## FIREMEN IN RURAL DISTRICT

Construction of Hard-Surfaced Roads Enables Fire Department to Protect Farmers.

Dallas county, Texas, has made it possible for the rural districts to obtain protection from the fire department in Dallas through the construction of modern hard-surfaced highways. A contract executed recently between the Dallas City commission and the county commissioners provides for fire protection to farmers on all paved roads within a radius of 15 miles of Dallas. When a farmhouse or barn along a paved road catches fire all the farmer has to do is to telephone the Dallas department and it

will respond at forty to fifty miles an hour with a chemical engine or a steamer as occasion may warrant.

Dallas county is one of the first in the country to make such an arrangement. Several fires have already been extinguished with small loss. A general reduction in fire insurance rates in the smaller towns and farming districts has been the result. The service will be made more extensive when the big road building program now under way in Dallas county is finished. Farmers affected by the arrangement are reported to be delighted with the protection afforded.

## CRITICISM MOST NECESSARY

However, It Should Be Intelligent and Constructive, Not Destructive and Detrimental.

Roads are seen the most, used the most, and needed the most of any public utility. It is natural that they should be talked about because they are continually in evidence. Every now and then we hear criticism of the road building program. Now criticism is one of the most necessary requisites of success providing it is intelligent and constructive, but criticism that has no basis in fact is, to say the least, destructive and detrimental. While a well-aimed shot may bring down the proper objective, a stone thrown at random will do much damage and no good. If you want your criticism to do good be sure you know the facts. Think before you speak.—Department Public Works, Nebraska.

## KEEP ROADS FROM CRACKING

Heavy Sheets of Steel Fabric Are Now Imbedded in Most Improved Types of Concrete.

Flat sheets of heavy steel fabric are now imbedded in the most improved types of concrete roads to increase their life. The state highway departments of both New York and Pennsylvania have been so thoroughly convinced of the value of the innovation that hereafter the flat reinforcements will be specified in all contracts let by them, says Popular Mechanics Magazine in an illustrated article. Of even greater significance is the use of a contraction joint in the center of the road.

## HARD ROADS BENEFIT HEALTH

Among Other Things It Is Possible Now for City People to Enjoy Outdoor Life.

The extension of hard roads has not only benefited the rural district, and its people, it has brought health, and all its blessings, within easier reach of the people of the crowded city. It has taken the country, the great outdoors, with its rush of pure fresh air, and sunshine, and health, to the very edge of the city. The motor and the road take the mother and the baby away from the smoke, the grime, the dust, and the disease of the heat-baked community out to the park, the field and health.

## To Open Last Link.

The last link in the 6,500-mile scenic motor highway through western Canada and the United States is to be thrown open to traffic June 30. The road, 93 miles long, passes through the Rockies and virgin mountain and forest country.

## Tax to Build Highways.

The proposal to place a tax on every gallon of gasoline consumed by motorists for the purpose of raising funds to build new highways is gaining ground throughout the country.

Columbia, S. C.—"I was suffering with a breakdown in health, and became discouraged. I suffered with bearing pains and pains down through my limbs, my appetite was poor and I became frail and weak. ## LESSON FOR APRIL 1

### THE WALK TO EMMAUS

LESSON TEXT—Luke 24:13-31.  
GOLDEN TEXT—Why seek ye the living among the dead? He is not here, but is risen.—Luke 24:5-6.

REFERENCE MATERIAL—Matthew 28:1-10; Acts 2:22-36; I Corinthians 15:3-20; Colossians 3:1-4.

PRIMARY TOPIC—A Walk With Jesus.  
JUNIOR TOPIC—Jesus as a Companion.

INTERMEDIATE AND SENIOR TOPIC—Life With the Risen Lord.  
YOUNG PEOPLE AND ADULT TOPIC—What Christ's Resurrection Means.

### I. The Walk of Two Discouraged Disciples (vv. 13-15).

Emmaus was seven and one-half miles northwest of Jerusalem. Just why they were walking this way we do not surely know. Perhaps their home was there, or they were merely walking to seek relief from their stunning sorrow. If they had believed what Jesus told them about His death and resurrection they would have escaped this great disappointment. Unbelief causes many heartaches and disappointments. One of these disciples was Cleopas, but the other is unknown. The topic of conversation was the tragedy of the cross and the resurrection rumors. So little had His teaching about His resurrection impressed them that the reports which the women brought were as idle tales to them. If they had believed what He said about coming forth from the grave they would have been expecting to hear just such reports as were being circulated.

### II. The Unrecognized Companion (vv. 16-24).

1. Who He Was. Jesus. While they reasoned together on the wonderful events of the last few days on this journey, Jesus joined them. Even when He questioned them concerning their sadness they did not recognize Him. Many times we are so taken up with our sorrows and disappointments that we do not recognize Jesus though walking by our side. How grieved He must be to be unrecognized as He walks by us in our sorrows and trials.

2. His Question (v. 17). Perceiving their sadness and perplexity He sought to help them by calling forth a statement of their grief. This question surprised them and caused them to infer that He was a stranger in Jerusalem. The condemnation and crucifixion of the great prophet of Nazareth were so recent and notorious that no one they thought, who had lived in Jerusalem, could be ignorant of them. One valuable aspect of the unbelief of the disciples was that it revealed the fact that they were not credulous enthusiasts but hard to convince. Out of this incredulity developed the unshaken faith in the word of the resurrection.

### III. The Scriptures Opened (vv. 25-35).

1. His Rebuke (v. 25). He did not rebuke them for not believing the strange stories they had heard, but for ignorance and lack of confidence in the Old Testament Scriptures. They had accepted only such parts of the Old Testament as suited their notions. Men and women who do not believe all that the Scriptures say, especially about the work of the blessed Savior, are entirely blameworthy. The very center and heart of the Old Testament Scriptures is the death and resurrection of Christ. It is ignorance of the Scriptures and unbelief of the wonderful and complete redemption wrought by Christ that robs us of many joys, and power and efficiency as workers for Christ. Christ will be the teacher of all who will open their hearts unto Him.

2. Jesus Recognized (v. 31). While sitting at meat with the disciples their eyes were opened as they saw Him bless the bread and distribute it to them. We, too, can see the Lord on such common occasions as eating a meal if we have open eyes. Indeed we ought to see Him when eating, seeing, buying and in our recreations for He has promised us His presence.

IV. The Effect Upon the Disciples (vv. 32-35). They were so filled with joy over this revelation of the Savior that they hastened back to Jerusalem to tell the other disciples of the word of His resurrection. Those who have had the Scriptures opened to them touching the death and resurrection of Christ cannot help but hasten to make it known to others.

### Conciseness in Speaking.

Every man should study conciseness in speaking; it is a sign of ignorance not to know that long speeches, though they may please the speaker, are the torture of the hearer.—Felt-ham.

### Like Old Watchers.

Persons extremely reserved are like old enameled watches, which had painted covers that hindered your seeing what o'clock it was.—Walpole.

### The Secret.

What is mine, even to my life, is hers I love; but the secret of my friend is not mine.—Sir P. Sidney.

### The Quarrel.

Beware of entrance to a quarrel but, being in, bear it that the opposite may beware of thee.—Shakespeare.

# Cotton and Peanuts

**WHY** save the Cotton Crop from the boll weevil and then let rust destroy it? A fertilizer with 5 per cent of Potash will prevent cotton rust. A test on Peanuts showed that an 8-3-10 fertilizer gave nearly double the crop obtained from the use of same amount of 8-3-0. The 8-3-10 produced well filled nuts; the 8-3-0 produced a large lot of "Pops".

Potash is today the cheapest thing that goes into a fertilizer. Take advantage of this now—use it freely.
