American flags were raised by the soldiers over their dugouts, guns and at the various headquarters.

Northeast of the Verdun the American infantry began to advance at 9 o'clock this morning after artillery preparation, in the direction of Ornes.

The German artillery responded fiercely, but the machinegun resistance was stubborn. Nevertheless the Americans made progress. The Americans had received orders to hold the positions reached by 11 o'clock and at those points they began to dig in, marking the advanced positions of the American line when ceased.

Along the American front the eleventh hour was like awaiting the arrival of a new year.

The gunners continued to fire, counting the shells as the time approached. The infantry were advancing, glancing at their watches. Then men holding at other places organized their positions to make themselves more secure.

WILSON READS THE TERMS OF ARMISTICE BEFORE CONGRESS

Washington, Nov. 11.—The terms of the armistice with Germany were read by President Wilson at 1 o'clock this afternoon.

Assembled in the hall of the house, where 19 months ago senators and representatives heard the president ask for the declaration of war, they today heard him speak the words which herald the coming of peace.

The strictly military terms of the armistice are embraced in eleven specifications which include the evacuation of all invaded territories, the withdrawal of the German troops from the left bank of the Rhine and the surrender of all supplies of war.

The terms also provide for the abandonment by Germany of the treaties of Bucharest and Brest-Litovsk.

The naval terms provide for the surrender of one hundred and sixty submarines, fifty destroyers, six battle cruisers, ten battleships, eight light cruisers and other miscellaneous ships.

All allied vessels in German hands are to be surrendered and Germany is to notify neutrals that there is free trade at once on the seas with the allied countries.

Among the financial terms included are restitution for damage done by the German armies; restitution of the cash taken from the national bank of Belgium and return of gold taken from Russia and Rumania.

The military terms include the surrender of 5,000 guns, half field and half light artillery; 30,000 machine guns, 3,000 flame throwers and 2,000 air planes.

The surrender of 5,000 locomotives, 50,000 wagons, 10,000 motor lorries, the railways of Alsace-Lorraine for use by the allies and stores of coal and iron also are included.

The immediate repatriation of all allied and American prisoners without reciprocal action by the allies also is included.

DOUBLE MURDER AT AQUONE

A terrible tragedy occurred at Aquone in this county, Sunday afternoon about 5 o'clock. Merrell Angel, son of T. T. Angel, was out automobile riding with a woman by the name of Miss Grant, when a young man by the name of Jerry Dalton stepped out in the road in front of Angel's car and requested the girl to get out of the car and go with him. The woman got out of the car and started away when Dalton took a pistol and shot Angel twice. He then turned and fired at the girl hitting her in the head, both were killed instantly. Dalton was placed under arrest by citizens of that place and brought to Franklin Sunday night in Angel's car and placed in jail. The coroner and jury left Monday morning for the scene to hold the inquest. We have no particulars at this time of the killing, but it seems a case of jealousy over the woman.—Franklin Press.

Saturday afternoon while playing ball Luther Tallent, son of Jule Tallent, let a bat slip out of his hand hitting Bird Tallent, son of Dorcas Tallent, on the head, which resulted in the death of the boy in a few hours.—Franklin Press.

PEACE NEWS RECEIVED WITH MUCH JOY.

The news of the signing of the armistice was received here with much joy. The celebration started at once and lasted until late Monday night.

As soon as the news was received the whistles of the Sylva Tanning Co. were blown and all the school and church bells were rung.

At six o'clock Monday evening a parade started at the east end of town near Hill's store and paraded through town and then to Dillsboro and Webster. A long the route large cheering crowds were lined up along the road.

The main feature of the parade was the Kaiser hung from a scaffold built on the large truck belonging to the Sylva Tanning company, on which the colored brass band rode. On returning to town the Kaiser was burned in effigy in the middle of Main street.

AMERICA'S CASUALTIES IN GREAT WAR MAY NOT EXCEED 100,000

Washington, Nov. 13.—Officials here estimate that the total casualties of the American expeditionary forces in the war will not exceed 100,000, including the men killed in action, died of wounds, disease and accidents and the missing who never will be accounted for. Some of those who have been missing probably will be accounted for when the prisoners are returned from Germany.

LARGE NUMBER OF CHRISTMAS BOXES

A. J. Dills, Secretary to the local Red Cross, is very busy these days, examining and preparing Christmas boxes for the boys overseas. "A large number of these boxes have been brought in, but nothing like the number that are expected to come to yet. The time in which these boxes can be sent is getting short, so if you have a label from a boy in France you had better get the box ready at once."

LOCAL BOARD DISCONTINUES SENDING QUESTIONNAIRES

In view of the Armistice recently signed, the local board has been ordered to discontinue the mailing of questionnaires to men above thirty-six years of age, but to proceed to mail questionnaires to all men eighteen years of age.

The Board is ordered to complete the physical examinations of all First Class men from 18 to 25 years of age.

A number of questionnaires to men above 36 years were mailed before receiving the government's order to discontinue. The records, which will eventually be sent to Washington, will show the questionnaires mailed. In order to avoid the appearance of a record default, it is suggested that all who have received questionnaires fill up the same and return them to the Board as promptly as convenient. The War Department has made a request that all persons who can write, fill up their own questionnaires. Experience has shown that the man who fills up his own questionnaire, does it more carefully.

NO LET UP IN THE CONSERVATION OF FOOD

November 5, 1918.—"The increase in the monthly allotment of sugar from 2 to 3 pounds per capita must not be taken as meaning that the conservation of food stuffs is not now fully as important as it was at the height of the food shortage," declared County Food Administrator E. E. Brown.

Mr. Brown continued: "While the sugar situation has improved, largely due to the splendid aid of the American housewife in reducing consumption, and also by the availability of the domestic cane and beet sugar, the needs for greater exports in other lines is less marked. The United States must increase the food exports by one-half from a harvest no larger than last year's.

The prominent part which the American woman has played in conserving sugar is best understood by a comparison of our consumption of sugar during the past four months with the consumption for a similar period in normal times. Normal consumption of sugar for months of July, August, September and October was approximately 400,000 pounds per month, or 1,000,000 pounds for the four months. Following the appeal for sugar conservation there was saved approximately 300,000 pounds during that period of this year. Seventy per cent of the sugar consumed in the United States is used in the home.

Last spring when we had only 20,000,000 bushels of wheat for export above our normal requirements, the American people made sacrifices by saving that enabled us to send 130,000,000 additional bushels of wheat besides the normal exportable surplus. Of this the housewife alone saved a total of 13,000,000 barrels of flour or a saving equivalent to approximately 24 pounds of flour for every man, woman and child in the United States.

The same loyal spirit of sacrifice has been shown in the sugar conservation program and it is confidently felt by the Food Administration that the American people will give renewed devotion to the food program which calls for a greater saving on all food commodities."

SUNDAY SCHOOLS TO RE-OPEN SUNDAY

The Sunday schools will reopen in Sylva Sunday morning at the usual hour. There will be Sunday school at both churches and preaching at the Methodist church by the pastor, Rev. J. A. Cooke, at 11 o'clock.

Below we publish a proclamation by Governor Bickett:

"Today our hearts leap with joy; our eyes shine with gladness and our lips are full of praise. God is in his heaven. All is right with the world."

"For many weeks our churches have been closed. On next Sunday they will be opened again; therefore, I devoutly urge that every service be one of prayer and thanksgiving. Let all the people assemble in their places of worship and lift up their hearts in praise of the Lord of Hosts for his mighty deliverance and in prayer that in our day of triumph He will keep us just and gentle still."

Dr. Nichols, County Health Officer, states that the influenza has died down now until there is no danger of the disease spreading again.
