### W. T. CRISP DESPERATELY ILL

Mr. W. T. Crisp is desperately ill at his home on Savannah Road, in Sylva, following a stroke of paralysis, on Friday.

His children have been summoned to his bedside, and Mrs. Etta Morton has arrived from Mars Hill, Napoleon Crisp from Norfolk, and G. C. Crisp from Candler. Luther Crisp lives in Florida, Frank in Macon county, Mrs. Mira Loftis, Gaiter and Judson Crisp live here.

Mr. Crisp was a well known and active citizen of the county, until the loss of his lower limbs, a few years ago. He has lived in Sylva and in Savannah township all of his life and has taken an interest in the affairs of the county and state, and has been an active member of the Baptist church.

His many friends will regret to learn of his serious illness.

### CULLOWHEE COLLEGE HAS LIVE-AT-HOME WEEK

Cullowhee, Dec. 20—The present week at Western Carolina Teachers College has been "live at home" week in line with Governor Gardner's request to state institutions. Beginning last Sunday, Miss Maddux, the dietitian, planned every meal in such a way as to use only North Carolina products as far as possible and practicable. Mr. Heffner, the purchasing agent, cooperated, making special trips to Waynesville, Asheville, and other places, to purchase supplies produced in the state. Apples came from Barber orchard, Waynesville; Wheathearts and grits from Biltmore spinach, eggs, flour, potatoes, rutabagas, etc., from Asheville; ice cream from the Southern Dairies; fish from eastern Carolina.

These were supplemented by dairy products, meats, and vegetables from college farm and dairy. On Monday a special luncheon was served, to which the members of the Cullowhee Community Life Club with their husbands were invited. There were about thirty guests present in the college dining room. The menu for that day was: roast pork, tomato perfection salad, boiled potatoes, spinach, biscuit, mashed rutabagas, spinach, biscuit, butter, gingerbread, with whipped cream. Miss Maddux has given a fine demonstration that North Carolina could, if she would live at home all the time.

### W. C. T. C. STUDENTS AND TEACHERS HAVE HOLIDAY

Cullowhee, Dec. 20—The Campus of Western Carolina Teachers College was full of scurrying teachers, students, and taxis this afternoon. It wouldn't take a prophet to tell what is taking place. For one thing, the tasks of the fall quarter are all behind. None but a student or a teacher can tell what that means. For one thing, every one seems eager to start toward home. Many of the group have not been home since September. They have come from a wide territory, forty or more counties in North Carolina, and several other states. Some students will travel on trains, some on buses, some taxis, some by private cars. Two car loads of young people are driving to Raleigh and other points in eastern Carolina. Teachers and officers will go to their homes or visit, some in Tennessee, some in South Carolina, Kentucky, Virginia, or Missouri. Miss Jessie Stanley, secretary, goes to Florida and Cuba. Miss Mary Rose Feagans, whose home is in Indiana, will remain at Cullowhee as will resident members of the faculty. The College reopens January second.

### CHRISTMAS SHOPPERS THROUGH SYLVA SHOPS SATURDAY

With the detour to Cullowhee in good condition, large crowds of belated Christmas shoppers thronged the Shops of Sylva all Saturday afternoon and evening.

The detour is reported as being as smooth as a pavement, this morning, the frozen ground being covered with packed snow, and the two biggest shopping days in the history of the town are expected today and tomorrow.

### CHRISTMAS IS HIS 100TH YEAR

To the most of us Christmas is Christmas; but to "Uncle Johnny" Crawford, out in Clay, it also means that it will mark the end of a century of life.

The folks in Clay and Cherokee, are planning a huge birthday celebration for Mr. Crawford, to be held in the auditorium of the High School at Hayesville.

Add to cold weather hazards, carbon monoxide from gasoline motors. It is safest to never start your motor in a close garage, and to always allow some ventilation in closed cars. The devilish thing about the stuff is that it sneaks up and kills you before you know it, being noiseless, odorless and tasteless.
