FRIDAY, JAN. 10 1919

The North Carolina was the first battleship to arrive with troops from overseas. The Old North State is usually first in everything.

"Col. Theodore Roosevelt is dead" was flashed over the wires Monday morning.

President Wilson is receiving great honor everywhere he goes in Europe.

The County Commissioners have made an appropriation for the purpose of employing a Home Demonstration Agent for the coming year. A very wise step, and they would do well to re-employ Miss ...

From all reports the 30th Division will be back in this country no later than February 1st. Raleigh is making a determined effort to have them sent there that they may entertain and welcome them back home.

Ask any business man where this town gets its main backing and he will tell you that it comes from the farmers of the county, and at the same time the town has not done anything for the accommodation of the very people who keep the town alive. There is not even a single place in town for the farmers to hitch their teams, nor a public watering place, and the fact of the matter is there are no conveniences at all for them when they come to town. It is high time that the town was beginning to provide some accommodations for the very people that make the town possible.

To those who have not redeemed their 1918 pledges to buy War Stamps, the Government is going to give a chance to make good their promises. They can buy the 1919 stamps and apply them on their pledges. The Government needs the money to feed and clothe the boys and transport them back home, so get busy and make yourself right with Uncle Sam.

RECENT RULING REGARDING WHEAT AND MILL FEEDS.

The rescinding of rules and regulations governing the wheat milling industry recently means that:

1. Mills may now grind wheat for anyone regardless of whether they grew the wheat or not.

2. Farmers may have their wheat ground and sell the wheat to merchants or others; and merchants may purchase wheat and have it ground at custom, selling both flour and mill feeds.

3. Neither merchants nor mills are asked to require any longer from customers mill feed pledges restricting the use of wheat mill feeds to the feeding of dairy cows and young pigs and calves.

4. Mills are no longer required to observe the prices fixed several months ago for mill feeds and flour, but are allowed to balance the prices of mill feeds and flour according to the demands of their trade. The only requirement is that their margin, including operating expenses and profits, shall not exceed \$1.25 per barrel of flour ground.

We have just received a wire from Washington stating that effective immediately, the definite price margins on mill feeds, wheat flour and mixed flours are removed. This does not mean that dealers will be allowed to charge outrageous margins on either feeds or flour, but simply that the margins may vary under different conditions.

Remaining in effect is the provision in the Food Control Act itself which states that not more than a reasonable margin shall be exacted on any food or feed product.

Very truly yours,
E. E. BROWN,
Co. Food Administrator.

Pray for Better Fruit

Spray with Dry Lime Sulfur
Standard Lime-Sulfur Solution in Dry Powdered Form

Dry Lime-Sulfur is especially valuable for use in large orchards and groves. Has all the advantages of the liquid material, but does not freeze in cold weather. Does not leak from the barrel in summer, and its use avoids the necessity of handling 50 per cent water. Dry Lime-Sulfur is the first and the only Dry Lime-Sulfur on the market. Use it in the spring and fall on all kinds of fruit trees.

We have investigated this material thoroughly and satisfied ourselves from letters from Experiment Stations and Orchardists that it is all right.

Are You Open-Minded?

The average American is open-minded!

American business is conducted by true Americans of vision, open-minded men who believe in their country and strive to meet their country's needs. The men in the packing industry are no exception to the rule.

The business of Swift & Company has grown as the nation has progressed. Its affairs have been conducted honorably, efficiently, and economically, reducing the margin between the cost of live stock and the selling price of dressed meat, until today the profit is only a fraction of a cent a pound—too small to have any noticeable effect on prices.

The packing industry is a big, vital industry—one of the most important in the country. Do you understand it?

Swift & Company presents facts in the advertisements that appear in this paper. They are addressed to every open-minded person in the country.

The booklet of preceding chapters in this story of the packing industry, will be mailed on request to

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

Don't Cough Until Weak

Tired out and weakened with persistent coughing, elderly people are in no condition to resist disease, and can not easily ward off more serious sickness.

FOLEY'S HONEY-TAR

helps coughs quickly. It brings quick relief from day and night coughs, whether they result from cold, lagrippe, bronchial affection or tickling throat.

Mrs. Mary Kibby, an elderly lady of Spokane, Wash., 3533 Princeton Ave., writes: "I was sick in bed with lagrippe, and had a very bad cough. I thought it a good time to try Foley's Honey and Tar, so began taking it. It stopped my cough, and I got better. So now I am ready to go to work again. I am 75 years old, and as long as I live will praise Foley's Honey and Tar."
