THANKSGIVING DAY A Proclamation By The Governor

Our forefathers established the beautiful custom of setting apart one day near the end of the harvest time to return thanks to Almighty God

Jackson County Journal

SYLVA, N. C., NOV. 21 1919

In this good year, 1919, how much we have for which to be grateful! Our soldiers who on last Thanksgiving Day were far away in foreign lands have safely crossed the seas, and are at home again in happiness and peace.

The Lord of the Harvest has been good to us. Our fields have, yielded bountifully. Our industries have thrived wonderfully. Prosperity smiles on farm and factory, bank and store. In every line of business endeavor we are prospering beyond the fondest dreams of our fathers.

There has been also a mighty triumph of spiritual forces in our midst. for which we should be profoundly grateful. The fruits of this victory are seen in the great forward movements of all the churches; in the finer educational advantages enjoyed by all the children of the State; in the growing demand for complete economic and social justice in taxation and all other matters; and in the larger opportunities offered on every hand to the average man and the average woman.

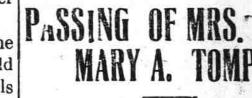

Surely in this day God has given to men everywhere a bigger, broader conception of Christian service than they ever had before.

North Carolina is singularly blessed in that in this tlme of turmoil she is almost free from industrial and racial bitterness and strife. We should be deeply thankful for the spirit of friendship and good will that prevails among us. Let us pray for absolute justice for all, by which alone this

WOMEN CLUB WORKERS FORM COUNTY COUNCIL

Raleigh, Nov. 20-Those counties which now have their home demonstration work well organized have purpose of furthering the work with the women. Later, when the farm work is also organized on this basis, it is planned to merge the two into Home and Farm Councils for the general advancement of rural life all over the county.

Discussing this more thorough ornanization of her work in the State, Mrs. Jane S. McKimmon says:

Plans have now been adopted in these well organized counties favoring the selection of delegates from each Home Demonstration Club in every county to go to the County seat one Saturday in every month to meet with the County Home Demonstration Agent in conference. In addition to torming a fine board of advisers for the Agent, these delegates also pledge themselves to support the home demonstration work, and they help to spread the art of home-making in every part =

Plans which have worked well in one section are gone over and fitted to other sections of the county. Successfui programs are exchanged "I had constant trouble with my and the women from one club agree to drive over to a meeting at another club, either to help in the program or to sitas spectators with the view to taking note of the good points.

To be able to measure one's own progress by the accomplishment of others, has been one of the good points of these County Councils. The spirit of mutual helpfulness has been wonderful. Women are beginning to find that their duty is to the county as a whole, and that the development of the backward districts is their responsibility, as well as that of the County Agent.

In one meeting of a Council, the feasibility of a Home Demonstration Club engineering the serving of hot lunches in the rural schools was discussed.
