Its libate to come up at any mant, However, Governor McLean not at all enamored of the bond et on a very extensive scale, at the resent time. He does not believe a ingle dollar not absolutely mecesary for the public good should be ppropriated by the present Genera! mife wherever a cut in amounts remested can be made without "doing iolence to the surger. In his second message to the Genral Assembly on Friday the Governor reiterated his determination to revise the fiscal policy of the State and invited cooperation of the members in getting proposed new machinerv into action. He asks for a law providing an executive budget system which would provide continuous supervision of all the institutions and agencies of the State, to the end that the appropriations made by th General assembly may be kept with in bounds and expended as directed. Under the budget system, covering the period July 1st to June 30th, al revenues actually collected during that period would be applicable to that fiscal year, and all appropriations and other expenditures actual ly disbursed during the same period would be applicable to that period only. The Governor told the legisla tors that he would prepare and subnut to them a bill embodying the provisions which he feels that the budget system outlined in his massage should contain, and its a safe bet that he will get exactly what he wants in this respect. Hardly any body disputes the fact that the patient 15 in a condition to respond to heroid treatment and Mr. McLean's prescuption seems to fit the case. The Governor places himself on record as squarely opposed to the issue of more than \$25,600,000 bonds for all purposes this year. He sugrests \$20,000,000 for roads \$3,600, 000 or permanent improvements at the State institutions, and \$2,000,000 to finance the World War veteran's Loan Fund approved by the voters at the general election in November. In his message he declared himself unequivocally in favor of continuing the construction of highways until the entire system is completed as originally planned, but frankly adof the State could not stand for additional long-term construction bonds

COMMISSIONERS CALL STOCK LAW ELECTION

Acting upon a petition of a number of citizens of Hamburg township, the county commissioners have ordered a stock law election to be held in Hamburg in March, at which time

the matter will be voted upon by the people of that township.

The question has been before the Hamburg people for a long time, and has more than nee been brought before hte county commissioners. Theen is a division among the people re-

garding it, some of those living close in to Glenville favoring the measure, while some of the others, living fur ther back, where their is still con siderable range, unfenced, opposin it.
