

JACKSON CO. JOURNAL

DAY TOMPKINS, Editor

Published Weekly By the JACKSON COUNTY JOURNAL CO.

Entered as second class matter at Sylva, N. C.

93 to 10 in the house!

One thing we yet lack, hard surface on 106, all the way to the South Carolina line.

The semi-monthly road map published by the American Automobile Association shows no road from Sylva to Cashier's Valley. They are almost right at that.

106 must be surfaced from Sylva to the South Carolina line. The people need it. The Cullowhee State Normal, that rapidly growing and useful institution must have it, if it is to exist upon its own merits and all Jackson county suffer every day that it is not completed. And if the Great Smoky Mountains National Park is to be worth the most to the people of this county, and of the Southeast, it must be done.

JUDGE WEBB

It is a pleasure to watch Judge Webb hold court. This kindly, courteous gentleman, this able jurist gets the work of the court accomplished in an efficient manner, without any ado about it. The people of North Carolina have learned to love him and to rely upon justice, and courtesy, and mercy prevailing in the courts over which he presides.

JUDGE GRADY QUILTS

Judge Grady in resigning from the Ku Klux Klan and as Grand Dragon of the Realm of North Carolina, reasserts his devotion to the principles of the Klan; but at the same time castigates Dr. Evans and the "Imperial Family." He declares that they have wandered from the principles of the Klan, and tried to force him to have introduced in the General Assembly of this state certain bills, which Judge Grady thinks are unwise, unconstitutional, unchristian, unamerican, and opposed to the Klan principles of freedom and religious liberty.

The bills which Judge Grady opposes provide, in effect, that it shall be a felony to be a member of the Knights of Columbus or to contract a marriage with a Roman Catholic, agreeing that the children of such marriage shall be raised in that faith.

Judge Grady states that the head of the Invisible Empire wanted these bills introduced; but wanted a shield put up to keep the people from knowing that they were Klan legislation; and that Dr. Evans suggested that Judge Grady induce a member of the

American Legion to introduce at least one of them.

Judge Grady stated that no decent man in North Carolina would do what he had been requested to do, and quit the Klan, making the whole matter public, and at the same time renouncing all connection with the order.

THE PARK BILL PASSES

The General Assembly of North Carolina has done what it was asked to do toward establishing the park in the Great Smoky Mountains. The people of the state, by private subscription have done their part. The matter now rests with Dr. Work, Mr. Gregg, Major Welch and the other gentlemen who have assured our people that they could get the rest of the money.

Undoubtedly these gentlemen know what they are talking about. Nobody questions their veracity or their ability to do what they have pledged. This being true, we take it that the Park is assured.

The survey of the area will begin in the spring and it will then be definitely determined what lands will be included in the 428000 acres that the Federal government must have before the development of the park begins. Following that will begin negotiations with the owners of the land, and if the park commission and the owners cannot agree, condemnation proceedings.

The advocates of the park are hopeful that these things will be accomplished this year, and that it will only be a matter of months before the actual development of the park begins.

Sun is about to lose his place in Shanghai.

Concrete to Cullowhee—Hard surface to the South Carolina line. These must come rapidly.

COAL DEPOSIT IN CALDWELL.

Lenoir, Feb. 17—Coal has been discovered in Caldwell county. A deposit of a good grade of coal was dug into at Granite Falls a few days ago. Discovery was made by Pink Carter while digging a well for E. R. Forest on a lot in the western section of Granite Falls.

At a depth of 45 feet, Mr. Carter ran into a ledge of stone. This ledge is only a few inches thick and was underlain by a ledge of coal. The coal ledge was about three inches thick and then another ledge of rock underlain that. Tuesday newspaper men visited the Forest home, but found the well had been walled up and closed in. Samples of the coal and of stone taken from the ledges above and below the deposit of coal had been saved by Mr. Forest.

The discovery of this deposit of coal at Granite Falls is the first ever found in Caldwell county, according to information available here. No effort was made by Mr. and Mrs. Forest or by Mr. Carter who was digging the well for them, to follow out this ledge of coal and see if larger deposits might be found.

A solid car of soybeans for seed purposes were delivered to farmers at Silver City in Chatham County in early February.

Seventy-six poultry farmers of Davidson County purchased 18 tons of fish meal in January at a saving of \$225.
