

MARKETING

We are going into the year 1925 with the intention of handing everything the farmer has to offer for sale, which we can possibly find a market for. We fully realize the fact that the greatest handicap of this section is the poor market condition, and to overcome this handicap it is necessary for the farmers and the merchant to cooperate in every possible way. In view of this fact, we ask

that the farmer and, in fact everyone who has any product of the farm for sale to cooperate with us in our undertaking to improve market conditions. You can help us greatly by letting us have your inquiry when in the buying or selling market.

We offer the following prices for next week for all items listed below:
