WHERE TO GO?

A number of Democrats have been opposing the election of Governor Smith, and supporting Mr. Hoover, saying that they are opposed to Smith because of his stand on prohibition, and have been making of prohibition an issue in the campaign.

Throughout the length and breadth of the land opposition to Smith has been voiced because of the fact that he is a Roman Catholic. The agents of somebody have been very busy retailing all kinds of talk about the Catholics and have been inflaming the minds of the people with religious prejudice. The country has been blanketed with anti-Catholic papers and pamphlets, for which somebody has been paying a lot of money. Some preachers and itinerant evangelists have made it their business to attack the Catholic church and Governor Smith because of his affiliation with that church.

Now Mr. Hoover, the man who was to save us from Rum and Rome, issues a clear-cut statement, declaring that he does not want any votes either for himself or for the Republican party because of religion, rebukes those who have been making religion an issue in the campaign, and deprecates the fact that religion should ever be raised as an issue in a political campaign in this country, which is dedicated to religious freedom. Mr. Hoover then directed Dr. Herbert Work, chairman of the Republican national committee, to make it clear to the people that prohibition is not an issue in the campaign, and Dr. Work proceeded to tell the people that prohibition is not to be considered as an issue.

If we are to take Mr. Hoover and Dr. Work at their word; if we are to consider them as men of honor; if we are to believe that they mean what they say; just where does that leave the Democrats who have been opposing Smith because of his religion or his prohibition attitude, or both?

In what kind of predicament do the Republicans, who have used the two things against Smith, find themselves?

We have been told from pulpit, from forum, from press, from pamphlet, and from whisperer that we must not vote for Smith because he is a Catholic and because he is wet. Now Mr. Hoover and Dr. Work assert that neither of these is to be considered as an issue.

In other words, Mr. Hoover and Dr. Work have repudiated everything that has been urged upon the Southern Democrats why they should oppose Smith, except the excuse that is sometimes used, that he is supported by Tammany.

Since the nominée, Mr. Hoover, and the chairman, Dr. Work, have made these matters entirely clear, can anybody assign a reason why the Anti-Smith Democratic Headquarters, shouldn't close up and go home? That is unless there is some reason back of all this that the people have not been told about.

SUCCESSFUL LIVESTOCK AND POULTRY SHOW WILL MEAN MUCH TO COUNTY

(By C. W. TILSON)

It is doubtful if there has ever been a time when a good livestock and poultry show could mean so very much to everybody in Jackson county as the show coming the 19th and 20th of this month. Seldom if ever in the history of livestock development over the world do we find a county section that has grown or does grow lots of good livestock without a real good fair or show each year. And everywhere in the livestock history of the various sections of the entire world that a real fair or livestock show is held where people come together in friendly rivalry and exhibit their stock every fall, we find lots of good livestock on the farms in that section. The shires or counties of England that developed and gave the world the purebred breeds of cattle, sheep, and hogs developed them largely through their wonderful shows and fairs each year bringing the livestock together and comparing them to see who had the best individuals of the breed they were working to develop. So we have the Hereford cattle named for Herefordshire, or as we would say Hereford county in England where they were developed. We have the Hampshire sheep named for Hampshire county England where the breed was developed, and we have the Hampshire hog developed in the same shire or county.

The Guernsey cow, and Jersey cow were given us by the Guernsey and Jersey Islands on which they were bred and developed. This good livestock came to America and it was shown to our people at the fairs and it made everybody who saw it want good livestock on their farms. So good stock went out over this country on to the farms to take its place in building up better livestock for farmers to use in breeding, raising, grazing and selling live stock and livestock products that brought more dollars. And these dollars have always made a higher standard of living, happier homes, good churches, better schools, good roads and prosperous business for all our people in the country and the town alike.

The most accurate census figures available show that Jackson county now has 2,543 farms. On these farms we have 6,851 cattle of all kinds; 4,750 hogs; 3,115 sheep; and 48,986 hens; and less than 1,000 turkeys.

This means that we now have less than 3 cattle; less than 2 hogs; far less than 2 sheep; and less than 20 hens per farm, and not even 1 turkey for every two farms. Nothing could be more evident than the fact that right now Jackson county farms need to be restocked with every kind of livestock. The farm income from livestock and poultry and their products can easily be and must be ten times what it is now. Then we will go forward ten times faster for having better and happier homes, higher standards of living, good roads, schools, churches, and prosperous business. And hard times or high taxes will not be a problem.

Wonderful progress is now being made by our farmers in restocking their farms with all kinds of livestock. There is nothing our farmers, business men, county agent and everybody can do to hasten the growing of lots of livestock on Jackson county farms than to make our coming Livestock and Poultry Show a real success.

The Sylva Paperboard Company and Tannery have made it possible for us to have excellent housing space for the livestock and poultry show together and well protected. Our business men have cooperated wonderfully in financing the show with attractive cash premiums. And already many of the farmers have told the various departments of the show that they are showing some good livestock and poultry. Come along and get busy seeing that you and your section and farm and community are represented with some good livestock and poultry in this show.
