Ford Trucks Are Bought On Performance Records

If you were to ask a hundred—or a thousand—Ford truck owners why they use Ford trucks, in preference to all others, they would likely say, "Because the Ford stands up."

They know that under the endless grind of daily service the Ford stays on the job month in and month out, with very little mechanical care, and with practically no expense for repairs or replacements.

They would emphasize the work this truck does, not its initial cost.

Ford Trucks can be bought through the Ford Weekly Purchase Plan.
