

# Jackson County Journal

DAN TOMPKINS, Editor.

Published weekly by the

JACKSON COUNTY JOURNAL COMPANY

Entered as second class matter at the Postoffice at Sylva, N. C.

FRIDAY JUNE 20, 1924.

McLean's majority was only 75,624.

The road to political accomplishment is strewn with tax.

The campaign, managed right, will spell it Teapot Doom.

From a point of personal hazard, we had rather serve a hitch in the navy at war than in destructive times of peace.

In the navy peace hath its victims no less renowned than war.

Many of these presidential beams turn out to be just soap bubbles.

Carter Glass as nominee for president would reflect credit upon the Democratic party.

Some team—Coolidge to keep his mouth shut and "Hell 'n Maria" Dawes to cuss 'em out.

Mexico might intervene to protect local and foreign interests from banditry in the United States.

Anti-American agitation in Japan is terrible; but anti-everybody talk in America is the cat's meow.

Not the least of the troubles of the republican party are the three Johnsons, III., Magnus, and Henry Link.

If the delegates to the New York convention seize their opportunity, the road to democratic success is well oiled.

Well, anyway, Mr. Bailey can console himself with having received small majorities in 15 of the one hundred counties.

One trouble with our political system is that many voters consider a primary election as being of secondary importance.

"Dan Tompkins who was second in the primary for state senator of this district talks like a man in his paper and will not ask a second race."—Waynesville Mountaineer-Courier.

As soon as the New York convention is over, the chief occupation of the Democratic politicians will be to make it hot for Coolidge.

The way the delegates are going round and round, it looks as if the democratic presidential contest is about to develop into a mill race.

## JOURNAL COVERS NATIONAL CONVENTIONS.

A few weeks ago we announced that the national conventions of the two major political parties would be thoroughly covered for the Journal by Mr. Edward W. Pickard, one of the best known political writers of the country and Washington representative of the Chicago Daily News. Mr. Pickard's story of the republican convention appears in this issue. Read it, it will interest you. He will also cover the Democratic convention, giving the main facts and interesting side-lights on the big show at Madison Square Garden.

## A \$360,000.00 HOTEL FOR HENDERSONVILLE

The enterprising little city of Hendersonville is about to add to its already well supplied hotel facilities a modern hotel costing some \$300,000.00. Hendersonville is no better town than Sylva. Judging from intimations in Hendersonville papers, the town has no much petty jealousy among its citizens to contend with and to hamper the general growth and prosperity of the town as has Sylva. In many respects the opportunities of our town are ahead of Hendersonville's; and yet the Henderson county town, with a number of hotels already, can erect one costing \$300,000.00, while Sylva, badly in need of hotel facilities, can not get her citizens together on one thing long enough to even lay plans for a new hotel.

It does not speak well for Sylva, where the one great need is a modern hotel; but it is truth, naked truth, never-the-less, no matter how little we may relish it.

Senator LaFollette, is a republican; but, not liking Mr. Coolidge's republican party, is suspected of organizing him a republican party of his own.

THE WINCHESTER STORE

It is our constant endeavor to supply this county and vicinity with supplies of the best quality at moderate prices. The key to our stock is the high grade line of Winchester farm and garden tools.

## BETTER FARM AND GARDEN TOOLS

The new Winchester farm and garden tools are finer than ever had in our store. When you pick up these tools you will sense that nice "hang" which is proof of its improved design. It is the same good feeling that you already know in a Winchester hammer or Winchester axe.

Winchester Garden Hoe—Standard size. Forged from one piece of steel. Second growth Northern white oak handles carefully shaped and hung to give proper balance. Will give long service.

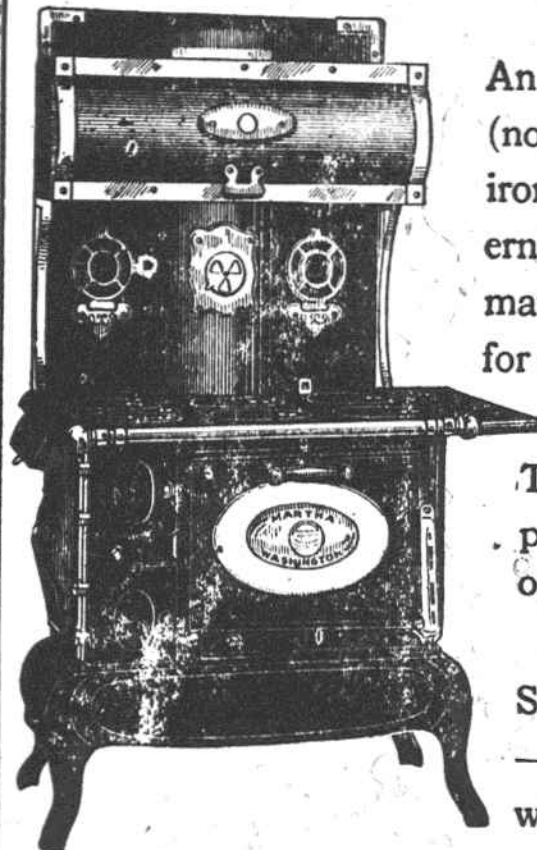

Winchester Long Handle Spade—Forged steel blade, hot polished. High grade selected Northern ash handle. Entirely handmade.
