Locate Hundred Thousand Dollar Plant Here

POLE TREATING PLANT ASSURED

The Carolina Pole Company has located a \$100,000 pole-treating plant in Sylva. Negotiations have just been completed for land, with 1500 feet frontage on the Cullowhee Road, and on the Tuckasee and Southeastern Railway, just at the corporate limits of the town, for the location of the plant, and the erection of the buildings will begin within a very short time.

The Carolina Pole Company, the officers of which are I. H. Powell, president, C. W. Denning, Vice-president, J. L. Dillard, Secretary-Treasurer, and J. T. Powell, has a long-time contract with the Western Electric Company for the entire output of the plant. The corporation was organized two or three years ago, and has been dealing in poles; but the plant which is to be installed within the next few weeks, is for the treating of poles, in vats of creosote, to prevent decay, and is a long step in developing the chestnut pole industry in Western North Carolina.

The capacity of the plant will be 30,000 poles or three car loads daily, and there will be employed in the plant and on the yards, at Sylva not less than 60 men. The annual payroll, including purchases of poles, throughout Western North Carolina, is expected to exceed a quarter of a million dollars annually.

The Cullowhee Normal and Industrial School trustees have just completed negotiations whereby the school has acquired the valuable property of David Rogers, known as the "Town House Field", at Cullowhee, to be used for the purposes of the school.

The records as filed in the office of the Register of Deeds show a total consideration of \$33,500. \$30,000 having been the purchase price of the "Town House Field" and the other property, of Mr. Rogers, with the exception of one residence, on Faculty Ave., which was bought for \$3,500.
