

JACKSON CO. JOURNAL

DAN TOMPKINS, Editor

Published Weekly By the JACKSON COUNTY JOURNAL CO

Entered as second class matter at Sylva, N. C.

The hands across the sea are now very plane.

At least Florida has the courage to meet mob violence with force.

Charlie Lindbergh is some boy; but we take courage when we reflect that boys made of the same stuff, inhabit every town, hamlet and countryside throughout America.

If the governor is taking the "McLean for president" talk seriously we will immediately get in touch with Bob Reynolds, and insist that he make the race, himself. Bob really knows how to run.

Twenty-nine years ago the legislature of Kansas enacted a law prohibiting the sale of cigarettes in that bucolic state. The law has now been repealed. This is a hopeful sign that the day of freak legislation has had its sway and that the states will turn their attention to constructive policies.

Why a special session of Jackson county superior court, when there are but three or four cases on the docket, and Judge Stack couldn't find enough to keep his court busy even one week of the two allotted for May? Courts cost money; but if there is any necessity for a special term, the tax-payers of this county wouldn't object. However, we wonder what makes a special session in August necessary.

The radio and baseball fans throughout Western North Carolina are appreciative of the daily broadcasts from McCormick Field through W. W. N. C., and derive a deal of pleasure from the radio games; but it so happens that there are sometimes ladies and even gentlemen who are listening in, and they would enjoy it more if the fans at the field, who have their money placed on the games, would restrain their language. It is really not a good advertisement for Western North Carolina to broadcast profanity over W. W. N. C.

YOUTH!

Despite the flings at flappers and drug store cowboys, it is the young men and young women of the world who do worth while things. Witness, Charlie Lindbergh

It has been so through all the ages; and yet middle life and old age have ever shuddered for youth, and have lacked confidence in the ability of young men and women to do things.

Jesus was about 34 when he accomplished the redemption of the race; and while we have ever looked upon the Apostles as grand old men, it is a fact that Christ left teachings in the hands of a crowd of boys to keep the faith and carry the message of the Kingdom of Lue to the uttermost parts of the earth.

The old men, statesmen and diplomats started the world war, but young men fought it and saved at least a part of civilization.

Be not ashamed of your youth, young men and young women, most of the great things of the earth have been accomplished by boys and girls.

The older people should put more confidence in the youth of the land, and more responsibility upon their strong, young shoulders. It is the only hope for a greater and better race, a better government and a purer civilization.

ATTEND MEDICAL MEETING

Dr. and Mrs. C. Z. Candler attended the meeting of the Tenth District Medical Association, which met at Old Fort, this week. Dr. Candler is president of the Association. Mrs. Fred Siler of Franklin who accompanied Dr. and Mrs. Candler made a life time member of the association, her husband, the late Dr. Fred Siler, having been the first president of that organization.

MOVE TO WAYNESVILLE

Mr. and Mrs. F. E. Alley, Jr. and little daughters, who have made their home here for the past several years, have recently moved to Waynesville, where they expect to reside in the future.

Follow the small grain with a planting of soybeans or cowpeas for hay and seed.

TRAINING SCHOOL SUCCESS

(By A. V. Washburn)

The training school for Sunday school officers and teachers held at Barker's Creek Baptist church last week was a decided success both in numbers and interest shown by those attending. The work began Monday night with sixty five present and closed Friday night with ninety in attendance. A course in the Sunday School Manual was taken and a number finished the work and took the examination, Friday night.

During the week a religious census was taken of the community contiguous to Barker's Creek which revealed more than three hundred people preferring that church or Sunday school and looking to them for leadership. Arrangements were made to enlarge the organization to take care of their possibilities and steps were taken to cartain off rooms for classes.

Rev. Geo. Snyder of Beta is the fine pastor of this church and is loved by the good people of Barker's Creek. Mr. Claude Jones is the fine and efficient superintendent of the Sunday school and with this splendid team we may expect to see this church set a pace that other country churches would do well to emulate.

WHITTAKER-MONTEITH

Sunday afternoon, at the home of the bride's parents, Miss Hattie Whittaker and Mr. Lawrence Monteith were united in marriage.

The ceremony which was witnessed by only the families of the young couple, was performed by Rev. J. G. Murray, using the ring ceremony. After the ceremony Mr. and Mrs. Monteith left for a short trip and are now at home to their friends at the home of the groom's parents.

Mrs. Monteith who is the daughter of Mr. and Mrs. Alex Whittaker, has been bookkeeper for the firm of J. B. Ensley and Son for some time. Mr. Monteith, the son of Mr. and Mrs. S. H. Monteith, is the junior member of the firm of S. H. Monteith and Son.

FALLING TANK WRECKS BUILDING

A 7000 gallon water tank with its tons of water crashed through the southern corner of the pan house building at the Parson's Tanning Company's plant here, about noon, Wednesday. The damage to the building was considerable and water and steam pipe lines were broken and twisted. There was no one at work in the wrecked part of the building at the time.

The large tank was located at the lower end of the building, outside, and even with the roof of the main building; and fell without warning. The cause of the accident is not known.

Workmen are already clearing away the wreckage and preparing to repair the building and reset the tank.

The Tanning company has been making a great many repairs, this Spring, practically rebuilding the Leach house.

CARD OF THANKS

I wish to express my appreciation and grateful thanks to our many friends and neighbors for their kindness and sympathy thru the illness and death of my husband; and for the beautiful floral offerings of the Masonic Lodges of Waynesville, Sylva and East Laporte; the C. C. force of Sylva and of the many other kind friends.

Mrs. W. W. Brown.

YOU CAN GROW BEANS IN SPITE OF BUGS

(By C. W. Tilson, Farm Agent.)

It costs a little more to grow any kind of crop than it use to cost due to the pests we have to fight. Fighting the bean bug is not an awfully expensive job and anyone who will take a little trouble can certainly have plenty of beans in spite of the bugs.

If you already have a spray pump of any kind that you can use and get the spray on the under side of the bean leaves use a mixture of 3-4 ounce calcium arsenate 1 1-2 ounce Hydrated Lime to 3 gal. water. 90 gallons of this spray would spray 1 acre one time and Calcium Arsenate for making 90 gallons will not cost over fifty cents. Always apply the spray when bean leaves are dry and use it once every week. Fewer sprays would work.

In case you have no spray a small bellows type dust gun that has a nozzle upturned to throw dust on underside of leaves will cost no more than a dollar and a half and last five years. A good dust mixture is made by mixing 9 pounds of Hydrated lime to 1 pound Calcium Arsenate and using every week as a dust when the dew is on. Twenty pounds of this mixture will dust one acre one time. You can buy Calcium Arsenate in Sylva for not over 25c. per pound and a 50 pound bag of lime costs a very small amount.

Be sure to spray or to dust your bean vines regularly once every week. Don't stop spraying or dusting when you start picking beans. This is a government formula and no danger from poison, if you will wash the beans well through two old water washes.

Call at the County Agent's office in Sylva for the U. S. Department of Agriculture bulletin on controlling bean bugs.

What Would You Do Without Your Eyesight?

Such a picture? Weeks, Months -- a lifetime of darkness? How precious eyesight is.

Yet even now, you may be cheating your eyes, squinting and straining to see clearly.

Know the condition of your eyes. Be assured either that your eyesight is good or that it is properly corrected.

Have your eyes examined. DR. A. C. DOVIE'S, (OPTOMETRIST)

will be at the Man Store, Sylva, N. C. Monday, June the 6th, 1927 for the purpose of examining eyes and fitting glasses.

Hawkins Moves

I have moved my Cafe from the Bryson Building, and have Consolidated with Mr. Snyder in Snyder's Cafe, Cole Building. We will be better equipped and able to give better service than ever before. Your patronage will be appreciated.

W. A. HAWKINS

HUNGRY?

A nice piece of pie; a cold glass of milk—a combination of food you can get at our restaurant at any time.

For regular meals—our menu tempts the diner and is easy on the pocketbook. TRY US!
