

"Made Me Well and Strong"

ANOTHER WOMAN WHO IS THANKFUL FOR
PE-RU-NA

"I have taken several bottles of Pe-ru-na and find it a great benefit. I had pains in my stomach and bowels, but by the use of Pe-ru-na and Ma-ri-na, I am well and strong again. I always keep a few bottles in the house."
Mrs. OGDEN GRAY,
R. F. D. No. 3, Box 19,
Michol, Iowa

Mrs. Gray's experience is just more evidence that Pe-ru-na is quite as good a remedy for catarrh of the stomach, bowels or other organs as it is for coughs, colds and nasal catarrh. Pe-ru-na is a wonderfully fine medicine to have in the house for everyday use.

Not Entirely Artificial.

"I was deceived in you," complained the husband. "Your teeth are hand-made, your complexion is artificial and your hair is another's. Are you wholly false?"

"No, not wholly," she replied. "I have a mind of my own, as you very well know."

And he was forced to admit the bitter truth of her statement.—Boston Evening Transcript.

An Important Point.

Judge—"Five dollars or ten days in jail." Prisoner—"What kind of a jail have you got?"

Worse Still.

"Your husband has been ill?" asked the vicar who was paying his monthly call.

"Yes," replied the worried-looking woman. "He has been feeling very bad. I do my best to please him, but nothing seems to satisfy him."

"Is his condition critical?"

"It's worse than critical," she answered, with a sigh; "it's abusive."—London Tit-Bits.

Question.

"My youngest sister is engaged." "Well, girle?" "I was just wondering." "About what?"

FARM LIVE STOCK

EWES IN HEALTHY CONDITION

Care of Flock Has Important Relation to Financial Returns From Lamb Crop.

(Prepared by the United States Department of Agriculture.)

The care of the flock before lambing has an important relation to the financial returns which may be expected from the lamb crop. Ewes which are in poor condition and lacking in vigor will produce a large percentage of small, weak lambs. Such lambs require more care and feed to develop rapidly enough to reach the market early when the prices are usually highest. If the ewes are thin in flesh at lambing time they will not produce a good flow of milk. This retards growth and stunts the lambs. A small, thin lamb nearly always sells as a cull on the market. There is usually a large supply of culs with little demand; consequently culs always sell for the lowest price. Sheep producers will find that it pays well, from a market standpoint, to have the ewes in strong, vigorous condition at lambing time.

If good winter pasture is available it is comparatively easy to keep the flock in good condition. Fall wheat or other pasture with clover or alfalfa hay for dry roughage, makes an excellent ration for pregnant ewes, and the exercise which they get while grazing will bring them to lambing in a vigorous condition. Where clover or alfalfa is not available to supplement the pasture, oat straw or corn stover with

Corriedale and Columbia Ewes and Lambs at United States Sheep Experiment Station, Dubois, Idaho.

approximately quarter pound of cotton-seed meal per day, may be fed. Where there is no pasture and it is necessary to feed throughout the winter season, a ration of three or four pounds per head per day of clover or alfalfa hay alone may be used. Approximately quarter to half pound of corn should be added three to four weeks before lambing.

A more economical ration which may be used is two to three pounds of alfalfa or clover hay and two pounds of stlage. The stlage must be of good quality and not frozen or moldy.

Salt should be kept before the flock at all times; an unlimited supply of fresh water should also be available.

It is important that the ewes get a moderate amount of exercise, and where the flock is not on pasture the rough feed should be placed some distance from the sheds or barn so that the flock will get exercise in going to and from their feed.

Care must always be taken that pregnant ewes are not chased by dogs or jammed through narrow gates or doors, as any rough treatment will cause a large per cent of loss of lambs and perhaps of ewes.

The shepherd's problems for the lambing season are very largely solved if he has brought the ewe flock to the beginning of the season in good flesh and thrifty condition. In addition he has made the first step towards producing a product that will bring the largest market returns.

LIVE STOCK FACTS

An old horse, like an old man, feels the cold.

The brood sow is the backbone of the swine herd.

Use crude oil on the hogs to kill lice during the winter months.

Squaw flint corn or any of the early flint varieties are excellent for hogging off.

As a hog pasture alfalfa cannot be excelled, and the hogs do not require the attention that other stock do as they do not bloat. Pasturing the field when wet damages the crop, and will eventually mean a poor stand.

Several extensive hog raisers use houses without floors with apparent success. If plenty of fresh bedding is kept in the houses the pigs will come along all right.

A good mineral mixture in which to feed the salt is: two bushels of wood ashes or charcoal, one peck of salt, one peck of air-slaked lime.

The right kind of water and plenty of it is supplied only when there is good fresh water before the sows at all times.

GOOD ROADS

ROADS PAY FOR THEMSELVES

Hard-Surfaced Highways Effect Big Saving in Maintenance and Gasoline Costs.

Tests made in many states to determine the actual cost of paved roads have shown that hard-surfaced highways effect such big savings in maintenance and gasoline costs that they pay for themselves in from 10 to 15 years.

The estimates were reached only after careful checking of first cost as against traffic, comparative maintenance on other type roads and exact experiments on the resistance on dif-

Improved Roads Save Gasoline Bills.

ferent road surfaces to motor vehicles from which the saving in gasoline is evolved.

Fred R. White, chief engineer of the Iowa state highway commission, in a statement issued recently said: "Highway traffic has outgrown the road. This is not the fault of the county engineer, supervisor or highway commission. It will do no good to fire the engineer, supervisors or highway commission. New men will be just as ignorant and still have the same problems to solve."

"Iowa, in highway matters, is in the position of the boy who has outgrown his clothes. It isn't his fault. It will do no good to scold or abuse him. The remedy is to get him a new and larger suit and also make allowance for his continued growth."

GOOD ROADS LENGTHEN LIFE

Prior to Construction of Improved Highways Farmers Led Comparatively Isolated Lives.

Anything which contributes to the physical or mental well-being of the individual helps to prevent disease to reduce disability and to lengthen life. Prior to the development of the automobile, and the building of our good roads, most of the inhabitants of our rural districts led comparatively isolated lives. The difficulty met in getting about the country, and the strenuousness of farm work, kept most of the farmers, their families, and their employees, tied down to the farm the greater part of the year. As a result of the monotony and constant toil, men and women exhausted their strength and energy early, became prematurely old, and were often incapacitated through lack of proper recreation and relaxation.

ROADS IN NATIONAL FORESTS

Government Has Appropriated \$34,542,082 for Building Highways and Trails.

A total of \$34,542,082 has been appropriated by the government to the states for roads and trails within or adjacent to the national forests. Total expenditures of federal and co-operative funds amounting to \$22,218,724 have already been disbursed. To date, 4,786 miles of roads and 6,711 miles of trail have been constructed and 8,744 miles of road and trail have been repaired and improved, says the forest service, United States Department of Agriculture.

GOOD ROADS BUILT IN 1922

Total of 28,000 Miles Constructed Last Year—Half of It With Federal Aid.

A total of 28,000 miles of good roads was built in the United States last year, or a distance equal to ten times the width of the country. Half of this mileage has been built by the state governments in conjunction with federal aid. The remaining 14,000 miles were constructed independently of federal assistance.

Pay for Service Rendered. If the public surfaces a road and saves the owner of the rolling stock a large percentage of the cost of operating his car, the owner should be required to pay back a fair share of the savings. This should not be called a tax, it would be a charge for service rendered.

Concrete Paving Prices. Concrete paving prices during 1922 have been averaging on contracts for 125 miles of 18-foot pavement, approximately \$26,400 a mile.

FROM GENERATION TO GENERATION

Mothers Advise Their Daughters to Rely upon Lydia E. Pinkham's Vegetable Compound to Keep Them in Health

A Mother's Advice Prevents Operation

Corona, N. Y.—"I had a terrible pain in my left side and had to go to bed every so often. Doctors had told me I must be operated on, but I do not believe in the knife and would rather suffer than go through it. My mother also did not believe in it and she made me take Lydia E. Pinkham's Vegetable Compound because it had helped her. It has also helped me for I am better and able to do all my work. I recommend your medicine and give you permission to use my letter as a testimonial."—Mrs. J. BUSCH, JR., 11 S. Railroad Avenue, Corona, N. Y.

A Sickly Child

Mahoningtown, Pa.—"I would like to say a few words about Lydia E. Pinkham's Vegetable Compound. About a year ago I thought it would be necessary for me to take my daughter out of school. She was losing weight, was nervous, and when she would come home from school she would drop into a chair and cry, and say, 'Mamma, I don't believe I can go to school another day!' I

gave her Lydia E. Pinkham's Vegetable Compound and now she is a healthy, happy, hearty, strong girl and weighs 120 pounds. She has no difficulty in doing her 'gym' work, and she works at home every night and morning, too. I am a mother who can certainly praise your medicine, and if it will be of any benefit you may use this letter as a reference."—Mrs. GEORGE E. WHITAKER, 621 W. Madison Ave., Mahoningtown, Pa.

Every girl wants to be healthy and strong, and every mother wants her daughter to do well in school and to enjoy herself at all times.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for young girls just entering womanhood. Mothers may depend upon it. Remember it is prepared from roots and herbs, contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they will work in a healthy and normal manner.

For nearly fifty years it has been used by women of all ages, and these women know its great value. Let it help your daughter and yourself.

Saved my baby

Zolter Springs, Fla. March 5, 1920

Anglo-American Drug Co., 215 Fulton St., New York.

Dear Sirs:

I am using Mrs. Winslow's Syrup. It saved my baby from dying of colic, which she had for three months. Some one advised me to get Mrs. Winslow's Syrup and I did.

Yours truly,
(Name on request)

Colic is quickly overcome by this pleasant, satisfactory remedy, which relieves diarrhoea, flatulency and constipation, keeping baby healthy and happy. Non-narcotic, non-alcoholic.

Oyster 80 Years Old.

An oyster eighty years old has been taken from Delaware bay, it is reported. Scientific investigators agree and assert that the age of an oyster is indicated by the ridges or waterlines on its shell, just as the age of a tree is indicated by the annual rings that form on its trunk.

A ridge appears on an oyster every year, according to these savants, up to the fortieth year. After that the shell takes on one only every ten years. This venerable Delaware oyster had 44 ridges; hence it was eighty years old.

Don't Forget Cuticura Talcum

When adding to your toilet requisites. An exquisite face, skin, baby and dusting powder and perfume, rendering other perfumes superfluous. You may rely on it because one of the Cuticura Trio (Soap, Ointment and Talcum), 25c each everywhere.—Advertisement.

Not That?

We want our friends to think about us, but not to reflect on us.—Boston Transcript.

Dr. Peary's "Dead Shot" is powerful but safe. One dose is enough to expel Worms or Tapeworm. No castor oil necessary. A.S.V.

A woman doesn't really have faith in a man until other people lose it.

FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the treatment of freckles is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double-strength Othine; it is this that is sold on the money-back guarantee.

An Up-to-Date Young Fellow

Two high-school girls, short-skirted, bob-haired, bright-eyed and talkative, sat in a downtown motion picture theater while on the screen before them a story of love was unfolded. The central figure was a man whose chief distinction, outside his motion picture success, is that of a certain brand of trousers which once were named for him.

One girl sighed. She turned to her companion and whispered: "Oh, Neil, wouldn't you just love to hate a man like that?"—Indianapolis News.

He is a wise man who wastes no energy on pursuits for which he is not fitted.—Gladstone.

IF SICK, BILIOUS! START YOUR LIVER

Don't Take Calomel! "Dodson's Liver Tone" Acts Better and Doesn't Gripe, Salivate or Make You Sick—Don't Lose a Day's Work—Read Guarantee!

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.

Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated, or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson Liver Tone tonight.

Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.
