The steady, hollow bellow of flying sand went on It flew so thickly that enough ches' down under the shelving rock to weight the blankers and almost bury the men. They were frequently compelled to shake off the sand to keep from being borne to the ground. And it was no essary to keep digging out the pocks. They lost the count of time. They dared not sleep, for that would have meant being buried alive.

The storm finally blew itself out. It

left the prospectors heavy and stupid for want of sleep. Their burros had wandered away, or had been buried in the sand. Far as eye could reach the desert had marvelously changed; dones. Away to the north rose the peak that was their only guiding mark. They headed toward it, carrying a showl and part of their packs. At noon the peak vanished in the shinmering giare of the desert. The prospectors pushed on, guided by the sun. In every wash they tried for water. With the forked peach branch in his bonds Warren always succeeded in locating water. They dug, but it lay too deep. At length, spent and sore, they fell and slept through that night and part of the next day. Then they succeeded in getting water, and queteled their thirst, and filled the canteens, and cooked a meal.

The burning day found them in an interminably wide plain, where there was no shelter from the flerce sun. Mountain peaks loomed on all sides, some near, others distant; and one. a blue spur, splitting the glaring sky far to the north, Cameron thought he reconsized as a landmark. The ascent toward it was heartbreaking, not in s'empness, but in its league-and-leaguelong monotonous rise. Cameron knew there was only one hope-to make the water hold out and never stop to rest. Warren began to weaken. Often he

Cameron measured the water in his canteen by its weight. Evaporation by heat consumed as much as he drank. During one of the rests, when he had wetted his parched mouth and throat, he found opportunity to pour a little water from his canteen into

At first Cameron had curbed his restless activity to accommodate the pace of his elder comrade. But now he felt that he was losing something of his instinctive and passionate zeal to get out of the desert. The thought of water came to occupy his mind. He began to imagine that his last little store of water did not appreciably diminish. He knew he was not quite right in his mind regarding water; nevertheless, he felt this to be more of fact than fancy, and he began to

When next they rested he pretended to be in a kind of stupor; but he covertly watched Werren. The man apheared far gone, yet he had cunning. He cautiously took up Cameron's canteen and poured water into it from

little water left into Warren's canteen. He threw his own away. Soon afterward Warren discovered

the loss. "Where's your canteen?" he asked.

"The heat was getting my water, so I drank what was left."

"My son!" said Warren. The day opened for them in a red and green hell of rock and cactus. Like a flame the sun scorched and peeled their faces. Warren went blind from the glare, and Cameron had to lead him. At last Warren plunged down, exhausted, in the shade

of a ledge.

Cameron rested and waited, hopeless, with not, weary eyes gazing down from their height where he sat. Movement on the part of Warren attracted his attention. Evidently the old prospector had recovered his sight and some of his strength. For he had arisen, and now began to walk along the arroyo bed with his forked peach branch held before him. He had clung to that precious bit of wood. Warren, however, stepped in a deep pit, and, cutting his canteen in half, began to use one side of it as a scoop. He scooped out a wide hollow, so wide that Cameron was certain he had gone crazy. Cameron gently urged him to stop, and then forcibly tried to make him. But these efforts were futile. Warren worked with slow, ceaseless, methodical movement. He toiled for what seemed hours. Cameron, seeing the darkening, dampening sand, realized a wonderful possibility of water. and he plunged into the pit with the other half of the canteen. Then both men toiled, round and round the wide hole, down deeper and deeper. The sand grew moist, then wet. At the bottom of the deep pit the sand coarsened, gave place to gravel. Finally water welled in, a stronger volume than Cameron ever remembered finding on the desert.

The finding of water revived Cameron's flagging hopes. But they were short-lived. Warren had spent himself utterly.

"I'm done. Don't linger," he whispered. "My son, go-go."

Then he fell. Cameron dragged him out of the sand pit to a sheltered place under the ledge. While sitting it was now a ripiding sea of sand beside the failing man Cameron discovered painted images on the wall. Often in the desert he had found these evidences of a prehistoric people. Then, from long habit, he picked up a piece of rock and examined it. Its weight made him closely scrutinize it. The color was a peculiar black. He scraped through the black rust, to find a piece of gold. Around him lay scattered heaps of black pebbles and bits of black, weathered rock and

pieces of broken ledge, and they showed gold.

"Warren! Look! See it! Feel it!

But Warren was too blind to see. "Go-go!" he whispered.

Cameron gazed down the gray reaches of that forlorn valley, and something within him that was neither intelligence nor emotion-something inscrutably strange-impelled

him to promise. Then Cameron built up stone manuments to mark his gold strike. That done, he tarried beside the unconscious Warren. Moments passedgrew into hours. Cameron still had strength left to make an effort to get out of the desert. But that same inscrutable something which had ordered his strange, involuntary promise to Warren held him beside his fallen comrade. As the long hours wore on he felt creep over him the comfortthirst, concealing it, each giving his ing sense that he need not forever water to the other, and the sacrifice fight sleep. Absolute silence claimed alrymen strutting in and out. the desert. It was mute. woman's face. It was there in the white moonlit shadows; it drifted in the darkness beyond; it softened, changed to that of a young girl, sweet, with the same dark, haunting eyes of her mother. Cameron prayed to that nameless thing within him, the spirit of something deep and mystical as life. He prayed for mercy to a woman-for happiness to her child. Both mother and daughter were close to him then. Time and distance were annihilated. He had faith-he saw into the future. The fateful threads of the past, so inextricably woven with his error, wound out their tragic length here in this forlorn desert.

Cameron then took a little tin box from his pocket, and, opening it, removed a folded certificate. He had kept a pen, and now he wrote something upon the paper, and in lieu of ink he wrote with blood. The moon afforded him enough light to see; and having replaced the paper, he laid the little box upon a shelf of rock. It would remain there unaffected by dust, moisture, heat, time. How long had those painted images been there clear and sharp on the dry stone walls? Years would pass. Cameron seemed to see them, too; and likewise destiny leading a child down into this forlorn waste, where she would find love and fortune, and the grave of her

Cameron covered the dark, still face of his comrade from the light of the waning moon.

That action was the severing of his hold on realities. They fell away from him in final separation. Vaguely, dreamily he seemed to behold his soul. Night merged into gray day; and night came again, weird and dark. Then up out of the vast void of the desert, from the silence and illimitableness, trooped his phantoms of peace. Majestically they formed around him, marshaling and mustering in ceremonious state, and moved to lay upon him their passionless serenity.

CHAPTER 1

Old Friends.

Richard Gale reflected that his so journ in the West had been what his disgusted father had predictedidling here and dreaming there, with no objective point or purpose.

It was reflection such as this, only more serious and perhaps somewhat desperate, that had brought Gale down to the border. For some time the newspapers had been printing news of the Mexican revolution, guerrilla warfare, United States cavalry patrolling the international line, American cowboys fighting with the rebels. and wild stories of hold raiders and bandits. Regarding these rumors Gale was skeptical. But as opportunity. and adventure, too, had apparently given him a wide berth in Montana, Wyoming, Colorado, he had struck southwest for the Arizona border. where he hoped to see some stirring

It was after dark one evening in early October when Richard arrived in Casita. There was a jostling, jabbering, sombreroed crowd of Mexicans around the railroad station. He felt as if he were in a foreign country. After a while he saw several men of his nationality, one of whom he engaged to carry his luggage to a hotel. Of the many people encountered by Gale most were Mexicans. His guide explained that the smaller half of Casita lay in Arizona, the other half in Mexico, and of several thousand inhabitarts the majority belonged on the southern side of the street, which was the boundary line. He also said that rebels had entered the town that day, causing a good deal of ex-

Gale was almost at the end of his financial resources, which fact occasioned him to turn away from a pretentious hotel and ask his guide for a cheaper lodging house. When this was found, a sight of the loungers in the office, and also a desire for comfort, persuaded Gale to change his traveling clothes for rough outing garb and boots.

"Well, I'm almost broke," he soliloquized, thoughtfully. "The governor said I wouldn't make any money. He's right-so far. And he said I'd be coming home beaten. There he's wrong. I've got a hunch that something 'll happen to me in this Greaser

He went out into the wide, whitewashed, high-ceiled corridor, and from that into an immense room which, but for pool tables, bar and benches, would have been like a courtyard. Bare-legged, sandal-footed Mexicans in white rubbed shoulders with Mexicans mantled in black and There were black-bearded. coarse-visaged Americans, some gambling round the little tables, others drinking. sharp-featured bronzed faces and plercing eyes, the tall, slender, loosely jointed bodies, the quiet, easy, reckless air that seemed to be a part of the men-these things would plainly have stamped them as cowboys without the buckled sombreros, the colored scarfs the high-topped, highheeled boots with great silver-roweled

He satisfied his hunger in a restaurant adjoining, and as he stepped back into the saloon a man wearing a military cape jostled him. Apologies from both were instant. Gale was moving on when the other stopped short as if startled, and, leaning forward, exclaimed:

"Dick Gale? If this isn't great! Don't you know me?"

"I've heard your voice somewhere," replied Gale. "Maybe I'll recognize you if you came out from under that

For answer the man, suddenly manifesting thought of himself, hurriedly drew Gale into the restaurant, where he thrust back his hat to disclose a hapdsome, sunburned face.

"George Thorne! So help me-" "'S-s-ssh. You needn't yell," interrupted the other, as he met Gale's outstretched hand. There was a close, hard, straining grip. "I must not be recognized here. There are reasons. I'll explain in a minute. Say, but it's fine to see you! Five years, Dick, five years since I saw you run down University field and spread-eagle the whole Wisconsin football team."

"Don't recollect that," replied Dick, laughing. "George, I'll bet you I'm gladder to see you than you are to see me. It seems so long. You went into the army, didn't you?" "I did. I'm here now with the

Ninth cavalry. But-never mind me. What're you doing way down here?" "On the square, George, I don't know any more why I'm here thanthan you know."

"Well, that beats me!" ejaculated Thorne, sitting back in his chair, amaze and concern in his expression. "What the devil's wrong? Your old man's got too much money for you ever to be up against it. Dick, you couldn't have gone to the bad?"

A tide of emotion surged over Gale. How good it was to meet a friendsomeone to whom to talk! He had never appreciated his loneliness until that moment

"George, how I ever drifted down here I don't know. I didn't exactly quarrel with the governor. Butd-n it. Dad hurt me-shamed me. and I dug out for the West. It was this way. After leaving college I tried to please him by tackling one thing after another that he set me to do. On the square, I had no head for business. I made a mess of everything. The governor got sore. When I quit-when I told him straight out that I was going west to fare for myself, why, it wouldn't have been so tough if he hadn't laughed at me. He said I couldn't earn a dollar-that I'd starve out west, and couldn't get back home unless I sent to him for money. He said he didn't believe I could fight-could really make a fight for anything under the sun Oh-he-he shot it into me all right."

Dick dropped his head upon his hands, somewhat, ashamed of the smarting dimness in his eyes,

"Fight!" cried Thorne, "What's ailing him? Didn't they call you Biff Gale in college? Dick, you were one of the best men Stagg ever developed."

"The governor didn't count football," said Dick, "He didn't mean that kind of a fight. When I left home I don't think I had an idea what was wrong of me. But, George, I think I know now. I was a rich man's sonspoiled, dependent, absolutely ignorant of the value of money. I haven't yet discovered any earning capacity in me. I seem to be unable to do anything with my hands. That's the trouble. But I'm at the end of my tether now. And I'm going to punch cattle or be a miner, or do some real stunt-like joining the rebels." "Aha! I thought you'd spring that

last one on me," declared Thorne, wagging his head. "Well, you just forget it. Say, old boy, there's something doing in Mexico. The United States in general doesn't realize it. But across that line there are crazy revolutionists, Ill-paid soldiers, guerrilla leaders, raiders, robbers, outlaws, bandits galore, starving peons by the thousand, girls and women in terror. Mexico is like some of her volcanoesready to erupt fire and hell! Don't make the awful mistake of joining the rebel forces. If you didn't starve or get shot in ambush, or die of thirst. some Greaser would knife you in the back for your belt buckle or boots. There are a good many Americans with the rebels eastward toward Agua Prieta and Juarez. Orozco is operating in Chihuahua, and I guess he has some idea of warfare. But this is Sonora, a mountainous desert, the home of the slave and the Yaqui. There's unorganized revolt everywhere. We're patrolling the boundary line. We're making a grand bluff. I could tell you of a dozen instances where cavalry should have pursued raiders on the other side of the line. But we won't do it. The officers are a grouchy lot these days. You see, of course, what significance would attach to United States cavalry going into Mexican territory. There would simply be hell. the job. We're all sore. It's like sit-

ing the line. Yet we don't fight. My commission expires soon. I'll be discharged in three months. You can bet I'm glad for more reasons than I've mentioned."

Thorne was evidently laboring under strong, suppressed excitement, His face showed pale under the tan, and his eyes gleamed with a dark fire. He had seated himself at a table near one of the doorlike windows leading into the street, and every little while he would glance sharply out. Also he kept consulting his watch.

These details gradually grew upon Gale as Thorne talked.

"George, it strikes me that you're upset," said Dick, presently. "I seem to remember you as a cool-headed fellow whom nothing could disturb. Has the army changed you?"

Thorne laughed. It was a laugh with a strange, high note. It was reckless-it hinted of exaltation. He peered out one window, then another. His actions were rapid. Returning to the table, he put his hands upon it and leaned over to look closely into Gale's face.

"I'm away from camp without leave," he said.

"Isn't that a serious offense?" asked Dick.

"Serious? For me, if I'm discovered, it means ruin. There are rebels

"Serious? For Me, If I'm Discovered, It Means Ruin-"

in town. Any moment we might have trouble. I ought to be ready for duty -within call. If I'm discovered it means arrest. That means delaythe failure of my plans-ruin."

Thorne bent over closer with his

dark eyes searchingly bright. "What would you say, Dick Gale, if I told you that you're the one man I'd rather have come along than any other at this crisis of my life?"

The earnest gaze, the passionate voice with its deep tremor drew Dick upright, thrilling and eager, conscious of strange, unfamiliar impetuosity. "Thorne, I should say I was glad to

be the fellow," replied Dick. Their hands locked for the moment,

and they sat down again with heads close over the table.

"Listen," began Thorne, in low, swift whisper, "a few days, a week ago-it seems like a year!-I was of some assistance to refugees fleeing from Mexico into the States. They were all women, and one of them was dressed as a nun. Quite by accident I saw her face. It was that of a beautiful girl. I observed she kept aloof from the others. I suspected a disguise, and, when opportunity afforded, spoke to her, offered my services. She replied to my poor efforts at Spanish in fluent English. She had fled in terror from her home, some place down in Sinaloa. Rebels are active there. Her father was captured and held for ransom. When the ransom was paid the rebels killed him. The leader of these rebels was a bandit named Rojas. Rojas saw the daughter, made off with her. But she contrived to bribe her guards, and escaped almost immediately before any harm befell her. ## "PROUD TO SAY CARDUI DID IT"

Nashville Lady Attributes Good Health to Cardui-Says She Was Suffering Agony When She Began to Take It.

Nashville, Tenn.-Mrs. Dudley B. Stuart, 519 Ash Street, this city, recently made the following statement: "Before I started taking Cardui, I was sick in bed. I weighed 90 pounds.

"My mother came to see me and told me to get Cardui. My husband went to town and brought home two bottles which I took. At once I began to improve, although up to that time I had taken medicine, but it had not helped me at all. From the first dose of Cardui my appetite began to come back.

"I had been suffering from female trouble...was so weak and in such a run-down condition. That was two years ago....I kept on taking Cardui

"My appetite is good. I certainly owe a lot to this fine medicine. Nothing did me any good until I began to take it. It made me gain 48 pounds. I don't weigh quite so much now on account of the baby nursing, but I feel perfectly well. I am very grateful for what it has done for me, for I was suffering agony when I began to take it."

Writing later of her experience in the use of Cardui, Mrs. Stuart said: "My health is better now than ever and am proud to say Cardui did it."

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain-the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited to those who are in need of it.

A prominent druggist says, "Take for and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify.
