

**JACKSON CO. JOURNAL**

DAN TOMPKINS, Editor

Published Weekly By the JACKSON COUNTY JOURNAL CO

Entered as second class matter at Sylva, N. C.

Shop now. Shop is Sylva.

A mighty good thing to remember during the Christmas season: "As ye did it unto the least of these, my brethren, ye did it unto me."

Maybe one reason this guy Lindbergh delivers the goods is because everybody has confidence in him.

Morganton is discussing organizing a chamber of commerce. The experience of Sylva proves that such is a great institution.

Mr. Clemmer, Mr. Murray, and the others who staged the father and son banquet, did a great night's work for this community.

There is only Highway 106 to be completed and Jackson county will be ready to go forward as a unit.

Fewer dollars mixed with our diplomacy might materially aid the object of Lindbergh's "good will flight" to Mexico City.

"To those that have shall be given" Mr. C. C. Dula has just presented Duke University endowment fund the little sum of \$200,000.00

We can send marines to Nicaragua to maintain the peace; but we can't send ministers on a peaceful mission to help bring about world peace. Strange kind of followers of the Prince of Peace, we!

A few years ago we had the "Washington Disarmament Conference", and proceeded to scuttle and send down to Davey Jones' locker a large number of our best battle ships. Now the secretary of the navy is recommending to congress that we build 71 new ships; and he is supported by President Coolidge. The steel trust, no doubt is delighted. Thus do we forge ahead with bringing about "Peace on Earth and Good Will Toward Men."

How fortunate is America to have Lindbergh! He flew to Paris and re-established friendly relations that blundering diplomacy had disrupted between our country and the French Republic. Now he has gone down to Mexico and the Mexicans are feeling better toward us.

50 per cent of the North Carolinians entitled to the government bonus have not sent in their applications; and the time expires on January 1. Talk to every former service man you see and ask him if he has applied for his bonus. These North Carolinians will lose many thousands of dollars by indifference.

Mr. Thomas W. Alexander, in the Asheville Citizen of this morning, expressed the fear that the paper mill at Sylva will be the beautiful Tuckasee as the Champion Fibre Company's Canton plant has the Pigeon. We are assured that the Sylva mill will be odorless and that the waters of our streams will not be discolored.

**SAVE THE EVERGREENS**

The holly trees that you see growing along the highways, in the fields, and the woods aren't yours. They belong to somebody else, and you have no right to take them without permission from the owner. "Thou shalt not steal" applies to the farmer's holly and evergreens, as much as it does to the trees in the city man's yard, or the money in his pocket.

**A JUDGE AND A PISTOL**

Judge Henry A. Grady, ex-Ku Klux Dragon, presided over the court of Wayne county, Saturday and Sunday when feelings were tense, and the relatives and friends of a murdered girl, righteously indignant, and with hearts torn and nerves, attempted to take the negro that was on trial, with a revolver beside him, saw that the law was upheld and the majesty of North Carolina was upheld.

The negro was convicted and will be electrocuted next month.

Three notable things happened. A term of court was held on Sunday. Justice was speedy and sure. A judge of North Carolina held off the mob spirit at the point of his pistol. The people of North Carolina can feel pride in the whole of the trial.

What need is there of Mr. Cool-

idge's federal anti-lynching law?

**GEORGIA GOES THROUGH**

The state highway commission of Georgia in deciding to immediately let to contract the remaining link of the Asheville-Atlanta short route, from Tiger to Clarksville and thru rush to completion this important road, has done all Western North Carolina and North Georgia a great service.

The distance between Asheville, the metropolis of the mountains and Atlanta, the great city and capital of Georgia will be shortened by forty miles or more and there will be most excellent results to both cities and their territory.

Sylva and Jackson county, the junction point of the two great highways are particularly happy over the work that the Georgia commission is doing.

**STATES RIGHTS**

A short time ago President Coolidge gave utterance to a speech that breathed states rights, and that gave renewed hope that we might, sometime, get back to the fundamentals of government in this country. All believers in local self-government and the rights of sovereign states felt renewed hope. In his message to congress, Mr. Coolidge recommends a great federal department of education. Some mental gymnastics in that change.

In his message, Mr. Coolidge also urged federal anti-lynching laws. Not a word did he say on behalf of outraged womanhood. No recommendation was made for the federal government to protect the white women of this country. Nothing was recommended to prevent murder, or gang-warfare, or for the protection of the unfortunate white men who are sometimes lynched by their fellows; but Mr. Coolidge lauds the Negroes to the sky and fees that it is the duty of congress to protect them, even at the cost of his professed love for state's rights.

And yet there are people who think that Mr. Coolidge isn't fishing for votes himself.

more profitable crop than beef cattle on some mountain farms say those who have grown the tubers during the past few years.

# The WINCHESTER Christmas Sale

Now being conducted by thousands of Winchester Stores all over the United States.

THIS GIGANTIC VOLUME BUYING HAS ENABLED US TO OFFER FOR THE HOLIDAY, PRICES THAT CAN NOT BE EQUALED.
