### ABOUT THE GLENVILLE SCHOOL

Glenville, N. C., June 5.—I want to congratulate the one who wrote the letter from Glenville and the many truths they told concerning the school here, in answer to the ones who wrote from Cedar Creek.

I visited the school most every week of our last session and know that we had an excellent school. We are expecting all the good citizens out on the 12th of June to vote for the special school tax. So come along and let's carry the election, and let's have another good school.

Chairman of the School Committee.

### CEDAR CREEK

Dear Editor:—Will you please allow me space again in your paper for a few words, as I feel sure that your readers might not understand our situation just as it is.

Probably I would agree with the correspondent from Glenville, who signs her name "Anothe Mother", that answered my letter last week if I lived in sight of the Glenville school and my children did not have to ride in the truck or even had a close relative who do. And probably she would agree with me if she had three little children who have to go 3 miles over a rough and narrow road in a truck with the front spring broken and a block set under the middle of the spring and on the axle to hold the spring up. This truck was operated in this condition several days.

The truck was operated under 4 different drivers during the 6 months and run in the same rout during this time.

Every one who has ever driven a car or truck would say that this is not a safe way to school your children.

I will admit the truck run into Glenville some time during the day most every school day, but there were several days it did not come further than half way and some times not that far and meet some of the children, who would walk to school instead of being late. We could not depend upon the truck enough to start our little children on walking probably to walk all the way to school and back. I will admit the little one room school house is a make-shift, but the Ford truck and as to say a cart way road are still more a worse make-shift. I had rather my children were in a one room school house than out wading the mud pushing a truck up and down the roads while children other places are in the school rooms.

I want each reader of this paper to understand that I don't object to good schools or taxes for such schools, what ever, and I want to see a good school in every district especially in the mountain parts of Jackson County where we have got no good roads; but if we have to depend upon a Ford truck to get them to school I am afraid they never will reach

the grades that are not taught in the one room school house.

The Mother from Glenville said I ought to arrange with the school authorities for my children to walk. My husband went before the Board of Education and they fixed away for them to walk they gave us a Ford truck.

I want to say to the readers of the Journal there was nothing misrepresented in my first letter as we know when the shoe fits too tight it always hurts.

I would be glad if the correspondent from Glenville would sign their name the next time they come.

"MAN WITHOUT A COUNTRY" IS COMING JUNE 13th.

Hanson Theater, Sylva, N. C.

An all star-cast will be seen in the American Legion's Film "The Man Without a Country" when it is shown here on June 13th. The remarkable photoplay will be presented under the auspices of the William E. Dillard Post of the American Legion for the benefit of sick, disabled and needy exservice men and for the promotion of "Americanism".

"The Man Without a Country," an eight-reel picture, combines with the immortal story of this name, the romantic points in the nation's history from Post Revolutionary days to the beginning of the World War. It is not a war picture, rather a great love story of adventure and romance made piquant with dashes of mystery.

There is portrayed in the screen version, every character of love from the love of a man for a maid to the passionate love of country, said by philosophers to be the greatest of all. The picture is said to be too big, too great to attempt a complete description of it. Every critic who has seen the picture has been lavish in praise. One of the New York reviewers said: "No word thus far spoken, no picture thus far shown, contains so much inspiration for Americans."

The picture is being exhibited throughout the country under sponsorship of the American Legion. Every American is called upon to
