DO YOU WANT TO WRITE PIGS TO GREECE. UNCOUTH BOLSHEVIK. A \$4,000 CHEVROLET?

President Coolidge says: "Familiarity with the Scriptures brings culture."

Read the Psalms, Isaiah, Job, the Sermon on the Mount, ten or twenty times and you will write better poetry, prose or advertising copy.

Two are indicted for fraud through the mails, in a "how to get thin" swindle. Fraud is not the worst of such enterprises. Many women, who think they are too fat, ruin their vitality seeking to be thin. The way to "reduce" is by regular sleep, deep breathing, reasonable exercise, moderate wise eating. It is not necessary to be fat or to faint.

New York to Chicago air service is let to the able Coffin-Henderson concern at \$1.24 a pound. A lower bid at \$1.23 was rejected because pilots flying the machines owned stock in the company.

That should be a reason for giving the contract, instead of refusing it. Pilots owning stock in machines would take care of them and the mail. If any law forbids pilots owning stock in a flying company, that law should be changed.

A famous bear named Colonel Broadcaster and fourteen other pedigreed American swine were sent to Greece last week. The mountains that look on Marathon will soon see finer pigs rooting along the beach than they ever saw before.

Poetry is above pigs, but pigs that America sent to Greece will do Greece more good than the poetry that Byron wrote. Greece has won for herself the

freedom that Byron wished her. She couldn't win without foreign help such a pedigreed pig as Broadcaster.

The Bolsheviki are certainly uncouth. They convict three high Russian officials of taking bribes in connection with a big German lumber trust; and what do you suppose happened? The three officials did not employ good lawyers, express righteous indignation and go to Palm Beach or the Riviera. They stayed at home, were sentenced to death, all their property confiscated, and they will really be executed. Russia would be a poor place to steal a naval oil reserve.

Miss Pankhurst has lost interest in votes for women, "because voting women make the same mistakes that men make." They do, of course, being human, and sometimes influenced by men. Nobody expected that votes for women would bring on the millennium overnight. But women voting have made men in office ask themselves, "What do the women want? What do the children need?" That's the important thing about votes for women.

In old whiskey days, as soon as women got the vote, district leaders in the great city sent out the order. "Don't get the boys drunk around election time, or their wives and daughters will vote against you."

Civilization's problem is cheap distribution of life's necessities, giving citizens full value for their dollars. This doesn't mean business men shouldn't make the profit to which they are entitled. It means modern business tends more and more to "low profit, big volume."

The start of milk that a farmer sells for 10 cents, the city mother buys for 25 cents. If General Motors were run on that basis, a Chevrolet would cost \$4,000.

Italy is to be made pure, and boards among other things are to be abolished. Mussolini calls them "marks for solemn hambugs and nests for disease germs."

Alexander the Great shaved his face and made his soldiers do it, that the enemy, fighting with the great sword, might not seize the beard as a handle, to help in cutting off the head. Mussolini objects to beards as nests for germs, another and worse "enemy." Mussolini says he refuses to be assassinated, will live to be ninety, and then retire, leaving instructions for Italy's guidance.

Italians believe in him and no wonder. He believes in himself.
