In other words the ship subsidy abolished. Now appears a Volsteadist North Carolina. When the German hoots the Frenchman shoots. Sweet are the uses of protection, say the sugar refiners. It has been two years now since our arrival at Normalcy. That rattling you hear is only Ford running for president. The French have at least settled down to a gainful occupation. Gainful occupation does not always mean productive employment. A bridal shower usually comes just before the groom is lead by the halter. The Democrats are wondering if Ford can pull the other machine over the hill. Most of the folks who want to stay out of Europe now stayed out in '17 and '18. Say it with poems is the slogan of the old Mountain-Courier, of Waynesville. We see by the papers that Paris styles are reflecting a decided Egyptian influence. Tut, tut! Great Britain is said to have taken her last stand on the Rhine at Cologne. A sweet-smelling post. It might not be a bad idea after all to nominate Hank for president; Fords run well through mud. Who said the price of necessities is declining? A Chicago doctor had to pay \$20,000 for a kiss. There is a New man at the head of the post office department, but Work is transferred to the Interior. Half a league, half a league, half a league onward may yet become the new slogan of the administration. Top dressing on a man's soil makes him rich, and over dressing on his wife and daughters makes him poor. The reason some folks do not want the prohibition laws is that they are afraid of a heavy fine.

If there is anybody who is out of employment in the state, the General Assembly might create another commission.

That fluttering you hear is caused by the lame ducks nudging each other to move over and make room on the roost.

With all that has been going on in the old world it's no wonder that the earth frequently registers severe shocks.

Are we to infer from Mr. Harding's speech to the senate that the administration is courting the league of nations?

Mr. Harding may not intend to become wedded to the League of Nations, but he has certainly been making some proposals.

We judge that Senator Hi's objection to Uncle Sam going courting in Europe is not based exclusively upon aversion to international marriages.

There are those who contend that the Michiganders proved that they are not all geese when they failed to endorse Hank Ford for president.

The Germans are said to be placing many obstacles in the way of the French, but so far they haven't put out any gold marks in the attempt to stop them.

There is nothing very startling in the announcement of a 105 year old Hoosier that he likes to fly his airplane every day; people not nearly so old are often flighty.

That Knoxville, Tenn., man who was supposed to be dead and turned up to find his wife married and was himself sent to jail for forgery, jumped out of the fire at the pen-as you might say.

A ballet dancer was awarded \$25,000 damages because her nose was disfigured. At the same rate the jury would have given her approximately a million if she had lost a leg.

A Waynesville minister and three elders, on their way to a laymen's meeting, were mistaken for bootleggers, held up and their car searched by prohibition officers. Those fellows don't always judge by appearances.

If the North Carolina General Assembly had passed the act making insanity a cause for divorce, all that would be necessary for either party would be to prove marriage and the court would have to grant the decree.

We suppose that the 13 year old deaf boy in London was glad enough to hear in any manner, but it does look rather tough on him to have heard jazz over a radio phone the first time he ever heard anything. What must he think the world sounds like!

The French have been in the Ruhr several weeks now and have shot only nine Germans. They will have to get busy on if they expect to rival Germany's record. The Germans thought nothing of shooting that many Belgians in the trenches before breakfast, most any morning.

Doyle on the West and beginning on a locust stake on the west bank of public road, corner of F. M. Crow's lot; thence N. 63 E. 79 yards with line of Crow's lot; thence N. 46 W. 35 yards to a stake at the corner of Bryson and Crow's lot; thence N. 63 E. 60 poles, less 70 yards to a small chestnut in line of No. 81; thence with said line S. 20 E. to a stake in North bank of Thos. Zachary's road on the line of No. 81; thence with said road in a westwardly direction to a red oak on the North side of road; thence in the same direction a direct line to a stake in the line of O. M. Doyle on the West bank of public road; thence with road to the Beginning, containing 5 acres more or less.

SECOND TRACT: Beginning on W. J. Bryson's S. W. corner on the West side of public road, running N. 63 E. 70 yards with Bryson's line to a stake; thence S. 46 E. 35 yards to a stake; thence S. 63 W. 70 yards to a stake on the West side of said public road; thence with Dr. Hoyle's (Now Master, Tate, Shanklin et al) line to the Beginning, containing one-half acre more or less.

THIRD TRACT: Beginning on a stake on the Webster and Walballa road, South of S. C. Allison's old house and 1 pole N. 50 E. from a large spanish oak in the Parker lot; thence N. 72 E. 18 poles to a chestnut stump; thence to a stake on the bank of the creek; thence up the middle of the creek to the corner of McGuire's lot; thence S. 55 W. 18 poles to a stake in the road; thence with said road S. 31 E. 20 poles to the Beginning, containing 2 1/2 acres

### Cuts Better—Pulls Lighter Easier to Operate

THE John Deere Mower, highly improved, combines to an unusual degree qualities that no other mower gives you. Its ability to cut all kinds of hay without clogging; its unusually light draft; its ease of operation; and the ease with which its good working qualities can be maintained will particularly appeal to you.

### JOHN DEERE MOWER

Its ability to do a thorough job of cutting in any kind of hay is due largely to the greater power transmitted to the well-made carefully-fitted blades. Special arrangement of the simple, three-piece gear mechanism makes possible this extra power. The thrust of one pair of gears equalizes the thrust of the other pair; the gears cannot get out of mesh. Side wear, strain on the bearings and end thrust of the pitman shaft are done away with. Transmission of power is accomplished with little loss.

The John Deere is light draft because all unnecessary friction has been done away with. All parts are carefully made and carefully fitted to prevent binding.

You will like the way it handles. By means of the convenient foot lever the bar can be quickly and easily raised high to pass over field obstructions. With the hand lever the bar can be easily raised to extreme height.

The John Deere is easy to keep in good running order. Lag in the cutter bar that may develop from long usage can be taken out in the field by a simple eccentric nut adjustment.

Be sure to see this improved mower. We never have seen its equal. We are sure you will like it. There's a sample set up for your inspection.

### Jackson Hdw. Co.

more or less. FOURTH TRACT: Beginning on a spruce pine on the North bank of the creek in the outside line of K. Bumgarner's corner; thence —S. 140 poles to a stake, originally a hickory; thence — 80 poles to a down hickory; Frank Bradley's corner; thence N. 5 E. 42 poles to a locust stake in said Bradley's corner; thence N. 12 W. 13 poles to a creek thence down creek to the Beginning, containing 71 acres more or less.

For a more complete description of said lands, see the Book referred to in the Register of Deeds office. This the 28th day of February 1923.

### BETA

Preaching services were conducted here last Saturday and Sunday by our pastor. The fine sermons were enjoyed by all. A very interesting program was rendered by the B. Y. P. U. last Sunday night. The B. Y. P. U. will meet in the different churches of the community each week during the day. The Beta Club will have a Social Class Saturday night March

great work is being done. Mr. and Mrs. W. C. Reed visited Mr. J. P. Reed Saturday night. Miss Ruth Deitz spent last Friday night with Miss Irene Davis. On February 14 the Senior B. Y. P. U. gave a social which was enjoyed by some present. Games were played and refreshments were served.

### CATARRHAL DEAFNESS

is often caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE will do what we claim for it—rid your system of Catarrh or Deafness caused by Catarrh. HALL'S CATARRH MEDICINE has been successful in the treatment of Catarrh for over Forty Years. So buy all druggists. F. J. Cheney & Co., Toledo, O.
