FOUND THE BEST**

**Black-Draught Gives Satisfaction, Says an Indiana Man Who Has Used It in His Family for a Good Many Years.**

Hamlet Grove, Ind.—"I can recommend Black-Draught very highly for the benefit it has been to my own family," said Mr. Joe Craft, of this town. "In all my years of married life, trying many liver medicines, I have never found one that gave the satisfaction that Black-Draught has. "I use it for indigestion and when I have colic. My wife had severe headaches from torpid liver, or indigestion, so we use it for that. It cleanses the liver and is fine to carry off cold. I use it after meals except when I have a heavy cold or bitter taste in the mouth and a drowsy, tired feeling. When I take a good, tired dose and soon feel all right. "I have used Black-Draught for a good many years and am satisfied enough to keep it up. I have recommended it to others, and have had them tell me that it was very good and they would keep it as a family medicine."

In first-aid home treatment of common colic, Theodor's Black-Draught has been found very helpful, when taken as an adjunct medicine to regulate the bowels and help stimulate the liver to drive poisons out of the system.

Black-Draught is a purely vegetable herb remedy. It contains no calomel or other mineral drugs. It acts on the liver, stomach and bowels, in a simple, natural way and without bad after-effects.

Sold by all druggists. Try it. 25c.

**OUR COMIC SECTION**

**Cloudy, Unsettled and Threatening**

**NO DYE**  
To restore gray or faded hair to original color, don't use a dye—it's dangerous—Get a bottle of Q-Ban Hair Color Restorer—Scale as water—apply it and watch results. At all good druggists, 75c, or direct from HESSIG-ELLIS, Chemists, Memphis, Tenn.

**Roman Remains in Britain.**  
Excavating for the foundation of a new factory to be erected at Keynsham, near Bristol, England, workmen recently unearthed Roman remains. The Daily Chronicle of London reports the discovery of coffins containing skeletons, a Roman needle about six inches long, a spoon and a brooch. The brooch is believed to have put the finishing touch upon the toga of a Roman gallant.

**WHY DRUGGISTS RECOMMEND SWAMP-ROOT**

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Advertisement.

**98 OUT OF EVERY 100 WOMEN BENEFITED**

**An Absolutely Reliable Statement Important to Every Woman**

**Remarkable Results Shown by a Nation Wide Canvass of Women Purchasers of Lydia E. Pinkham's Vegetable Compound. 50,000 Women Answer**

For some time a circular has been enclosed with each bottle of our medicine bearing this question: "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

Of course we know that our medicine does benefit the large majority of women who take it. But that only two out of 100 received no benefit is most astonishing.

Replies, to date, have been received from over 50,000 women answering that question.

It only goes to prove, however, that a medicine specialized for certain definite ailments—not a cure all—one that is made by the most scientific process; not from drugs, but from a combination of nature's roots and herbs, can and does do more good than hastily prepared prescriptions.

98 per cent of which say YES. That means that 98 out of every 100 women who take the medicine for the ailments for which it is recommended are benefited by it.

You see, we have been making, improving and refining this medicine for over 50 years until it is so perfect and so well adapted to women's needs that it actually has the virtue to benefit 98 out of every 100 women who take it.

This is a most remarkable record of efficiency. We doubt if any other medicine in the world equals it.

Its reliability and recognized efficiency has gained for it a sale in almost every country in the world—leading all others.

Think of it—only two women out of 100 received no benefit—98 successes out of a possible 100.

Did you ever hear anything like it? We must admit that we, ourselves, are astonished.

Such evidence should induce every woman suffering from any ailment peculiar to her sex to try Lydia E. Pinkham's Vegetable Compound and see if she can't be one of the 98. The Lydia E. Pinkham Medicine Co., Lynn, Mass.

**Chinese Take to Frozen Meat.**  
Argentina is giving Australia a run for her money in supplying China and the Far East with frozen meat. While the Chinese have in the past preferred the taste and smell of fresh-killed meat, they are gradually being educated to eat the frozen variety, says Consul General Thomas Sammons, Melbourne, in a report just received by the Department of Commerce, and there is a general belief that they will ultimately become accustomed to using frozen meat freely. On the other hand, Australian butter is selling well in China and Japan, while canned fruits and jams from the island continent are being taken in increasing quantities.

**Two Cheerful Liars.**  
"When I was in India," said the club bore, "I saw a tiger come down to the water where some women were washing clothes. It was a very fierce tiger, but one woman, with great presence of mind, splashed some water in its face—and it slunk away."  
"Gentlemen," said the man in an armchair, "I can vouch for the truth of this story. Some minutes after the incident occurred I was coming down to the water. I met this tiger and, as is my habit, stroked its whiskers. Gentlemen, those whiskers were wet."

**Another Early One.**  
The wild ginger has large, broad heart-shaped leaves which are most conspicuous objects on the rocky hillsides in early April, says Nature Magazine. Their thick stems rise some six or ten inches above the ground, but the dull, purplish, cup-shaped blossoms must be searched for at the roots, well hidden among the dead leaves.

**Snappy Comeback.**  
May was visiting grandmother's home, and ventured into the unused parlor.  
Much interested in a piece of statuary on the mantel, she picked it up to admire it more closely and was admonished by her young aunt to "put it back just where you found it."  
She promptly replied, "I can, auntie, for the dust shows just where it was."

Alabastine comes in all standard colors and these intermix to form countless others so that your decorating taste may be accurately followed.
