Veteran cars shed their carbon New lubricating oil proves it with Buicks, Packards and others

A the new "Standard" Motor Oil showed

amazing results. When the car was examined be-

fore the test there were heavy accumulations of

carbon on cylinder heads and pistons. The new

"Standard" Motor Oil was then put in the crank-

case and the car run 2,969 miles. Again it was

examined. Most of the carbon had disap-

peared-the slight amount remaining was easily

wiped off with a cloth.

7 Advantages of "Standard" Motor Oil

- 1. Constant lubrication.
- 2. Minimum friction.
  - 3. Less "breaking-down" under load or at high speeds.
- 4. More miles per quart of oil.
- 5. Better hill climbing\_ smoother operation'
- 6. Negligible carbon.
- 7. Actual saving in gasoline

The new oil is a perfect all 'round lubricant, giving a complete piston seal; smoother operation at all speeds; cooler motor; increases in oil mileage of 12% to 40% and in gas mileage of 10% to 20%.

Verify these astounding results with a crankcase full of "Standard" Motor Oil in your own car. You can actually feel the difference.
