POLICE SAYS NO OBJECTION MADE TO SEARCH

Following the publication of an editorial in the Franklin Press, criticising the action of Sylva officers in searching the car of W. T. Moore, Franklin Banker, in Sylva week before last, "Bill" Martin town marshal of Sylva, stated to a representative of the Journal, that he was present at the time the search was made and that Mr. Moore made no objection to having his car searched; but to the contrary, invited the officers to search it, when he was told that it was suspected of containing liquor though he did not tell the officers who he was, prior to the search, according to Mr. Martin.

Mr. Martin stated that he had received reports that a car of liquor, answering to the description of Mr. Moore's car and driven by a man whose description closely resembled that of Mr. Moore, was coming thru.

He stated that when he saw Mr. Moore going through town he started

Waynesville Boys Make Georgia to Sea Run

Leaving the Georgia line at 5 o'clock Tuesday morning, passing through Sylva at about 7 o'clock, and racing on down the state over Highway No. 10, C. G. Logan, Jr., and J. P. Swift Jr. Waynesville boys, arrived at Morehead City at 7:44 o'clock Tuesday evening, making the dawn to dusk drive from Georgia to the sea.

The two young men said that they kept within the state speed laws all the way. When they arrived at Durham they were 22 minutes ahead of their schedule, but later ran out of gas, losing 8 minutes.

The run was made under the auspices of the Waynesville Chamber of Commerce and the speedometer at the end of the trip showed 569 miles.

TOWN CONTRACTS

CITY HALL BUILDING

The contract for the erection of the new city hall and fire department house was awarded Monday to W. Mike Brown, by the board of aldermen of Sylva at a contract price of \$2935.00, this being the lowest bid made for the materials and work.

The contract calls for the completion of the building by September First. The city hall, which will contain the fire house, mayor's office and serve for other functions for the city, is to be erected on the lot now owned by the town at the junction of Allen Street and Dillsboro road, just north of the Scott's Creek bridge. It is to be of concrete foundation and the second story is to be of brick.

WIKE FARM SOLD AT AUCTION

The Home Realty and Auction Co., of Franklin, and Horney Brothers, of Asheville and Lakeland, conducted the sale of the C. B. Wike farm, near Cullowhee, Tuesday and officials of the auction company state that the sale was a good one, the property being readily bid in at good prices.

It is reported that Reggie Vanderbilt has spent thirty million dollars in twenty years—and yet we have never heard that he ran a newspaper—or backed a show troupe.

In pursuit, to investigate and found Deputy Sheriffs Claude Green and Claude Wike, on the same errand. He states that they quietly stopped Mr. Moore and informed him of the reports they had received and that Mr. Moore invited them to go ahead and search his car to satisfy themselves about it.

"It was merely a case of mistaken identity," said Mr. Martin, "and there was no fuss made about it, the search being made at the invitation of Mr. Moore and in the presence of only three or four bystanders, who gathered when they saw the officers stop Mr. Moore's car."

The Jackson and Swain men are being entertained enroute by Chambers of Commerce, Farmers' Organizations, and other civic bodies.

Buchanan and Powell Will Not Make Run

Because of the serious illness of Mrs. I. H. Powell, Mr. Powell and Mr. Harry Buchanan have indefinitely postponed the Georgia to the Sea dawn to dusk drive, that they had planned, and that had been announced would be made this week.

All preparations for the trip had been completed, but Mrs. Powell was stricken with appendicitis, Thursday night and rushed to the hospital for an operation. Her condition is said to have been serious; but she is now resting well and is improving.

COUNTY GETS AN ADDITIONAL \$2000

Following the campaign by the JOURNAL and by other friends of education and a visit to Raleigh by county superintendent, protesting in Jackson county, the unfair treatment that the county received at the hands of the equalizing commission, last week, granted Jackson county an additional \$2000.00 from the equalizing fund.

While people in the county who are familiar with the facts assert that this is far short of what Jackson is really entitled to, they are delighted with the success that has been attained in securing this additional amount for the schools of the county.

One prominent citizen of the county called the Journal and offered his congratulations upon the rather unexpected success of the campaign and was kind enough to insist that the editorials appearing in the Journal for the past few weeks, were largely instrumental in bringing the \$2000.00 additional to the county.

Mr. Fisher was a native of Jackson county, a member of a prominent pioneer family of the county, and has made his home here all his life. He is survived by five daughters, wife of the sheriff of Jackson county, Mrs. C. W. Allen of Sylva, Mrs. Robert Patton Asheville, and Misses Alma and Lucy Belle Fisher of Dillsboro; one son, J. W. Fisher of Fort Royal, Virginia, one step son, Geo. McDade of Dillsboro and a large number of friends and relatives throughout Western North Carolina.

Expressions of sympathy have been heard on every hand, for this family, the death of Mr. Fisher following so closely upon that of his wife who preceded him to the Beyond only two months ago.

Mr. Fisher had been a member of the Dillsboro Methodist church and of Dillsboro Lodge, A. F. & A. M. for many years, and was known and loved for gentleness and kindness toward all with whom he came in contact.

Floyd Bennett, pilot of the Byrd North Pole flight, is coming to the Cullowhee State Normal on Friday, August 5, under the auspices of the school lyceum course. While here Mr. Bennett is scheduled to give an illustrated lecture concerning his experiences at the North Pole.

Pilot Floyd Bennett, according to Commander Byrd, U. N. N., the organizer of the expedition, deserves much credit for the first successful flight to the North Pole. Mr. Bennett was chosen for the great adventure because of his knowledge of the aviation motor, as well as his skill as a pilot—which alone could insure the success of the great undertaking. The only possibility of a return to civilization alive if engine trouble had forced a landing on the ice lay in Bennett's knowledge of the giant motors which drove the great monoplane to the North Pole and back again.

Since the triumphant return of the North Pole flyers, Mr. Bennett has achieved a considerable reputation also as a public speaker and lecturer. Although extremely modest about his own accomplishments, Floyd Bennett has a direct and sincere manner of speaking and telling one of the most interesting stories of history. He has already visited fifty cities from New York to San Francisco, travelling by airplane. His

FLOYD BENNETT

coming to Cullowhee was arranged by president Hunter after a lengthy correspondence with Charles I. Reid, his representative, which finally resulted in a mutually satisfactory result.

On May ninth, 1926, the world resounded with the news that two Americans, Floyd Bennett and Richard Byrd of the U. S. Navy, had flown over the North Pole. America's claim to the North Pole was cinched. The intrepid flyers, Byrd and Bennett, had reached the pole and circled it several times, verifying Admiral Peary's observations completely. The flight had been favored by continued sunlight and there was never the slightest fog—so that Commander Byrd, with his sun compass
