It is good citizenship
to be prosperous

THE South has just completed a prosperous year. Many Southern enterprises have contributed to and shared in this prosperity.

Prosperity is a give and take proposition. It is prosperous industry that gives consumers better products; that gives regular employment and pays good wages; that distributes earnings in dividends which add to the purchasing power of the consuming public; that pays a large share of the cost of carrying on the business of our local, state and national governments.

Prosperous industry, prosperous agriculture and prosperous railroads make for good citizenship.

Southern Railway System also has just completed a successful year both in service rendered and in earnings. The public comment, in the press and elsewhere, on this record has sounded a unanimous judgment that it is to the best interest of the South that the Southern's prosperity continue.

Only a prosperous railroad can render the transportation service needed by the people of a prosperous country.

The South's prosperity has helped education. About \$125,000,000 for the construction of new school buildings has been spent in the last 12 years, in the states served by the Southern Railway System.
