ANOTHER CAR OF DAIRY COWS COMING TO CO. SOON

The car of Jersey cows and heifers that were brought into the county in early December have practically all freshened and are giving good satisfaction. Some of these are giving their owners four dollars worth of butter fat per week, and the heifers are doing their part in proportion.

It is this type of cows that pay well and a half dozen of them will give any farmer an income of around one hundred dollars per month. The best cream market in the South is right at the door of Jackson county carmers. Macon and Clay county farmers are looking to us to cooperate with them in furnishing the cream for the new creamery at Franklin starting in March and April. Most all our farmers have talked the need of a marke for what they can produce for the past few years. Now we have the market at our door for cream and also poultry and hogs . nich go hand n and with dair, ing. What are we going to do with this type of farming which builds up our soil, gives us a living at home and those products which sell for the

most money? It looks as if our best farmers will ake advantage of this opportunity. they have given the County Farm Agentor ders ofr another car of Jersey was to be he wait in within the
