SECOND LIBERTY LOAN BONDS TO BE PAID OR EXCHANGED

Washington, D. C. May 9—Secretary Mellon has called for payment on November 15, 1927, all outstanding Second Liberty Loan bonds. Interest on these bonds will cease on November 15, 1927. Approximately \$1,700,000,000 of these bonds are now outstanding.

While the bonds will be paid on November 15, 1927, it is quite probable that during the next six months the Treasury will extend to the holders of the Second Liberty Loan bonds an opportunity to exchange them for other Government securities. No announcement has as yet been made as to the type of security to be offered in exchange, or the date on which the exchange offer may be expected. The Treasury explains that the terms of the bonds require that a notice be given to the public six months in advance of the redemption date. The Secretary's announcement, therefore, does not mean that the bonds will be paid at the present time, but merely places the holders on notice that their bonds will be redeemed on November 15, and will cease to bear interest on that date.

If holders of Second Liberties desire to have their bonds redeemed, they should present them for payment on November 15, 1927, but if they desire other Government obligations in place of their Second's, they should watch for further announcement and notify their bank to keep them informed of any exchange offering that may later be made by the Treasury.

In 1917 and 1918, it will be recalled,

when the Government was selling bonds of the several Liberty Loans, a nation-wide campaign was conducted, every available facility being used to reach the public and sell the bonds. The situation is now practically reversed, and the Government is preparing to redeem or exchange some of these bonds. While no such elaborate canvass is contemplated for the redemption notice as was undertaken in 1917, the Treasury nevertheless is making a special effort to inform the holders of Second Liberty Loan Bonds that their bonds cease to bear interest on November 15th. Banks and trust companies throughout the country will be asked to cooperate with the Government in spreading the news of this call for redemption, and in advising the holders of bonds that the Treasury will probably offer new securities in exchange. For the first time the radio will be used by the Government as a means of reaching millions of bondholders. An announcement will shortly be broadcast from the larger radio stations of the country.

The importance of acquainting bondholders with the fact that their bonds have been called for payment is emphasized by the Treasury's records of previous calls for redemption or exchange. These records show that there are still outstanding at the present time, in the hands of the public, about \$30,000,000 in Government securities upon which interest has ceased. Included in this amount are \$3,600,000 in Victory notes which ceased to bear interest in 1922 and \$14,500,000 in temporary bonds of the several Liberty Loans, to which were attached only a limited number of interest coupons. The last coupons matured some seven years ago. The holders of these temporary bonds have neglected to exchange them for permanent bonds having the full number of interest coupons attached, and until such exchange is made they have no means of collecting the interest. In the face of these facts, the Treasury is especially anxious that the present announcement reach as many Second Liberty bondholders as it is possible to reach through the press, the radio, and the banks of the country.

The Second Liberty Loan, which was issued in November, 1917, was the second large loan floated by the Government during the World War, and while this loan does not mature until 1942, the condition of the money market and of the Government's finances makes it possible and advisable to call the bonds for redemption in November.

IT PAYS

We are frequently asked if it pays to spend so much time in reconditioning and inspecting our used cars before they are offered for sale. The answer is that a great many of our used car purchasers come back when they want new cars. Doesn't that pay?
