

## OUR CHURCHES

### SYLVA METHODIST CHURCH

Rev. W. M. Robbins, Pastor  
Schedule of Services.  
Preaching at Sylva every Sunday morning at 11 o'clock except the 4th Sunday and every Sunday evening at 7:30 except the 2nd Sunday.  
Sunday school every Sunday morning at 10 o'clock.  
Epworth League every Sunday evening at 7 o'clock.  
Prayer meeting every Wednesday every 2nd Sunday evening at 7:30.  
Preaching at Balsam every 1st and 3rd Sunday afternoon at 3:15.  
The public is cordially invited to all these services.  
Preaching at Dillsboro every 4th evening at 7:30.

### SYLVA BAPTIST CHURCH

Rev. J. G. Murray, Pastor  
Preaching every Sunday at 11 o'clock in the morning and at 6 o'clock in the evening.  
Sunday School at 9:45 Sunday morning, A. J. Dills, superintendent  
B. Y. P. U. at 7 o'clock Sunday evening.  
Prayer meeting at 8 o'clock Wednesday evening.  
Choir practice immediately following prayer meeting each Wednesday evening. W. C. Reed, choir director  
A very cordial invitation is extended to the public to attend these services.

### BALSAM GROVE BAPTIST CHURCH

Rev. Ben Cook, Pastor  
Preaching Saturday before the first Sunday, at 11 o'clock and the first Sunday, at 11 o'clock.  
Sunday School every Sunday morning, at 10 o'clock.  
Everybody invited to all of these services.

### BLACK MOUNTAIN BAPTIST CHURCH

Rev. Ben Cook, Pastor.  
Preaching Saturday before the second Sunday, at 2:30, Sunday at 11 o'clock.  
Sunday School at 10 o'clock.  
Prayer Meeting Wednesday evening at 7:30  
Everybody is invited to attend all of these services.

### CEDAR BAPTIST CHURCH

Rev. Ben Cook, Pastor.  
Preaching Saturday before the third Sunday, at 2:30; Sunday at 11 o'clock Sunday School every Sunday morning at 10.  
Everybody is invited to attend all these services.

### NEW SAVANNAH BAPTIST CHURCH

Rev. Ben Cook, Pastor.  
Preaching Saturday before the fourth Sunday at 2:30 and Sunday at 11. Sunday School at 10.  
Everybody is invited to attend all these services.

### QUALLA BAPTIST CHURCH

Rev. R. L. Cook, Pastor  
Sunday School every Sunday morning at 10:00 o'clock  
Preaching Third Sunday Morning in each month at 11:00 o'clock.

### BALSAM

Born to Mr. and Mrs. Hubert Ensley, Sunday morning, a son, Lewis Murdock.  
The graded school opened Monday, with an enrollment of 81 pupils. Mr. B. B. Long of Cullowhee, principal, Miss Bridges of Wilson, Intermediate, Miss Louise Parker, Primary. 21 boys and girls entered the High School at Sylva.  
Charles Perry, of Franklin spent the week end with his mother, Mrs. Mabel Perry.  
Mr. and Mrs. N. R. Christy, Mr. J. B. Queen, Mr. Grady Queen visited friends at Almond, Sunday.  
Corbett Ensley of Asheville is visiting his parents here.  
Mr. and Mrs. Leroy Dock of East Orange, N. J., are on a visit to his mother, Mrs. A. F. Dock of Balsam Lodge.

A pedestrian is a logical prospect for automobile insurance.

Federal prohibition forces promise a big shake-up. Does this mean we are to have mixed drinks?

### PROFITS IN HOGS BEGIN WITH SOW

Raleigh, N. C., Sept. 7.—The old brood sow is an important animal on North Carolina farms these days. The better the care given her, the higher the profits secured from her pigs.

Realizing this, the Agricultural extension Service of State College has prepared and now has already for distribution, extension circular 151 which tells in some detail how to handle the brood sow. The circular describes good methods of feeding, and management during the periods of flushing, gestation, farrowing and nursing. Exact rations to feed the sow during these four periods are given and methods of feeding are explained.

The bulletin points out that the farrowing period is one time that the sow needs more assistance than is generally given her. An individual house supplied with fenders or guard rails to prevent the sow from crushing the new born pigs is recommended and this house needs to be properly built and located so as to protect the young from cold winds and wet, unseasonable weather.

Feeding following the farrowing period, rebreeding the sow and marking the litter are three other subjects discussed. Clipping the teeth of the young is advocated that the pigs may not tear one another and thus afford an entrance for disease germs. The young pigs have teeth of needle like sharpness and a small pair of pliers or snips may be used without injuring the gums, lips or tongue.

The extension service workers feel that the increased interest in pork production in North Carolina will make this circular very popular. Only 5,000 copies have been printed in the initial order and while requests received indicate that this supply will soon be exhausted, an additional order will be secured if the demands received warrant a reprint. Copies of the present supply may be had free of charge by applying to the agricultural editor, State College.

### CULL THE BIRDS BEFORE WINTER COMES

Raleigh, N. C., Sept. 6.—Close up the hen house some night and early the next morning take out the birds one by one and examine them for their fitness to remain in the laying flock.

"This is a good way to save money," explains Dr. B. F. Kaupp, head of the poultry department at State College. "A bird that is no longer profitable, should be removed. The labor of culling is not great but each bird must be handled to determine its physical fitness. The development of the head, neck and body should be studied and if the bird appears to be unprofitable, send her to the market or to the table."

In culling the birds, Dr. Kaupp states that a high producing hen has a wide body behind the wings and this width is carried to the tail. This gives space for the development of a massive ovary and its developing yolks during the laying period. It also allows for a large oviduct and plenty of intestine. The narrow-bodied hen is always a poor layer.

Then, too, examine the fat. The normal fat of a fowl is yellow, made so by the pigment in yellow corn, carrots or green feed. But a high producing hen soon bleaches out this yellow color. The bleaching goes on all over the body but is first noticed in the beak and shanks. The heavier the egg production, the greater the bleaching. The yellow pigment is used in the developing yolks of the ovary.

Each poultry flock in North Carolina should be gone over carefully at least once a year, states Dr. Kaupp. It is a useless waste of money to feed unprofitable birds during the winter months especially when so much of the food has to be purchased or prepared. Any time during the year that a bird becomes unfit for profitable production, that bird should be used on the table or sold. If the bird is diseased, it should be killed and the carcass burned to prevent spread of the trouble to other fowls.

### BRINGS IN THE POTATOES

W. M. Harris, one of the Journal's friends on Sylva R. F. D. 1, brought us a basket of fine sweet potatoes, last week, which Mr. Harris believes to be the first local sweet potatoes to be brought to the Sylva market this season.

A prosperous fall is the indication from crops all over North Carolina. Many farmers will pay off the mortgage this year.

### GET MARKET QUALITY IN VEGETABLE EXHIBIT

Raleigh, N. C., Sept. 6.—It's not the largest potato or other vegetable that wins the blue ribbon at the fairs; it's the best marketable grade which is true to type and is smooth and free from all blemish.

"In these days of standard grades and packs, the largest specimens no longer win the first prize unless specifically called for in the catalogue classification," says Robert Schmidt, vegetable specialist at State College. "The margin by which many vegetable exhibits lose out in the prize money, could easily be wiped out by a little more care in selecting the specimens and a better knowledge of scoring."

Mr. Schmidt states that vegetables are usually scored according to their uniformity, smoothness, trueness to type, freedom from blemishes and their size. The exhibit that wins should contain vegetables which are uniform in size, condition and color. They should be free from all blemishes caused by insects, frost or other agencies. The specimens should be true to type and of a marketable grade. This means that all specimens should be neither too large nor too small. Over grown specimens are especially undesirable.

By giving a little more attention to these points, Mr. Schmidt believes that a much better exhibit can be made. In some cases it pays to wash the vegetables before they are exhibited. This is not necessary, however, unless they are very dirty. It does pay, though to go to some trouble to make the exhibit attractive and when the exhibit is shipped by freight or express, each specimen will arrive at the fair in better condition when it has been wrapped to prevent bruising.

### HOG FEEDERS LOSE THROUGH OILY PORK

Raleigh, N. C., Sept. 6.—Carefully kept records on hog feeding ventures in North Carolina during the first six months of 1927, show that hogs shipped by a few hundred cooperating farmers were docked \$7,300 for being in a soft or oily condition.

"Our records show that some of our farmers are undoubtedly the most efficient hog feeders to be found anywhere and it may be said with equal assurance that some others are the poorest," says W. W. Shay, swine extension specialist at State College. "We have some men cooperating with our county agents in swine feeding work who made an average profit of over \$10 per pig and other men with equal opportunity registered a loss."

Slow and costly production mainly through the use of soybeans and a low price for pork due to the low quality grown, served to cut the profit, explains Mr. Shay. In one county, the total shipments amounted to \$57,413.55 with a dockage of only \$315.51 for soft pork. In another county the total shipments were only \$5,281.94 and these hogs were docked \$935.32 for a soft or oily condition. The whole matter is explained in the methods of feeding, Mr. Shay finds.

For 17 years a 200-pound hard hog has sold in September for more than a 300 pound soft hog has sold in December. This is true even when special crops have been grown for the oily hog. It usually costs more to produce an oily low-priced hog than it does to produce one which tops the market. Again, it is all in the feeding, says Mr. Shay.

Seed corn selected from stalks in the field will produce 20 percent more corn the first year than the same seed selected from the crib at planting time

### NORTH CAROLINA, JACKSON COUNTY.

I, Jess F. Brown, a citizen of Jackson County, North Carolina do hereby enter and claim Sixteen (16) acres of land more or less, in Savannah Township, Jackson County, North Carolina, lying and being on the headwaters of Savannah Creek; Beginning on a small chestnut, a corner of Grant Number 450, standing North 20 Degrees East Ten poles from the locust beginning corner of the R. O. Brown land, in the County Line and runs thence with R. O. Brown Land North 18 Degrees East about 200 poles to a Black Gum in the Horn-buckle Gap, thence to and with Bishop's Land and Grant No. 450, and various courses and distances for complements to the beginning, as the case may be so as to include all the vacant land lying in that vicinity.

Jesse F. Brown L. S., Claimant Approved; W. W. Bryson, Entry Taxer for Jackson County. 9-7-27.

### WANT COLUMN

The rate for classified ads in this column is 10c. per line for each insertion, averaging six (6) words to a line.

USED INTERNATIONAL TRUCK light delivery, 3-4 ton, paneled body, for sale or trade at a bargain L. C. Hall.

FARMING—Western Carolina's best methods and opportunities described in new farm Journal. Sample free. Half year subscription ten cents. Hollowell's Mountain Farmer, Hendersonville, N. C.

USED INTERNATIONAL TRUCK, light delivery, 3-4 ton, paneled body, for sale or trade at a bargain L. C. Hall

FOR RENT—FOUR ROOM HOUSE, with garden, pasture, and wood. 1 1/2 miles from Sylva. Apply V. L. COPE, Sylva. 8-17-27p.

USED INTERNATIONAL TRUCK, light delivery, 3-4 ton, paneled body, for sale or trade at a bargain L. C. Hall

FOR SALE—A Pair of 7 year mares known as the Paul Kitchen mares. Ransom Bryson, Cullowhee, N. C.

USED INTERNATIONAL TRUCK, light delivery, 3-4 ton, paneled body, for sale or trade at a bargain L. C. Hall

TENT FOR SALE—Large Size, good order. John T. Jones, Balsam, N. C.

USED INTERNATIONAL TRUCK, light delivery, 3-4 ton, paneled body, for sale or trade at a bargain L. C. Hall

FOR SALE—1 Pair of Mules age 5 and 6 years, wagon and harness. Will trade for cows or hogs. Terms if wanted. N. C. Brown, Sylva, N. C.

FOR SALE—FORD TOURING CAR 1925 model, good condition. Apply Harold Morgan, at Jackson-Chevrolet Co.

CAR STORAGE I HAVE AMPLE room for storage of automobiles. Rates by month, week or day. See J. H. DeHart at Coward House

FOR SALE OR EXCHANGE FOR anything you've got:  
1 Ford Sedan, practically new  
1 Ford Touring in A 1 Condition  
1 Ford Roadster in good Condition  
And could sell you 27 nice hogs and pigs and have one left.  
W. P. POTTS.

### AIN'T IT THE TRUTH

I am a nickel.  
I am on speaking terms with the candy man.  
I am too small to get into the movies  
I am not large enough to buy a necktie.  
I am of small consideration in the purchase of gasoline.  
I am not fit to be a tip; but, believe me when I go to church and Sunday School—  
I AM SOME MONEY.

### WHY WE HAVE WON A REPUTATION

as the commercial bank that renders service to all depositors, small and large. Because we have ever kept in mind a single aim—that this is a semi-public institution, designed for the larger service to the community. And we never forget our responsibility to the public.

### Tuckaseege Bank

Finer than ever in Quality  
Lower than ever in Price

Today's Pontiac Six is the finest Pontiac Six ever built. Not merely does it offer the fashionable smartness of Fisher bodies in new Duco colors, but it brings to the buyer those many refinements which have been made in Pontiac Six design since the first Pontiac Six was introduced.

Yet it sells for less than ever—the result of price reductions made possible by the economies of increased volume production in the world's newest and finest motor car plant.

Unless you have actually driven today's Pontiac Six—actually studied

the richness of its Fisher bodies and its exclusive features of modern design—you cannot know what thrilling power and smoothness, what thorough road mastery, and what enduring satisfaction can now be obtained in a six at \$745!

New lower prices on all passenger car body types. (Effective July 15)

Coupe - \$745 Sport Cabriolet \$795  
Sport Roadster \$745 Landau Sedan \$845  
De Luxe Landau Sedan - \$925

Pontiac Six De Luxe Delivery, \$585 to \$770. The New Oakland All-American Six, \$1045 to \$1265. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the General Motors Time Payment Plan.
